Wheat Strong on Higher Cab'es and Rais in Northwest.

SEPTEMBER CLOSES ONE-EIGHTH UP

Anxions Long Sellers Make Corn Pit Interesting-Onts Lower on Liberal Unloading-Provisions Dull and Lower.

CHICAGO, July 3.—Higher cables caused a strong opening in the wheat market today and excessive rainfails in the northwest reinforced the foreign news, resulting in the September delivery closing firm and beingher. September corn closed his lower, Oats were his lower, while provisions ranged all the way from 15c to 25c lower at the close.

ranged all the way from 15c to 25c lower at the close. Wheat opened firm on higher cables, due to reports of French crop damage. The market was heavy and fluctuations were confined within a narrow range. Most of the buying orders came from outsiders and certain local shorts, who were evening up over the Fairth. Continued favorable accounts of winter wheat harvest were the chief hindrances to any pronounced buillshness. September opened a shade to \$40 chigher at 66 c to 66 c. The bulk of the trading was uone around 66 \$400 c and the cose was \$4c higher at 66 \$400 c. The bulk of the cose was \$4c higher at 66 \$400 c. Seatoard reported 36 boat loads taken for export, while clearances of wheat and flour were equal to \$50,000 bushels. Primary receipts today were \$62,000 hushels. Almoneapolis and Duluth reported 137 cars, against 153 last week. Local receipts were 34 cars, 4 of contract grade.

Duluth reported 137 cars, against 133 last week. Local receipts were 34 cars, 4 of contract grade.

The corn pit furnished the most interest to traders today, but the opening was somewhat easier, due to the general prevalence of thunderstorms during the last twenty-four hours. The situation in Missouri and Kansas, however, where rain was most needed, remained unchanged. Longs were anxious to secure profits and there was consequently considerable selling. Country traders were good buyers. September ranged between 46% and 40c, closing % cower at 46%c. Local receipts were 142 cars, 3 of contract grade.

The early tendency in oats was toward a lower level, mostly in sympathy with corn. However, many of the early sellers turned buyers later on builish Russian cables. There was liberal selling early for outside account, and local sellers were led by Phillips, who sold quite a considerable quantity of September. There was free liquidation of July by commission houses. The weekly crop builletins were unfavorable, showing little or no rain in the southwest yesterday. The September option ranged between 27%c, closing with a loss of % at 27% 27%c, Local receipts were 70 cars.

Provisions were dull, with a general downward tendency. The opening was lower on heavy receipts of hogs and lower prices for the same. There was some liquidation by outside longs and also some selling for short account in a moderate way. Trade was small and following the rather sharp break at the opening there were no violent changes. Local packers bought on the decline. September pork ranged between \$1.55 and \$8.55, closing 20c lower at \$7.81%.

Estimated receipts for Friday: Wheat, 60 cars; corn, 170 cars; oats, 135 cars; hogs, 22,000 head.

United States Steel Drops on Disappointment Over Dividends.

NEW YORK, July 2.—Today's stock market was little more than nominal. The volume of business was so small that had there been a wide price movement little significance could have attached to the fact. The subject of most vital interest on the exchange was whether it would be possible to get together a quorum of the governors to achieve the longed for adjoirnment of the exchange until Monday next. When this was accomplished it was greeted with cheers. The leader in such market as there was was United States Steel. That stock reflected clearly enough the disappointment of holders over the dividend, or rather over the wording of the dividend declarition. Speculators sold the stock freely. The preferred suffered even more markedly, declining 3% from the top level. The common fell 1% from the best. The effort of belated borrowers to secure loans to carry over the four-day interval until Monday caused a lively flurry in money. As high as 25 percent was paid for call loans and considerable liguidation was precipitated. The last hour was the most active of the day on the closing up of accounts, and a number of leading stocks were carried down a point or more. The apprehension was felt that the effect of a weak bank statement would have to be faced when trading was resumed on next Monday.

The bond market was dull and fregular. Total sales, par value, \$1,785,000. United States bonds were all unchanged on the last call.

The Commercial Advertiser's London financial cablegram says: There was a general exodus to the Henley regatta today which left the Stock sechecal care and the second of the left to stock sechecal care and the second of the left to stock sechecal care and the second of the left to stock sechecal care and the second of the left to stock sechecal care and the second of the left to stock sechecal care and the second of the left to stock for sechecal care and the second of the left to stock for sechecal care and the second of the left to stock for sechecal care and the second of the pointment Over Dividends.

The Commercial Advertiser's London financial cablegram says: There was a general exodus to the Henley regatta today which left the Stock exchange practically empty. There was no business in domestic rails and American shares were quite neglicated in view of the approaching long New York holiday. Copper stocks were flat with other metals. Money on call is ensier at '\$\frac{1}{2}\$ per cent and discounts at \$2.16\$ per cent. The Bank of England today received no gold, but \$\frac{1}{2}\$\$ \$\frac{1}{2}\$ 25.18.

1 HOSTON, July 3.—The American Wool and Cotton Reporter will say tomorrow of the wool trade; The market has been more active and prices have ruited firm. The business has been in spots, however, It is probable that half a dozen houses have transacted the builk of the business done and they have succeeded in handling some large lines of wool, including Texas and California wools, pulled and scoured, as well as fine unwashed and unmerchantable fleeces. Some speculation has been in progress among the dealers, especially in scoured wools, but they have not as yet bought a very great amount. Both the large and the small mills have been represented in the market. The sales for the week in Boston amounted to 5,35,600 pounds domestic and 260,600 pounds foreign, making a total of 6,135,600 against a otal of 1,723,500 for the corresponding week last year. The sales since January 1 amount to 11,774 bales, against 21,015 last week and 9,255 for the same week last year. The total receipts since January 1 show an increase over the same months last year of 33,272 foreign. Shipments of wool for the week ending July 1 were 4,438,500 pounds. This shows a decrease of 212,719 pounds over the shipments of 4,69,330 pounds. This shows a decrease of 212,719 pounds over the shipments of 4,69,330 pounds. Bulls, calves and stags also sold in just about the same notches they did yesterday.

There were more stockers and feeders in the yards today than have been here for some little time past. It was rather a poor time however, for them to arrive, as there will be very little demand for stock cattle the rest of this week, and those who bought them had to figure on carrying them over until the first of next week. As a result prices were considerably lower, and undesirable stuff was almost unsalable. Stock helfers in particular were hard to dispose of, and some of the sales looked pretty low.
