PRICE OF MILK GOES HIGHER

Makes a Material Difference in Cost of Production.

The milk dealers of Omaha will hold a meeting this evening to discuss the question of advancing prices on account of the condition of the weather, which has resulted in advancing the price of feed in a material degree. The cost of producing the lacteal fluid has been augmented by the lack of moisture and the heat has caused the cows to give less than the average amount of milk. Cows cannot graze in the hot weather and the pastures are being destroyed, so that there is a prospect of the dairymen having to depend upon preserved food in the summer as well as in the winter and having to house their stock from the sun's rays as well as from winter's

Several dairymen have already advanced the price of milk from 5 cents to 614 cents per quart and there is a probability of a further advance if the present condition continues:

CONTEND OVER COURTHOUSE Armed Partisans of Rival Sheriffs and Clerks Precipitate Trouble in Arkansas.

MEMPHIS, Tenn., July 24.- The armed partisans of J. A. Lovewell and J. H. Rhodes, claiming to be the legal sheriff and circuit clerk of Mississippi county, Arkansas, were threatening to take possession of the courthouse at Oscoola, which was held by armed followers of Sam Bowen and C. S. Driver, also claiming to be sheriff ceived from Osceola except a brief mesmercial-Appeal, which said that the reried on a mission school of 750 pupils. He ports of trouble had been greatly exaggerated and that the town was quiet at

According to the report received in roundabout way in the day the courthouse town was under arms. It was said that only the active efforts of the peaceably disposed had prevented an outbreak and that an appeal was to be made to give EVANSVILLE, Ind., July 24.-The hot Dayls authority to put the county under martial law.

The dispute over the possession of the shrievalty and clerkship arises, it is said, through the incumbents refusing to rec ognize the revocation of their commissions by the governor, following a decision by suit brought by Lovewell and Rhodes, who claimed they were legally elected sheriff and circuit clerk.

A report tonight says Sheriff Bowen and County Clerk Driver refused to vacate their offices, but that J. A. Lovewell and J. W. Rhodes, who were respectively appointed as their successors, upon being refused possession placed the matter in hands of lawyers; that there was some excitement among the partisans of the four men, but on Saturday it was agreed to allow the matter to go before the proper court.

FOLLOW UP OMAHA CAPTURE

Partner of Grant and Tiller, Postoffice Robbers, Caught at Havre, Montana.

HELENA, Mont., July 24.—William Miller, it is believed to have been continued today and much of importance is expected to be the most notorious postoffice box robbers in the United States, was arrested by Postoffice Inspector Salmon of Cincinnati and office Inspector Salmon of Cincinnati and Occupant Salmon of Cincinnati Accuracy Salmon of Cincinna Deputy United States Marshal Michael Wall association was discussed guardedly during of Helena at Havre yesterday and brought here last night. When taken into custody Miller had nothing to say. Federal authorities are satisfied that they have the man they have spent months in trying to locate, and believe they have broken one of the boldest gangs that ever preyed on government mails. The larger cities were selected for fields of operation. Cincinnati, Toledo, Cleveland and every other city nearby of equal or greater size, east and west received visits from the gang.

After having a large force of postoffice inspectors on the trail of the gang for a long time arrests were finally made las spring in Omaha. Two members of the gang, Prentiss Tiller and E. G. Grant, were taken into custody by officers. In Chicago they escaped, but Tiller was caught within a few days, and Grant was tracked to Buffalo, where he was arrested about a month later. Tiller and E. G. Grant were sentenced for five years.

A BUTTER HINT.

(See Below.)

Why Use Cream With Your

Grape-Nuts?

AN OILY HABIT There are people who become unconsciously addicted to the butter habit; that is to say, they like butter and gradually est a little more as the months go by. until they find they have consumed, each meal, quite a quantity of fat, that they have not vitality enough to properly digest. This indigested substance causes more or less catarrh of the stomach and trouble

with the bowels. The remedy, of course, is to largely cut down the allowance of butter, and for two hot water, just before going to bed. This washes out the stomach and bowels and gives them renewed vitality. Then the person should, for a few mornings at least, rely on good, rich cream, with Grape-Nuts. for breakfast, letting out the butter altogether. The cream gives all the fat

OFFICIALS PLAY TWO CARDS

Nenunien Men Are Sent to Vandergrift Mills at Wellsville.

IDLE HYDE PARK PLANT MAY BE OPENED

Long Disuse of Property Gives Officia Cause to Hope that Strikers Will Not Interfere in Formidable Numbers.

PITTSBURG, July 24.-Two moves, it reported, were made by the aggressive officials of the American Sheet Steel company today toward the breaking of the strike. One was the shipping of some of the nonunion men, who have been employed in the Vandergrift mills of the company, to Wellsville to assist in the starting of the plant there. . It was stated that the men were to be sent to Wellsville during the early evening and would report

there after dark. As a consequence of this report there is suppressed excitement pervading Wellsville, which at any moment may break out into a serious condition. Both strikers and officials of the company are on the alert and ready for any emergency. The im pression is strong tonight that the general officers of the United States Steel corporation have become determined on the subject of an early breaking of the strike and to ultimately force the operation of all the idle plants. The second movement this afternon i

reported to be the starting of the long idle Hyde Park plant of the American Sheet Steel company. This plant was taken into the combination burdened with objectionable contracts made by the former owners and has remained idle since. The long idleness of this mill has caused most of the men formerly employed there to leave Hyde Park for other places and the ompany believes there would be less difficulty in starting this plant than where the Amalgamated association has control.

Important Developments Expected. supreme court adverse to them in a that fresh and decidedly important developments in the strike of the steel workers were about to take place. At the Amalgamated association headquarters the two leading officials of the association were absent during the greater part of the day. It was stated that President Shaffer was away on personal business and had nothing in hand concerning the strike. The absence of Secretary John Williams was also accounted for in the same manner.

Conference is a Mystery.

The conference held on Tuesday night, which kept President Shaffer and Secretary Williams out until early this morning, remains as mysterious as before. Neither of these officials would give out any idea of what had taken place aside from stating positively that they had not met any of the officials of the United States Steel corpora-

the day. Secretary McTighe said he did not-think the measure would be resorted to at this stage, even if it was contemplated for a later day. There was practically no cause for such a measure and if there was he doubted if under the conditions that exist at present the courts would grant such orders. Particularly is this the case in Pennsylvania. In Ohio President Shaffer is said to feel confident that such injunctions would not be granted. Those best acquainted with the feelings of the ter with representatives of European smelmanufacturers say there is, in their opinion. litte cause for believing that such grade zinc ore, to be shipped from Mismeasures will be resorted to at this time.

No More Union Mills. The Post tomorrow will say: That mysterious conference, which was attended by President T. J. Shaffer of the Amalgamated association and Secretary John Williams on Tuesday night, promises to bring about a change in the situation of the seel workers' strike in a few days. It is understood that a movement has been started by the Amalgamated officials for a settlement of the difficulty by further conference with the officials of the steel corporation. This latter movement is said to have been inaugurated on Tuesday when President Shaffer and Secretary Williams held a four hours' conference with other persons at the Lincoln hotel.

M. M. Garland, the former president of the Amalgameted association and now surveyor of the port of Pittsburg, is said to be in New York in the interest of a settlement of some kind. Whether Mr. Garland is acting in behalf of the Amalgamated association or not is merely conjecture. The manufacturers, it is raid, are averse

to any settlement on the basis of an increase in the number of union mills. On this matter they are prepared to fight.

Shaffer Investigates, Disguised. The explanation of the absence of Presilent Shaffer and Secretary Williams from Amalgamated headquarters today was given

in the following telegram received from

Welle 'lle tonight:

"Disguised as a decrepit, half-blind, ragged tramp. President T. J. Shaffer, the head of the Amalgamated association. alipped into Wellsville this afternoon, remained here an hour in conference with Vice President Chappell and other officials and boarded the evening train at East L'verpool to return to Pittsburg. Not half a dozen persons in Wellsville knew tonight or three nights, sup nearly a quart of very that the chief of the workers' organization was in town."

President Shaffer would not state the object of his mission to Wellsville. It was intimated that he was here to outline the policy of the strikers in view of threatened injunction proceedings. He made this statement before leaving East Liverpool: "There will be no injunction. I think I have accomplished much. No injunction

Get as Par as Carbondale, Illinois. CARBONDALE, III., July 24.-About 300 negroes from Birmingham, Ala., including a few women and accompanied by seven or eight white men supposed to be guards, passed through this city today over the Illinois Central enroute for Chicago, to work for the Latrobe Steel and Coupler company, a part of the United States Steel company.

CHICAGO, July 24 -Three shousand residents of Melrose Park and neighboring xillages gathered in front of the town hall again tonight to discuss the threatened importation of several hundred negroes to work in the Latrobe Car Coupler manufac tory of the Steel trust. A committee that had been appointed to confer with Governor Yates, in an effort to prevent the importation of the negroes, reported that the governor would not interfere, as he held the law was not being violated. The governor's decision was received with hisses. Another committee appointed to confer with the Latrobe company officials reported
