THUS THEY CANNOT CIRCLE BASES

Omaha Sends Two Men Around Just to Let the Joes Know the Bags Were There, When They Wake Up.

ST. JOSEPH, July 23 .- (Special Telegram.)-Herman, the wizard, had the Saints guessing for nine full innings today and showed the home team how easy it is to shut them out on their own grounds. But the Omahas got but two runs. Mc-Donald pitched a good game and had it not been for errors by Deoin and Hulswitt, which let in two runs, the game might have proceeded until dark. Both teams played snappy ball and the fans Chicago were delighted with their work, but they roasted Umpire Keith severely at times. AMERICAN His decisions were not always of the best, but each team got its full share.

The Saints got but four hits and these were well scattered. Herman is stranger here. He was signed by the Saints, but later released because it was thought he was too erratic. McDonald allowed but five hits, which also were well scattered. The visitors scored in the first. Fleming hit a slow one toward the pitcher. Dooin went after it and threw it over Davis' head, Fleming going to third and scoring on McAndrews' single. In the secand Toman hit to Hulswitt, who threw over Davis' head. Toman making the circult of the bases on the play. Score:

SPEEDIER THAN COLUMBIA

Constitution Again Proves Superior in Right Weather.

YACHT CLUB'S FIRST SQUADRON RUN

Has to Be Made Part Way Against Strong Tide and in Wind that Proves Most Whimsleal.

NEW HAVEN, Conn., July 23 .- Again today did Constitution prove speedler than Columbia in light airs and fluky weather. It was in the first squadron run of the New York Yacht club from Huntington to Morris Cove and the day was remarkable for the wind, which boxed the compass completely from east, northeast to west, southwest, from 9 o'clock in the morning until 7 o'clock in the evening. For the greater part of the run the yachts had a strong floodtide against them and sometimes they barely made headway against it.

The racers started out close hauled on the starboard tack. The wind grew free and sheets were eased broad off and ballooners spread. Constitution crossed the starting line first at 11:35:35, Columbia following at 11:35:53, Constitution having the windward position and quickly overtaking the large fleet, which had gotten away earlier. The wind was so gentle that it barely filled the lower sails of the big sloops and they seemed to derive most of their headway from the huge club topsails, which were full when the other sails were flapping. As the wind shifted canvas was trimmed to meet it. At 1 o'clock, while Constitution was becalmed, Columbia got a lucky streak of wind and ran past its rival and secured a lead of a quarter of a mile. Its advantage was short lived, however, for at 1:35 the wind once again filled Constitution's sails and it glided to the front in a marvelous manner and maiutained its lead to the finish, increasing it

to port, but the change did not benefit the afternoon; Thursday partly cloudy with

the finish. At 5:25 Constitution took in its spinnaker and gybed over, having the wind on its port quarter and spreading the biggest balloon jib topsail ever seen on a racer, rushed for the mark and crossed at

In the Schlitz brewery you will find a plate glass room. In it are cooling pipes, over which the hot beer drips. Above it is an air filter, and no air comes into this room save through that filter. No germs can reach beer handled with such rare caution. But, after the Seer is aged, we filter it, then bottle and seal it, then sterilize every bottle. We take triple precautions because beer is a saccharine product. Impurities multiply if they get into it. There is no grade between absolute purity and utter impurity. Every bottle of Schlitz is absolutely pure, and purity is healthfulness. Your physician knows — ask him.

DON'T CUSS THE JANITOR

If he only touches the high spots when he dusts, if your windows have a brunette complexion and your wash bowd is crusted with the soot and grime of the month before last. He probably is overworked and underpaid. Anyway its too hot to be ugly. But if you would like to conduct your business in a clean, cool, light, handsome office where you can do more work with less worry, we can show you a few very choice offices in various parts of
