Schley's Lettere Received.

WASHINGTON, July 31.-It was announced at the Navy department today PICKETT ADDRESSES that the letter from Rear Admiral Schley acknowledging the receipt of the precept to the court of inquiry and making certain suggestions with reference thereto had at last been received. No explanation of the delay in its arrival and no statement of its contents were furnished.

Judge Advocate Lemley simply announced that the letter had arrived and would receive consideration. He declined hibiting officers from discussing the case.

Captain Lemley departs on his annual leave Saturday and the supposition is that Rear Admiral Schley's letter will be considered before that time and that whatever action is to be taken on the admiral's representations will be taken at once. Captain James Parker, the ex-naval of-

ination of the logs of the ships engaged ficial records pertaining thereto. He ocsupled Secretary Long's office adjoining the bureau of navigation and by direction of Admiral Crowninshield, chief of that bureau, who is now acting secretary of the navy, newspaper men and others were not permitted to communicate with him. One of the officers of the bureau remained constantly in the room to see that the of ficial reports were not tampered with. Admiral Schley's letter to the department, together with the reply thereto, as

Will Now Take Up the Electoral Measure to Discuss it Piece by Piece.

HAVANA, July 31 .- After a lively debate the Cuban constitutional convention adopted the electoral bill submitted by the commis sion as a whole. Discussion of the various articles will now begin.

Senor Sanguilly caused a commetten by protesting against accepting the project of the ground that the convention could no assume the authority therein provided of establishing the new government and set tling disputes arising out of the first election, as these matters belonged to the military government.

Senor Ciego Tamayo said the order convening the convention provided distinctly that the convention should make arrange ments for the turning over of the government. He argued also that it was quite natural for the convention to act as a high court in election cases:

The question, however, was not raised among the delegates as a whole. Several expressed the opinion that the law would not be finally adopted until the return of Governor General Wood. The convention is inclined to change several articles. For instance the article defining the eligibility of candidates to office will be made to read clearly that Spaniards who did not to scribe shall be placed in the same category as native Cubans.
