No protest or objection, so far as the department knows, was received from any country against this decision and the mat ter was not again brought to the attention of the government until March 9 of year. On that date the department held that invoices of products of crude petroleum must be accompanied by a United States consular certificate showing the country where the petroleum was produced. In the absence of this certificate the liquidation was suspended, and pending further information the rate of duties must be estimated at the highest rate levied by any country on such petroleum. Further than this the department has never taken any action whatever on the subject of petroleum.

Upon this statement of facts the officials are at a great loss to understand how Russia can feel aggrieved at the government's action and inaugurate a system of discriminating duties against products of the United States in consequence. It is hoped that Secretary Hay will be able to present the facts so that Russia will rescind its action and will show that it is not seeking to be unjust to this country in tariff matters.

OPENING IS NOW ASSURED Seccretary Hitchcock Says Lon Wolf's Failure Settles Matters.

WASHINGTON, June 21. - Secretary Hitchcock reported at the cabinet meeting today that the decision of the supreme court of the District of Columbia yesterday, dismissing the application of Lone Wolf and other Indians for an injunction to restrain him from opening the Kiowa-Comauche-Apache reservations to white settlement under the act of June 6, 1900, removed the last obstacle to the opening of these reservations. The allottments to the Indians have been made under the law and the president's proclamation fixing the date of the opening will be issued soon. The secretary says that the great body of the Indians are thoroughly gratified.

Desperadoes Are Waiting.

KANSAS CITY, June 21.-Thousands of people, men, women and children, camped GERMANY WOULD ASK MORE on the border of the Klowa-Comanche-Apache reservations in Oklahoma, awaiting the opening of that land to settlement, are in destitute circumstances, according to Dr. J. J. McKenna, who has just returned from the scene.

"Only last Monday." said Dr. McKenna "two friends and myself drove over to the border from Oklahoma City and the sight that greeted us was one of terrible destitution. From here the twister went through big imber on the bottoms, smashing it down like so many reeds, and struck the new bridge across the Keya Paha. The bridge was totally wrecked.

It then took a jump and struck the house of August Anderson a quarter of a mile distant. Mrs. Anderson was home who is 13 years old, was in the court room | with her children, the husband at a neighbor's. Seeing the storm coming, Mrs. Anderson thought the chicken coop at the brow of the hill a safer place and took Betts' chum, will have his trial. The the children and went into it. The cyclone wrecked both houses, killing Clara and Ids. Mrs. Anderson and baby were taken up in the air thirty feet and violently dashed to the ground. Mrs. Anderson is in a critoliceman of Arkansas City, who is in ical condition, while the baby was not injured in the least. Bertha Auderson, aged 10, died this afternoon, making eight dead altogether. Theodore Anderson, aged 8. is dangerously hurt. Mr. Anderson probably

owes his life to being away from home. Nothing was left around the Anderson the place except wreckage, and the valley up and down a long ways is littered with broken boards and household furniture in a thousand pieces.

Victims Stripped of Clothes.

A singular feature of this sad affair is that the clothing was torn from all the victims by the fury of the wind.

Another peculiar incident of the storm was the case of Rev. L. E. Barnes, who moved on his claim only yesterday. Seeing the storm coming, and thinking he would be safer in the valley, he hitched up his team and tried to drive the horses to Greenings, a half-mile distant. For the first Dr. R. H.
