President and Cabinet Members Held Long and Important Conference.

Islanders' "Substantial" Acceptance of Amendment is in Doubt.

New Government, if Recognized, ... Be Impotent.

LEAVES UNCLE SAM IN PREDICAMENT Invitation of the emperor.

Extent He Would Be Entitled to Assist the Executive

Branch There.

WASHINGTON, May 30 .- An important conference on Cuban relations took place at the White House this afternoon. There were present with President McKinley, Secretary Root, Senator O. H. Platt, chairman of the senate committee on relations with Cuba, and Senator Spooner of Wisconsin. For more than an hour and a half the situation in Cuba was considered and when the conference broke up no determination had been reached. It is expected that the whole matter will be brought before the cabinet tomorrow and possibly will further discussed with those who have had much to do with shaping Cuban relations

Secretary Root has been fully advised by General Bonnal a Governor General Wood regarding the had been invited. progress of events in Cuba and has been informed of the action of the convention in its successive stages, together with the final action of the convention in adopting the Platt amendment and the interpretation placed upon it by the convention, as well as the interpretation of the interviews between the Cuban commissioners and the president and secretary of war. He was thus able to inform the president fully of the definite results of the convention in adopting the Platt amendment as amended or interpreted by the delegates. This information was the basis of the discussion

during the conference today. The president and his advisors must determine whether the Platt amendment has been "substantially" adopted by the convention. This is preliminary to the withdrawal of the United States authority and forces from the island. If it should be found that the interpretation of the convention is not satisfactory to this government quite a difficult problem arises, as it seems to be the intention of the Cubans to proceed to form a government, and that government must be recognized or rejected by the president, as he has full power to determine whether the act of congress has been complied with by the convention.

Who is to Preserve Order. Another problem which has been discussed by those interested in Cuban shairs relates to what would follow should the new Cuban government be recognized. The Cuban government, it is asserted, will be for some time without the machinery to execute its own laws and put in operation its own edicts. It is held by some lawyers that the moment the Cuban government is recognized the authority of the United States ceases and there is some question as to who would be responsible for the preservation of law and order, as the new government would have no troops and no police force and would be practically nowcriess should there be any opposition to its decrees and orders. The question whether United States forces would be warranted upholding the government, in executing its orders has been raised; also whether the president of the United States would be authorized, as commander-in-chief of the army, to give orders to American troops

ritory. questions were under consideration to some extent, but as a new government is in process of formation, with the Platt amendshown in the consultation today with the the legislation.

### **BEWARE THE GREEN PEALOUSE** Department of Agriculture Gives Warning that Insect Will Be

Unnaunily Busy. WASHINGTON, May 30 .- The Department ravages of the green pea louse, giving warning that this insect, one of the most important of those which ravaged the crops of the country during the last two seasons. will widen its range geographically and

increase the amount of destruction. Since its first appearance in May, 1899, at Bridges, Va., its devastation has steadily increased and it has now become the cause of great loss in the principal pea growing regions of the United States. The estimated loss it caused along the Atlantic coast states in 1899 is estimated at \$3,000,000, and n 1900 this had reached \$4,000,000 by middle of June. In some farms in Mary land 80 per cent or more of the crop was destroyed. Vigorous efforts are making to control its spread and the official bulletin gives a detailed description and means of

Count William Dies at Varsin, Prus- approach any closer. sia, of Peritonitis After Short Illness.

VARSIN, Prussia, May 30 .- Count Wil-Prince Bismarck, died today after a brief illners. He was born in 1852.

Count William Bismarck died after an illness of six days. The cause of death was peritonitis, from which he has greatly suffered. His funeral will occur Monday, which is the day set by the emperor for the unveiling of the statue of his father. Prince Bismarck, erected in front of the Reichstag building. It had never been certain that the members of Prince Bismarck's family would attend the unveiling of this statue and now the attendance is impossible.

The emperor is reported tonight as unwilling to postpone the unveiling of the Bismarck statue, as the preparations for the ceremony are all complete and thousands of guests from Germany and elsewhere have been invited to be present. It is possible, however, that a change may be made at the last hour and the ceremony postponed.

The newspapers tonight contain oblivary notices of Count William Bismarck. Few of them are complimentary and the majority point out that the son possessed all his father's foibles, without his father's greatness.

Count William Bismarck leaves a widow, whose maiden name was Sybil von Arnim; three daughters and one son.

### HOBSON URGES FRATERNITY Young Alabaman of Merrimae Fame Wants North and South to

Decorate Together.

DETROIT, May 30 .- Captain Richmond P. Hobson made an address here today which was characterized by eulogies of the soldiers of the civil and Spanish-American wars who gave up their lives in the cause of humanity.

Captain Hobson said, after expressing his appreciation at being invited to speak in the north on such an occasion:

"I wish that the states of the south would all adopt this day for memorial and decoration day for the confederate dead and that the custom would begin and become general for the south to invite citizens of the north to come south and for the north to invite citizens of the south to come north to join together in one spirit in a common memorial celebration for the gallant dead of both sides."

Captain Hobson said that, in his opinion the civil war was a sociological necessity to cement the union of the states. Discussing slavery, he said that to it we must ascribe the remarkable progress made by the colored population in so short a time. However, he said that he believed at the time of the civil war it had run its course and its abolition was a necessity "to make the avenue of freedom open for our country in its advance upward with the principles cussing slavery, he said that to it we must destroyed four reservoirs of petroleum and in its advance upward with the principles of universal and complete human liberty."
