STEADY GROWTH OF OMAHA

Duilding Operations Show a Great Increase in Home Construction.

JUNE'S TOTAL SHOWS UP VERY WELL

Comparison with Last Year and with Other Cities Gives a Finttering Exhibit for the Gate City.

Reports compiled by the Construction News show building operations in (went) of the principal cities of the United States for June and that publication makes comparisons with the same month of the preceding year. The reports show that during last month the gain over the same month last year was 1,140 buildings at an additional cost of \$6,863,303.

In this increase Omaha leads in the fewer buildings constructed than for the same month last year, the decrease being twenty-one, seventy-seven having been built in June, 1900, and fifty-six last June. This condition shows a large increase in the value of the separate buildings; that better houses are being built this season than last, and it shows that the average house in Omaha this season is lower than the average for the twenty principal cities of the United States by \$163.78, showing that while the value of the separate buildings has increased in the city the houses. are of moderate cost and that Omaha is atill in line to claim to be the city of home owners. The average cost of buildings in the cities reported is \$3,779.85; that of Omaha, \$3,615.80. As a matter of fact the building operations in Omaha are, victories and moral power can only be July it. He took identy-nine prisoners, with one or two exceptions, confined to the erection of houses costing from \$1,500 to \$2,500, and these houses are being built God needs to use the chastising red, but in the additions of the city easily reached by street cars. It is the sort of work which gives employment to the maximum number of workmen for the value of the buildings and this fact contributes in no small degree to the prosperous condition of the workmen in the city engaged in the building trades.

Plenty of Workmen Coming.

Business agents of labor unions report. a great influx of workmen into Omaha during the last two weeks, as the report has gon, out that this town is paying better wages and has more work in those lines than many of the other cities. The agents are doing all they can to discourage this immigration of roving workmen. as they say that there are sufficient local men to do the work required and that others will find it almost impossible to secure work, unless they are exceptionally good men.

Only four cities reported show a decrease in the comparison with last year. most notable of these is Buffalo, N. Y. which has to compare with the building of the Pan-American exposition buildings. and shows a decrease of 53 per cent. Brooklyn, Philadelphia and Minneapolis are the other cities showing decreases, the percentages being 14, 6 and 6 respectively. The Construction News summarizes the

There were speeches and patriotic songs, automobile races and other sports and the night program was made especially brilliant, the military taking part in the pyrotechnic spectacle of the capture of the Bastile and the reproduction of the Palaise Royale scene, with Camille Desmoulin addressing the people. A torchlight parade with tableau with thousands singing the Marseillaise concluded the festival, which lasted eight hours.

Seasonable Fashions

3865 Morning Jacket 32 to 40 bust.

Woman's Morning Jacket. No. 3865.-Tasteful morning jackets are essential to comfort and well being and can scarcely be possessed in too great number. This very charming model has the merit of being essentially feminine and graceful at the same time that is ideally comfortable. As shown, it is made of white dimity with collar of revering and frills of Valenciennes lace, but various white and colored materials can be substituted and needlework can be made to take the place of the lace Dainty striped materials are fashionable and always effective; polka dots and other simple all-overs are admirable and such plain colors as blue, pink and lavender are pretty when they suit the wearer.

The back of the jacket is plan and terminates at the waist line, but the fronts are elongated and fall in soft graceful folds. The alceves are in elbow length and comfortably loose. At the neck is a big sailor collar that is becoming to almost all

wonien. To make this jacket for a woman of medium size, 3% yards of material 27 inches wide, 34 yards 32 inches wide, or 24 yards 44 inches wide, will be required, with 714 yards of lace to trim as illustrated.

Ferris Stock Company-

If ever any of the many patrons of the Ferris Stock company doubted the popularity of Dick Ferris they should have been present Sunday night at the opening per-formance of "The Plunger," in which Mr. & Co.'s about \$20,000, both well insured, Ferris made his reappearance with the company after an absence of three weeks, during which time he has been in New York on business. Despite the fact that Sunday night was one of the warmest of the Ferris company's engagement here the theater held one of the largest audiences of the season. The patrons seemed perfectly willing to swelter for an opportunity of paying tribute to Mr. Ferris and the way they applauded when he made

his appearance was enough to start a flow of perspiration equal to that of a Texas oil CASEY-Agnes L., aged 26 years, Funeral Monday, July 15, at 3 p. m. from family residence, 2514 S. 20th. Tonight a great novelty will be seen at Boyd's theater in addition to the performauce by Dick Ferris in "The Plunger." Between acts there will be given every care as to detail, and at heavy expense, an exact reproduction of the South Omaha bullfights. This is something never before witnessed in a theater. There will be no raise in prices and the big demand for seats calls for prompt action if you would secure a choice berth. The big hit made by the play last night is itself enough to bring out the people.

Krug Park-

Forty-seven extra cars were necessary to carry the crowd to Krug's park and the size may be estimated from the fact that one of the gates alone gave entrance to 17,006 admissions exclusive of passes.

The heat was little felt at the pretty summer resort, the cool breezes making

shirtwaists unnecessary. All of the amusements were well attended during the day. Starting with the program given by the Lorenz concert band in the ifternoon the greatest enthusiasm was manifested. The balloon ascension by Prof. Fancher, who was formerly connected with the government service, was a pleasing spectacle.
