SEPTEMBER CLOSES ONE AND A HALF UP

Wheat Easy on Cables and Heavy Receipts-Outs Open Firm and Remain Strong-Provisions Higher.

CHICAGO, July 5.—Continued hot weather throughout the west and southwest created a builtain sentiment in the corn pit today and prices for both July and September deliveries gradually soared upward until the close, at which time the latter option sold at 47% or 1½c higher than the final figures of Wednesday. September wheat closed ½c higher, September oats were 1½51½c higher and provisions ranged from 2½c to 1½½c higher.

Weak cables and heavy domestic receipts were the reasons for the easier feeling in

Weak cables and heavy domestic receipts were the reasons for the easier feeling in the wheat market at the opening. Trading was duil and within a narrow range, and the pit was nearly deserted during the entire day, the interest of traders centering in the coarse grains. Toward the close the remarkable demand for corn and oats and the material rise in prices of both had a strengthening effect, and when added to reports of rust in spring wheat, in consequence of excessive moisture, the situation became quite strong. September opened 4c lower at 651,209c and the fluctuations were within 15c range, the close being at 655,20 bushels, against 735,00c last week and 2,188,50 bushels, against 745,00c last week and 2,188,50 bushels, against 755,00c l bushels, against 731,000 last week and 2,188,000 bushels, against 731,000 last week and 2,188,000 a year ago. Seaboard clearances of wheat and flour were equal to 783,000 bushels and primary receipts were 935,000, against 395,000 a year ago. Minneapolis and Duluth reported 452 cars, compared with 246 a week ago and 102 cars last year. Local receipts were 51 cars, 15 of contract grade.

Corn opened easier on rains in Kansas, but the relief thus afforded the situation gave way later in the session to bullish reports from the country and the market etrengthened. At the low point both longs and shorts were quite active on the buying side, which alone helped to start the price upward. When buying orders began to come in from the country there was a wild scramble among the shorts in an attempt to cover. September opened at 45\square\$6.06\cdots, and there was a gradual advance in price until 48c was reached, which accurred shortly before the close. Final figures were 1\square\$c in from the country there was a form the country there was a form the close. Final figures were 1\square\$c of contract grade.

There was a large trade in oats, with the buying general and of good character. The opening was firmer and the early strength was more than maintained. Continued dry weather and generally poor outlock of the

was more than maintained. Continued try weather and generally poor outlook of the crop were the main bull factors. Outsiders were the best buyers. September ranged between 27%c and 25c, closing at the high point with a gain of 1%4112c. Local receipts ere 128 cars. There was a better local demand for pro-There was a better local demand for pro-visions, doubtless due to some extent to the poor outlook of the corn crop. The opening was easy, but strength developed later in sympathy with the coarse grains. September pork sold between \$13.87½ and \$14.10, closing 25½c higher at \$14.05, Lard ranged between \$3.42½ and \$8.575½.88.80, clos-ing with a gain of 12½c at \$8.575½. Ribs sold between \$7.82½ and \$7.3597.971½, closing 75½c higher at \$7.95.

Estimated receipts for tomorrow: Wheat, 140 cars; corn, 260 cars; oats, 195 cars; hogs, 16,000 head. The leading futures ranged as follows; Articles. | Open. | High. | Low. | Close. | Yes'y.

Wool Market.

Wool Market.

ST LOUIS, July 5.—WOOL.—Unchanged; medium grades, Il@17c; light fine, lo@14c; heavy fine, 3gile; tub washed, 186204c.

LONDON, July 5.—WOOL.—The offerings at the wool auction sales today number 14.203 bales. There was a large attendance. Prices showed a hardening tendency. Fine-haired merinos were in active demand and good Geelong and New South Wales greasy sold well. Geelong was in fair demand for American buyers and they also secured moderate quantities of medium crossbreeds at irregular rates. Punta Arenas was in good demand at unchanged prices.

BOSTON, July 5.—The Commercial Bulletin will say in tomorrow's report on the wool trade of the United States: In spite of the decline in London, the protective wall of the tariff has permitted not only activity, but a slight advance on fine wools in the United States, a 500,000-pound sale of new spring California was made on a basis of 45 cents clean. Fine medium territory clothing is now selling at 42 cents clean. A line of Montana staple brought 17 cents. Ohlo delaine has been held at 29 cents. Clothing manufacturers and cloth mills have 20 per cent better orders than a year ago and the thriving condition of the manufacturing industry is improving the demand for raw material.

Sugar Market.

ALL LINES CONTINUE BUSY Fresh Labor Troubles Do Not Materially

Affect Eusiness. ENCOURAGING REPORTS FROM WHEAT

News from the west was full of promise as to the growing wheat yield, causing a further decline in prices, although toreign needs are known to be heavy. Corn steadled somewhat because of reported injury from heat and drouth. Receipts continue light in comparison with last year's, but exports are equally unsatisfactory.

Cotton holds firmly at a point a little below 9 cents, the free movement into sight of the old crop being disregarded. Strength is found in greater activity in the goods market, together with rumors of rain in Texas and a few other states where moisture is deficient. Sales of No. 7 Rio coffee have been made below 6 cents, which is not surprising, since receipts at Rio and Santos ports for the crop year just ended were little short of 11,000,000 bags. Even this record-breaking crop will be surpassed if the current yield is equal to expectations.

Compared with the prices of a year ago wheat shows a decline of about 11 cents a bushel, cotton \$6.25 a bale and coffee 3% cents a pound, while corn is not higher than last year's price and pork products alone of these commodities show any advance.

alone of these commodities show any advance.

Commercial failures during the first half of 1901 numbered 5.759, with liabilities of 555,856,699, against 5.322 last year for 774,747, 452. In manufacturing lines there were 1.255 defaults, with \$21,091,048 liabilities, while 4.189 traders failed for \$24,884,207. The improvement over the preceding year was most striking in brokerage and banking insolvencies, which were \$3,250,435 and \$15,83,554, respectively, against \$22,124,340 and \$25,822,682 last year. This is the more notes worthy because the violent agitation in Wall street during May was calculated to cause serious disturbance and the last week of June brought other failures through infactions. While the half year's statement is gratifying the second quarter makes a much better showing liabilities.

While the half year's statement is gratifying the second quarter makes a much better showing, liabilities declining \$7.502.202, compared with the first quarter and \$17.623.635 in comparison with the second quarter of 1906. The average liability per failure was smaller than in the corresponding three mouths of any year since the records were first compiled. The proportion of bad debts to solvent navments, through clearling to solvent payments through clearing houses was but 69 cents to each \$1,000. The average amount of defaults to each firm in business was but \$20.33, only seven other quarterly periods making smaller returns.

BRADSTREET'S REVIEW OF TRADE.

Hot Wenther Causes Wide Suspension

of Industrial Activity.

NEW YORK, July 5.—Bradstreet's tomorrow will say: Hot weather, sholidays and stock-taking, the first named particularly, have eliminated trade in the period under review and caused a practical suspension in industrial activity in many cities. Against this seemingly unfavorable feature, however, is to be noted the fact that a good business has been done in all kinds of seasonable products at retail, and the check to trade at wholesale has been largely a postponement rather than actual elimination of possible business. business has been done in all chieds to trade at wholesale has been largely a postponement rather than actual elimination of possible business. It was a summer good and corn and cotton, the two leading crops most in question at present, he compared the season by cold weather. The wheat crop is certainly in a favorable condition, because harvesting has gone forward rap-quite satisfactory. Corn shows the head advance for any week for a year past less davance for any week for a year past added, however, by speculative manipulation and a fairly good export business.

Wheat is lower on liquidation, induced by Whete is lower on liquidation, and a fairly good export business.

Whete is lower on liquidation induced by Whete is lower on liquidation and a fairly good export business.

Whete is lower on liquidation induced by the hot specific properties of the heavy deficit in the German crop, the poor French crop and of the short yield in the countries of Europe. Outs are rather higher owing to the poor demestic or the heavy deficit in the German crop, the poor French crop and of the short yield the countries of Europe. Outs are rather higher owing to the poor demestic or the division of the Treasury.

It is not the short yield the short yield the countries of Europe. Outs are rather higher owing to the poor demestic or the division of the German crop, the poor French crop and of the short yield the countries of Europe. Outs are rather higher owing to the poor demestic or the division of the German crop, the poor French crop and of the short yield the countries of Europe. Outs are rather in great and the countries of Europe. Outs are rather in great and the countries of the countries of Europe. Outs are rather in the ferman crop, the poor French crop and of the short yield the countries of Europe. Outs are rather in the first that the ferman crop is the countries of the poor french of the short yield the poor french crop and of the short yield the countries of the poor french of the countries of the poor french of the co

shutdown of the union works, so as to allow of needed repairs.

Duliness, due to exceptional weather conditions and to the closing of the stock exchange from Wednesday until next Monday, deprived New York stock market transactions of importance. The effect of unfavorable crop advices on the granger and Pacific ratiread stocks was modified by subsequent feasuring news. The only feature of the market was the United States Steel stocks, which, after the declaration of 1% per cent on the preferred and 1 per cent on the common shares, broke moderately, partly on realizing and partly on fears of an extension of the labor trouble at the American sheet steel mills to other constituent concerns. Improvement in Number of Banking and Brokerage Insolvencies Over

Last Year-Average Liability

Breaks Smallest Record.

HOGS—There was a light run of hogs here today, but as other markets were reported lower packers started out bidding about a nickel lower here. They did not get the hogs at those prices, though, and as a result they had to raise their bids. The general market today was only a shade lower than on Wednesday. The bulk of the hogs sold at \$5.72½ and \$5.75 and as high as \$5.80 was paid for a bunch weighing 301 pounds. The lighter weights sold from \$5.72½ down. The last end of the market was a little weak, but it was mostly the lightweight stuff that was left. Although the market was a little slow in getting started, everything was sold in good season. Representative sales:

with prices 6 and il points higher in sympathy with great strength in the English market and on reports of drouth from the parched districts of the southwest. After a slight further improvement on room covering the market turned weak and broke to Wednesday's final figures under liquidation and some pressure from leading bears. There were sharp reactions and declines turned. Near the close the English market broke badly in sympathy with our weak ness. The market was finally quiet and steady, with net prices unchanged to 5 points higher; spot, dull; middling uplands. S4c; middling guif, 94c; sales, 2,600 bales. Futures closed quiet and steady. The cotton exchange will be closed tomorrow.

LIVERPOOL. July 5.—COTTON—Spot, limited demand; prices steady; American middling, 42-32d; the sales of the day were 7,000 bales, of which 500 were for speculation and export and included 5,700 American; receipts, none.

NEW ORLEANS, July 5.—COTTON—Steady; quotations revised; sales, 1,560 bales; ordinary, 6c; good ordinary, 6c; good middling, 83c; sales, 2,600 bales; ordinary, 6c; good ordinary, 6c; good middling, 84c; sales, 1,600 bales; stock, 103,171 bales, Futures quiet and steady.

ST. LOUIS. July 5.—COTTON—Quiet: middling, 84c; sales, none; receipts, 1075 bales; stock, 9,087 bales; GALVESTON, July 5.—COTTON—No market, hollday.

SYLLAB

No. 2024. Plummer Perry & Co, against Rohman et al. Appeal. Lancaster. Aftermed. Sullivan, J.

1. In an action by creditors to set aside a conveyance of real estate alleged to have been made in fraud of their rights. the defendant may, under a general denial, give evidence of any fact tending to disapprove the charge of fraud.

2. A party who pleads facts which would if proven, preclude the assertion by his adversary of an equitable title to, or lien upon, the property in litigation, is not entitled under such plea to show that the party against whom the estoppel is allowed is precluded from asserting the rights of No. 9294. Plummer Perry & Co. against Johnan et al. Appeal. Lancaster. Af-

party against whom the estoppel is allowed in precluded from asserting the rights of an unsecured creditor.

3. A party who pleads an estoppel is not prejudiced by any ruling of the court in relation thereto, if the facts sought to be suppressed are not ascerted at the trial nor permitted to influence in any way the decision complained of.

4. What was said in the former opinion (Plummer against Rohman, — Neb. — \$4 N. W. Rep. (89) in regard to pleading an estoppel, not being necessary to a decision of the case, is now withdrawn, and the question is left open for future determination.

C. Commissioner's opinion. Department No. 3.

Before a section line road can be opened and worked the damages suffered by the owners whose lands are taken must be ascertained and paid.

No. 9776. Patrick against City of Omana. Appeal from Douglas. Reversed. Sedgwick, C. Department No. 2.

1. It is within the police power of the state by statute to authorize a municipal corporation to fill lots within its limits so as to prevent stagnan; water or other nuisance thereon, and provide for the assessment of the expense of the improvement against the lots so filled. Such statute is not unconstitutional. Horbach v. Omaha, 54 Neb., 83.

2. If the nuisance complained of is caused by negligence of the city in grading its

2.1f the nuisance complained of is caused by negligence of the city in grading its attreets and the city "fills the lots" to abate the nuisance the expense of so filling the lots cannot be assessed against the lots; the city ought at its own expense abate a nuisance caused by its own negligence.

2. If the nuisance complained of is caused under section cvil, chapter x, laws of 1887, will include the expense of filling of the lots if by proper grading of the streets and without negligence on the part of the city such filling will be necessary to prevent lots from becoming nuisances from a collection of stagnant water thereon.

4. And in the absence of proper allegations and proof it will be presumed that such damages have been allowed and paid, and collection of a tax properly assessed to reimburse the city for the expense of filling such lots to abate a nuisance caused by stagnant water thereon will not be enjoined when it appears that the owner, after due notice, has failed to so abate such nuisance.
