SHAMROCK II IS BEATEN

Gets Left Five Minutes by Older Boat in Twenty Miles.

LAID TO HEAVY BOOMS AND GAFFS

Ill-Setting Mainsail Also Blamed for Lack of Speed—New Boat Goes Back to Southampton Dock.

LONDON, May 13.—The Shamrock II beat the Shamrock I by five minutes over a twenty-mile course.

WEYMOUTH, May 13.—The Erin towed in both the Shamrocks yesterday in a hot, hazy rain, which gave little promise of racing weather. The yachts anchored inside the Portland breakwater. During the night a fresh, easterly breeze picked up, and early this morning it was blowing a half gale and a big white sea was running outside. On the first sign of a full sail was made on both yachts. The wind was still hard and fresh, as well as fine weather. Shamrock I set its jib-header over its full mainsail and the challenger followed suit. Anchors were tripped shortly before midday.

The weather conditions all favorable for a fair trial, with the wind fresh and steady, the course clear of all obstructions and no idea of any consequence, the Shamrock I today beat Sir Thomas Lipton's new boat by five minutes and twenty seconds over a triangular course of about twenty miles. The only possible disadvantage to the challenger was the fact that it used its old mainsail, which sets worse since its salt water bath of Thursday. There was no discoverable holding back of the challenger, although only once or twice it pointed such a course as left the suspicion that the steersman was not taking advantage of every chance. There is no doubt the result of today's trial was distinctly disappointing to those who had pinned their faith to the new challenger, especially as the Shamrock I on the previous pins had not even showed equality with the new racer on any point of sailing, with the exception of running.

Shamrock I on Weather Bow.

The first leg of the course was in the Portland breakwater to the Shamble lights, the second to White Nose Point, and thence to the point of starting. The old Shamrock had a length the best of the start and held its advantage so well that the challenger was unable to head it and the Shamble lightship was rounded by the Shamrock I to forty-five seconds ahead of the Shamrock II. The run to White Nose Point was able to windward. Captain Wrings was dead for over half the course to keep the Shamrock I on the weather bow of the new boat, and held all his advantage at the rounding of the second mark. At the yachts squared away for the home run the Shamrock I led by about a minute. Down the wind the two yachts sailed with jib top sails set, the old boat adding to its lead throughout the six miles and crossing the finish line five minutes before the 1901 challenger.

Amateurs on board the challenger were inclined to be dependent over the result of today's race. One who holds out against this feeling, however, argues that the conditions of the race were such that the Shamrock I did nothing surprising in winning.

Cup Challenger Overburdened.

As is proved in the case of the Valkyrie II, the "cup" challenger is overburdened with a length of heavy and total effect. R. Long, California junior, lost my appetite and could not sleep. I had head and I felt bad all over. I took Hood's Sarsaparilla and now have a good appetite, sleep well, and have no symptoms of catarrh.

Catarrh

The cause exists in the blood, in what causes inflammation of the mucous membrane.

It is therefore impossible to cure the disease by local applications.

It is positively dangerous to neglect it, because it always affects the stomach and deranges the general health, and is likely to develop into consumption.

Many have been radically and permanently cured by Hood's Sarsaparilla. It cleanses the blood and has a peculiar effect on the liver. R. Long, California junior, lost my appetite and could not sleep. SIEGEL-SANDERS IN TROUBLE

Receiver Appointed for Live Stock Commission Company, Kansas City.

STOCKHOLDER CHARGES CROOKEDNESS

Accuses Frank Siegel, President and General Manager, of Wholesale Misappropriation of Company Funds.

KANSAS CITY, May 13.—Utley Wedge of Joplin, Mo., was today appointed receiver for the Siegel-Sanders Live Stock Commission company of this city. This action followed the filing of a suit against the commission company by Frank Rockefeller of Cleveland, O., who is a heavy stockholder in the company. In his petition Mr. Rockefeller charges Frank Siegel, president and general manager of the company, with peculations and mismanagement of its affairs. Mr. Rockefeller intimates that Siegel made away with over \$100,000. The Siegel-Sanders Live Stock Commission company was incorporated under the laws of Missouri in November, 1899, with \$250,000 capital. It succeeded to the business of a Kansas corporation in this way. Mr. Rockefeller in his petition makes five specific charges as follows:

First, that in the conduct of the company's business, money is loaned on cattle, a chattel mortgage securing notes for the amount being taken, and the notes, which are usually of from four to six months, are then discounted. The petition charges that Siegel in handling these notes would renew the notes when they expired and then re-issue the original paper, leaving both the original and renewal notes outstanding. Fully \$25,000 has been diverted in this way, he says. Next, according to Mr. Rockefeller, Siegel would buy cattle and give bills of sale to "straw men" taking mortgages for them, only to transfer the cattle to a second "straw man" and repeat the process, discounting the notes each time. In some instances, the petition charges, the operation extended to a third "straw man" and the spurious mortgages are said to amount to fully \$100,000.
