

DRIVING PARK MATINEE

Opening Day is a Success in Spite of Sprits of Rain.

AWAKENS INTEREST IN HORSEFLESH

Some Lively Events Which Arouse Memories of the Good Old Days—Driving Park is Beautified in Many Respects.

Occasional showers that sent their moisture down in mammoth drops failed to dampen the ardor of those who were assembled at the Omaha driving park Saturday afternoon under the management of...

Under the management of Messrs. Dennison, Tutbill and Keith the grounds and equipments have been wonderfully improved. The place has been enclosed with a high board fence and the track has been provided with railings, inside and outside.

This opening matinee was intended to re-awaken the old-time interest Omaha lovers of fine horseflesh once manifested for turf events, and had the weather not been threatening throughout the day it would probably have done much in that direction.

Major Makes a Speech. When the park was reached there were probably 200 or 400 people in the grand stand, many being a fair proportion of women.

John Keith of North Platte officiated as starter and C. C. Kendall and H. S. Rhoades as judges. The printed program announced five events, and although the offerings were voluntary on the part of the owners of some of the fine horses of the city and no purses were offered, every race filled, and with horses that not only showed some good scores but were so evenly matched that some of the races were prolonged by a division of the honors and it was impossible to complete the race.

There were five starters in the free-for-all pacing race, best three-half-mile heats. The first heat was paced in a driving rain and in the second the track was a little heavy. The first two heats were won by Tom Dennison's black horse "Nig."

No prettier race was ever paced on any track than the 2:40 pacing race proved to be. Three horses participated in it and each heat proved a neck-and-neck race at the finish between at least two of the horses.

Neck-and-Neck Contest. No prettier race was ever paced on any track than the 2:40 pacing race proved to be. Three horses participated in it and each heat proved a neck-and-neck race at the finish between at least two of the horses.

The third contest of the afternoon was a quarter-mile dash between J. Miller's pretty little sorrel, Pritchard, and Jeff Banks' big away-backed bay, Oteo County Dick. This was the special favorite race of John Tutbill, one of the triumvirate of speed promoters who made a remarkable record of race meetings in Omaha in the early '90s.

It was away after 5 o'clock when the two pacing races were completed. A storm was threatening and the management decided to postpone the 2:40 trot and the gentlemen's roadster race until next Saturday.

when they will be put on with a number of other good races. The summary of the two pacing races is as follows:

ALCEDO IS RECORD WINNER

Gleomy Suburban Crowd is Cheered by a Sensational Victory.

FAVORITE LEFT FAR IN THE REAR

Twenty Thousand Persons Brave a Keen Northwest Wind and are Rewarded by Seeing a Fine Race.

NEW YORK, June 15.—Before a crowd of 20,000 persons, on one of the most disagreeable days the Suburban has ever been run on, Alcedo came home a winner in but two-fifths of a second more than when Salvator made the record in 1900.

The Suburban day was a little better than that on which the Brooklyn handicap was run, in that the rain was not coming down in torrents, but it was fully as disagreeable, for a cold northeast wind swept across the track, making everybody uncomfortable and chilling the enthusiasm of the spectators as well as that of the horses.

The following were the odds at post time: Alcedo, 4 to 1; Sidny Lucas, 5 to 1; Gallant, 5 to 1; Procession, 4 to 1; Kamara, 5 to 1; Toddy, 30 to 1; Watercure, 10 to 1; Blue, 5 to 1; All Gold, 30 to 1.

The horses cantered slowly up to the post, between lanes of people that extended along the whole length of the track, the crowd being massed from the fence back to the grand stand, while in the infield they stood ten deep along the rail.

Get Off on the Sixth. The horses were in the hands of the starter at 4:10 o'clock. Mr. Fitzgerald never had a worse lot before him; they absolutely refused to go up to the barrier and time and again it was shot up in hopes that they might wheel and get away in decent order.

In the first break Alcedo, Sidny Lucas, Procession and Watercure declined the issue. Then Ethelbert joined them in declining the second attempt. Alcedo spoiled the third start with Sidny Lucas as his companion, and the fourth attempt still found Alcedo the offender, although Ethelbert was about as bad.

The sixth break was all right, and off they went with Watercure in front, Alcedo second and Ethelbert third, Star Bright fourth and the rest close up. On the way to the grand stand they settled into their stride, and as they came to the lower turn Alcedo got to the front, but only by a fraction, with All Gold second and Ethelbert third.

Alcedo was a little off his stride, but he held the lead by a neck over Blues, who had come up from behind in the mixup. All Gold falling back to fourth place, Watercure was a pretty race between the leaders up the back stretch and everybody shouted at a streak of blue and white which was shooting by them all on the outside, for Sidny had elected to make his run then and there.

That was not all Toddy could do, for in almost a twinkling of an eye he had a half a length, then a length, then an open length as they swung around the broad upper turn. Spencer, on Alcedo, knew Toddy's limit, however, and hid his time. The seven-furlong pole was in his hands, and he called on Alcedo, who responded bravely. One instant he gathered himself like a tiger about to spring, and then, in a series of herculean bounds, he passed the Keene 4-year-old almost as if he were standing still. It was a tremendous burst of speed and timed to the minute, so that he headed into the last quarter Alcedo was a length to the good.

Watercure, on whom Shaw was making a desperate effort, Ethelbert, the pride of Perry Belmont's heart, was being badly beaten, away back in the rack, and was almost losing ground at every stride. At last they were straightened out for home and it was plain to everybody that, barring accidents, the prize was a sure one for Alcedo and Spencer took a steady pull on the leader, but kept him well in his stride, so that any possible challenger would find him ready to meet the issue.

In the meantime little Smith, riding hard 'a his hands and heels, was doing his best to hold Toddy in second place. He almost succeeded, but Shaw had the better horse and Watercure took the second place a few jumps from the wire. In the meantime Alcedo was running along comfortably in front and when the wire was reached he led by a neck and carried off the great race of the year the crowd shouted as loudly as if Ethelbert had been the winner.

The race had a few spectacular features, but it seemed always as if Alcedo had the most speed and the time, 2:05 2-5, might have been less had there been a horse to push the winner. It was a very sorry for J. H. McCormick, who had told his friends that he would surely win.

It was reported at the track that Clarence H. Mackay had purchased Kamara from J. P. Martin. The price paid was said to be \$10,000.

Falling Hair and Baldness are due to Dandruff. Dandruff is a Germ Disease.

You can't cure dandruff unless you kill the germ, and you can't do that unless you use Newbro's Herpicide.

Without Dandruff hair must grow luxuriantly. "Destroy the cause, you remove the effect." Kill the dandruff germ.

Physicians Endorse Herpicide. Herpicide certainly removes dandruff. It certainly has merit. J. BALL, M. D. 1073 1/2 Market St., San Francisco.

Physicians Endorse Herpicide. Herpicide has given me most excellent results. H. S. WELCH, M. D., San Francisco.

Note—As the scalp must be washed thoroughly before applying Herpicide, it is best for that purpose to use Herpicide Soap. Herpicide allays itching instantly, stops falling hair, impels new growth, makes hair soft as silk.

THE BLOOD. HEALTHY OR DISEASED. When there is a natural and healthy circulation of the blood, the entire quantity, estimated at one-eighth the weight of the body, passes through the heart every five minutes. This rapid flow of the blood through the system prevents the entrance of disease germs and impurities of every description. It filters out all that is not necessary or good for the growth and development of the body and nourishing and strengthening the muscles, tissues, nerves and bones.
