Nobody could help remembering that almost every one of the women with lofty names who chatted, danced and coquetted there had had ancestors bearing the same names doing the same thing at the same spot a century ago and had paid for their frivolous defiance of the masses on the guillotine. # What Anti-Toxin Does for Diphtheria

# Newbro's Herpicide

# Does for Dandruff

Dandruff causes all hair troubles and baldness. The reason hair preparations in past years have always fuiled to cure dandruff, is that none of them was made to destroy the dandruff germ. In fact, it is only in recent years, that dandruff was even suspected of being caused by germs; and it is not more than three years that the advanced men in biology and the medical science fully accepted the fact of the dandruff germ.

## **NEWBRO'S HERPICIDE**

Is the only preparation that kills the dandruff germ. Without dandruff hair must grow luxuriantly.

Herpicide allays itching. Herpicide stops falling hair. Herpicide makes

hair soft as silk. Herpicide impels new growth.

"Destroy the cause, you remove the effect." Kill the Dandruff Germ with HERPICIDE.

THE MEDICAL PROFESSION

I find Herpicide a very pleasant dressing, and it certainly removes Dandruff. It certainly has merit. J. BALL, M. D. 10731/2 Market St., San Francisco.

NOTE-The scalp should be thoroughly washed before applying Herpicide, and once or twice a week thereafter. The best soap for the purpose is Herpicide Soap.
