(Copyright, 190), by Press Publishing Co.)
SOUTHAMPTON. May 19.—(New York World Cablegram.—Special Telegram.)—Lipton and Jameson are much depressed by the untoward turn the trial races have taken. Jameson had a long consultation with Watson and the foremen from Dennys at Dumbarton over the hull of the challenger when in dry dock yesterday as a result of which they all looked very grave. Lipton has lost his usual cheeriness and seems preoccupied. It is believed that some structural weakness in the hull has been discovered. The king is to sleep aboard the Erin Monday night for Tuesday's trial, which is expected virtually to decide whether the challenger shall be persevered with. Watson insists that its performances is no indication of what it can do when fully tuned up.

Dennis McLaughlin, Who Was Shot at His Pend. Euceumbs.

KAVANAGH'S PLEA IS SELF-DEFENSE

Account of Violent Threats Made Against Itim by Owner of the Property.

TECUMSEH, Neb., May 19 .- (Special Telegram.) -After lingering at the point of death for three days and a half Dennis McLaughlin, the man shot by John Kavanagh near Smartville Wednesday night succumbed to his wounds today and died It was feared at the time of the shooting that McLaughlin has received fatal injuries, but for two days his condition showed such marked improvement that Both are out on bond. It is said that other friends of both men began to thing Mc-Laughlin would recover. However, when the operation to remove the bullets in his head and neck was made McLaughlin began to fail, and, growing weaker, died a little before noon today. McLaughlin was a bachelor, aged 60 years.

Kavanagh is in the county jail here. He is a young man. McLaughlin lived on farm near Smartville alone. On his place is a little lake, where the sportsmen of this neighborhood used to hunt and fish. Recently McLaughlin issued strict no trespassing orders. Kavanagh was a neighbor, and it is said that bad blood has existed between the men for several months. Wednesday evening Kavanagh took his fishing rod and rifle and proceeded over to the lake. McLaughlin saw his neighbor fishing in his lake contrary to orders and went after him with a gun.

When accosted by McLaughlin and ordered off the place at the muzzle of a gun, Kavanagh informed his neighbor he would leave as soon as he could reel up his fishing line. Each moment McLaughlin waxed warmer and continued his threats until in self-protection. Kavanagh claims, he grabbed McLaughlin's rifle and shot him three times. One bullet entered his temple and another his neck. It is said three passersby witnessed the shooting. Kavanagh immediately summoned help for McLaughtin and gave himself up.

COUNCILMAN IS ARRESTED Another Phase of the Bitter

Saloon Fight in Hum-

boldt. HUMBOLDT, Neb., May 19.-(Special.)-The latest move in the factional strife in Humboldt between the license and antilicense crowds took place yesterday when a warrant was issued from the county court charging S. M. Chaffin, the Second ward councilman, with violating the section of the statutes which prohibits an official of the city from receiving any money of valuables other than his salary, while serving in that capacity. Mr. Chaffin was elected a year ago to the council by the temperance crowd and during his term of office a well has been sunk and extensive additions to city works along different lines. Councilman Chaffin was placed in charge of the work and on the well it is charged by the complaint, virtually took the place of contractor, drawing a large per cent of the warrants paying off the hands, etc., and in some instances claiming and receiving pay for his own time and services. The complaint further avers that in some instances the charges were not reasonable, and claim to be able to show corrupt dealing.

The sheriff telephoned up from Falls City SOUTHAMPTON. May 19.-Sir Thomas this afternoon to Mr. Chaffin, who agreed to go down and file the necessary recognizance for appearance at a later date. The present controversy is but another step in the bitter license fight which has been waged, especially since the license people won at the polls this spring and were defeated in their purpose to establish a saloon on a mere technicality. The accused will doubtless receive the united aunport of the temperance advocates, who have made a "dry" city of Humboldt for three years, and are anxious to love none of their prestige. Attorneys Falloon of Falls City and Malony of this city are prosecuting the case and it is understood that A. T. Wolfenbarger of Lincoln will take care of the de

fense when the case comes up for final hear. The Harris Phelps are said to have declared themselves now out of sympathy

with their compatriots. Mrs. Moriarity entertained eight women at luncheon at the Elysee Palace hotel. where she is settled for the season. Amone her guests were: Countess Coetlogon. Baroness Kolawska, Mmes, De Saintaman, De Bertholet, Mrs. Green and Mrs. Moore

EXPLAINS MORGAN'S BUMPS

London Phrenologist Says He is Mor ally and Socially Commonplace.

Copyright, 1901, by Press Publishing Co.) LONDON, May 19 .- (New York World Cablegram-Special Telegram.)-Prof. Odell. a famous phrenologist, gives the following result of an examination of J. Pierpont Morgan's bumps:

"The base and front of the brain are

large, the rest but moderately developed.

Morally and socially he is a most common place man, capable of a good deal of blind affection and equally unillumined honesty But strip him of the glamour of successful money making and there is no sort of character about him, a contemplation which would not make any man feel any better. A bill was passed by the House of Lords yesterday for the construction of Behr's electric mono railway, connecting Manchester and Liverpool. The distance of thirty-three miles will be covered in twenty minutes at a speed of 110 miles an hour The train runs on an inverted V, of which the mono rail is the apex with the car hanging on each side like a pack-saddle as the backbone of a mule. There will be a ten-minute service. Each car will be its own locomotive and run separately. Instead of a train of six cars every hour there will be a train of one car six times an hour. The only obstacle at present not overcome is the difficulty of obtaining such a high rate of speed.
