Bulls, calves and stage also sold in just about yesterday's notches. The better grades were in active demand, but the commoner kinds were a little draggy, the same as usual.

There was not what might be called an active stocker and feeder market today. The demand from the country yesterday showed quite a falling off and speculators carried over quite a few cattle. For that reason they were not liberal buyers today and would not take anything unless they could get it for less money than they paid yesterday. The supply, however, on sale was not large, so that most everything was finally disposed of. Representative sales: BEEF STEERS.
