Bank Clearings.

Foreign Financial. LONDON, May 15.—Money was in good demand today in connection with the set-thement. Discounts were firm. Americans at the opening were in good demand on the announcement of the committees that the buying in of Northern Pacific common and preferred would be suspended for the pres-ent, meaning that the stock need not be delivered immediately. Quotations were largely nominal. Northern Pacifics were disorganized. The nearest quotation was preferred at 116, though this is not re-liable. The market opened satisfactory and proceeded cheerfully until the panic in Wall street completely checked business and ended with gloom sub uncertainty. There has been considerable selling of gilt-edged securities to provide the necessary funds to the over possible difficulties. Americans were stagnant and uncertain late in the afternoon on reports that a to the Northern Pacific corner was immi-ment. Common varied from 116 to 119 dur-ing the day and has since been 123'4. fluctuating widely as a reflection with New York, without transactions, traders being afraid to undertake them. Gold premiums at Buenos Ayres, 120:90.

The market opened dull, with prices 5 points lower, later in sympathy with slightly easier European markets. Following the fail the feeling was barely steady in view of Barge receipts in the crop country, more liberal offerings of spot coffee in the street market and indifference on the part of the speculative public. There was some im-provent on room covering near the close on which prices worked up 5 points. The market was finally dull and steady, with prices net unchanged to 5 points higher. Total sales were 4,500 bags, including Sep-tember at 5.60c; October, 5.70c and March at 5.15c.
