

ALLEGED PLOW COMBINATION

Probable Effect of Community of Agricultural Implement Interests.

LOCAL MANAGERS DISCUSS SITUATION

Dealers Outside of the "Community" Declare New Movement Augurs Well for the Independent Firms.

Omaha managers of Illinois plow companies are as much in the dark regarding the result in the local field of the reported combination of the firms as are the people not so closely connected with the contracting companies.

I know nothing about the effect it will have in Omaha and I believe that the president of the several companies know little more than I upon this phase of the subject.

Local Managers Talk. The Kingman Implement company is among those mentioned in connection with the new combination.

F. E. Kingsbury of the John Deere Plow company have practically the same answer as Mr. Troxell and other managers agreed almost verbatim with them.

The manager of an Omaha wholesale implement house not connected in any way with the new combination, speaking of the effect which may be produced in the western field, said:

This combination may be the making of some of the smaller plow concerns of the country, as the manufacturer of plows has to deal with the farmer and the farmer has very little use for trusts.

It is generally known that a trust is making well known brands and that "something as good" can be purchased from a house outside of the trust and the farmer will buy the new product.

BIG SALE OF GRAZING LAND

Union Pacific Sells Twelve Thousand Acres in One Day.

GREAT DEMAND IN WESTERN KANSAS

Extensive Cattle Raisers and Stockmen Find It Necessary to Buy the Land They Formerly Leased.

Wednesday the Union Pacific land department sold 12,000 acres of territory in western Kansas in different lots. This is mostly grazing land, and the fact that sales of that magnitude are becoming almost daily occurrences brings out sharply the predicament in which the big cattlemen and extensive stock raisers are finding themselves in the Sunflower state.

The situation in Kansas is that in all other western states it has reached a point where title must be obtained if the stockman expects to enjoy the benefits of his enterprise.

This condition just reverses the relative positions of railway companies and stockmen from what they were a decade or two ago.

A. O. Blanchard, West Banger, N. Y., says: "I have been troubled with kidney disease for the last five years.

On the lines of the MILWAUKEE RAILWAY are some of the most beautiful places in the world to spend a summer vacation.
