Policeman Whips Out Revolver and Uses it as a Violent Persunder -Trouble is Over Family Jar.

Thomas Sloan, living at 2010 Avenue B. attacked Detective Ed Smith with a razor and hammer last evening when the officer went to his house to arrest him on a complaint filed by his wife. Sloan slashed the officer across the back of the right hand with the razor, and the officer was compelled to defend himself with his revolver. Smith succeeded in laying Sloan out with a blow from his gun which cut a deep gash in the man's cheek near the left Sloan was taken to the city jail, where the wound was sewn up by City Physician Jennings, and he was then booked on a charge of disturbing the peace.

Sloan has been repeatedly arrested for abusing his wife and family. Last evening he drove them from the house and locked the door against them. Mrs. Sloan complained to the police and Officer Smith was sent to arrest Sloan. On entering the house Sloan made a rush at the officer with a razor in one hand and a heavy hammer in the other. Sloan made an excuse after his arrest that he was unaware that Detective Smith was an officer of the law.

County Treasurer Arnd, in a communica tion to the board in which he stated that his office had never been checked up since his incumbency, asked that an examination be made. The board decided to accede to his request and the office will be checked up from January 1, 1900, by Supervisor John M. Matthews and Charles E. Walters, an expert accountant. They are to receive \$5 a day for their services and the work is to be done as speedily as possible.

The board failed to concur in the action of the city council in granting John Mergen the old soldier exemption of \$800 actual value on his homestead. A number of other exemptions from taxation made by the city council were concurred in. The smallpox bills submitted by the city and others were laid over until Friday, as

Lair, a resident of Exira, Iawas before United States Commissioner Wright yesterday, charged with taking from the Exira postoffice a letter addressed to J. W. McLain and extracting from it after signing McLain's signature to the check, cashed it at the store of J. B. Creveling in Gray, la., where he purchased 25 cents worth of cigars, giving the check in payment and receiving the change.

> Lair and McLain both had letter boxes in the postoffice at Exira and it is supposed that McLain's letter, owing to the similarity of the initials, was placed by mistake in Lair's box.

Edward Delahoyde and A. W. Harvey, bankers of Exira, testified to the indorsement on the check being in Lair's handwriting and J. B. Creveling gave evidence as to cashing the check for Lair. The theft of the check occurred March 18 and the case was shortly after placed in the hands of Postoffice Inspector E. P. Law Difficult to Apply.

The law is so difficult of application that t has been found necessary to issue circulars of information on the subject. The collateral inheritance tax has proven quite source of income to the state since the enactment of the law, about \$116,000 having been received during the year 1900. A number of payments have lately been made in estates where the testator or intestate had been dead several years and the tax discovered to be due the state because of a transfer of real estate, the lien of the tax forcing the payment in order to indemnify the board against any possible show clear title. Dr. Powell declared that the opening year of the twentieth century finds a tendency toward crystallization of thoughts and efforts for the upbuilding and betterment of the human race, physically and mentally, by methods ooking to prevention of the production of sub-normal progeny. Sociological organizations are widening their scope of action, are more definite in their purposes and as a result of far-reaching inquiries into abnormal conditions and accumulated experiences there is at this time a general systematic and concerted movement of investigation in the direction of etiology in order to ascertain the underlying causes of trans-

There are now in the United States over 500,000 of the defective classes and every state in the union is heavily there is not ample provision for all of them. Dr. Powell discussed freely the vicious methods which have been suggested for preventing the harm done by the increase in the number of defectives and turned to the newest proposal, that of legislation to prevent the marriage of the unfit persons. Acting Commander There Tells How 3,533 Teachers Manage to Teach 172,278 Pupils.

HAVANA, June 18 .- The report of Lieuenant Hanna, acting commissioner of schools in Cuba, treats of the four months

ending in December. Beginning in September, 1900, the Cuban chools were put under direct military supervision and army officers commenced making quarterly inspections of each school province. The work of the school commissioner has consisted largely in perfecting organization under the new school law, which is modeled after the school laws of Ohio. It was found that many changes were necessary to meet existing conditions and at present the system is working ex-

cellently. There are 3,567 schools in Cuba and 3,533 teachers, of whom 3,468 are white and 115 are colored. There are 2.197 women and 456 men teachers. The number of pupils is 172,273 and the average attendance per school is thirty-four. The cost per pupil taxed for their care and comfort and yet a month is \$1.86. Lieutenant Hanna recommends that the municipalities pay a proportion of the school expenses now borne wholly by the state. The total annual ex penditures on account of schools now exceed \$4,000,000 and will probaly reach \$6, 000,000. The commissioner says the present salaries paid to teachers are from 20 to 80 per cent higher than those paid in the United States and recommends that they be decreased.

The summer schools open in July and the attending teachers are to receive their regular salary. The invitation extended by President Eliot of Harvard university to 100 Cuban teachers to attend the summer school there has been accepted by 100 woof this union are in the Institution for the men instructors who understand English Feeble Minded at Glenwood. CAILLES' INSURGENTS ARE GATHERING

Begin to Rendezvous at Pagzajan Preparatory to Marching to Santa Cruz to Make Promised Surrender.

Ifty former United States soldiers, a maority of them being employes of the civil department, have protested to General MacArthur against the alleged arbitrary exercise of discretionary authority on the part of the civil service board. The law gives the board discretion to make a rule requiring the examinations of old employes and the board has not appounced whether it will or will not require, these examinations. All the petitioners agree to resign rather than submit to examinations and will accept private employment unless the matter is settled quickly. The members of the board say that since no action has been taken there is no grievance. General Mac-Arthur has requested the board to transmit to him a rule covering the point for promulgation, according to law. The members of the civil board say they

have taken no action on the question involved, but have notified Lieutenant Colonel Crowder, the military governor's secretary, to send his clerks for examin-ation. Colonel Crowder, in reply, asked for the certification of the rule under which the examination was required. Colonel Crowder says it would be inconvenient to spare the men and that the requirement is unduly stringent at the present juncture. The "Comstock Process"

is the most successful method for reducing and relieving pain is all kinds of dental operations that has yet been presented to the public. It has been used by leading dentists of the east for nearly two years, and has been pronounced by them to be entirely satisfactory. Our patients are delighted with the results it produces. If you are nervous and your teeth are sensitive we will be pleased to explain it to you.
