Coffee Market. NEW YORK, July S.-Trade was dull all day in the coffee market and the net re-sults in fluctuations were unsatisfactory to both sides. The market opened steady with prices unchanged to 5 points lower and for the rest of the forenoon was in-active and featureless, with the room con-tingent indifferent and the public quite un-interested. The European market news was disappointing, while Brasilian advices were about in line with general ideas. Later there was a rally to Wednes-day's final bids on absence of sellers and light room demand, with the market finally dull and net unchanged. Total sales were but 4.250 bags, including September at 5.16c and February at 5.45c. Futures opened steires in foreign markets. The markets, after the half week holiday, were barely active with transac-tions limited to a few professional ex-changes. Light foreign buying after the call held prices up to the opening basis most of the forenon, but the market at best was a featureless one. Midday bids showed values to be net unchanged to 5 points net lower, with the unchanged to 5 points net lower as steady. Good ave-rage Santos 4.c; receipts, 18.000 bags; stock, 2000 bags.
