Heavy Expert Sales, Prediction of Frost and Bullish Crop News Rule Corn.

BUYING FOR OPERATOR RALLIES WHEAT

Oats Market Dull, but Prices Hold Steady in Sympathy with Other Grain-Heavy Movement of Hogs Continues.

CHICAGO, Aug. 7.—Heavy export sales, a prediction of frost and builtsh corn crop news guided the grain markets today, wheat closing 14cc, corn \$4c and oats 4c higher for September. Provisions declined

Opening tradings in wheat were unimportant. September selling a shade lower at 70c to 57%c under the influence of easy cables. Buying for a prominent operator started a raily, which was helped along later by heavy seaboard clearances, a prediction of frost in the spring wheat country and liberal fresh export sales. The bull side accumulated converts as the session progressed and the market was at its best in strength and activity near the close. The bulge met with little opposition till September during the afternoon touched Tige, the high point for the day. Longs to secure profits sold on a liberal scale, but prices yielded stubbornly and the close was strong. I've over yesterday at Tile 71.10. Seaboard clearances in wheat and flour were equal to 1.118.000 bushels, while primary receipts aggregated 1.218.00 bushels, compared with 1.25,000 bushels, while primary receipts and Diluth reported a total of 120 cars, against 177 last week and 245 a year ago. Local receipts were 23t cars, 61 of contract grade. Exporters reported 50 carlioust taken.

Corn ruled turiy active and strong under crop reports of the same dismal import that has characterized them for a month Opening tradings in what were unim-

reports of the same dismal import has characterized them for a month crop reports of the same dismal import that has characterized them for a month past. The wheat strength was a contributory factor in advancing values. The weekly government report and various traffic officials of railroads strove to say something cheerful of late malze, but none were found who did not admit the early crop was a failure. The pit was in possession of too many builds orivate reports to be much influenced by departmental generalities. Light receipts, only 80 cars here today. An inability to buy corn in the country at better than the market prices increased buildshiess. The market lacked the excited buoyancy which characterized it during the drouth but there was a quiet confidence in higher prices based on a settled judgment that the corn belt has been hard hit. September sold between 56½ and 57½ and closed ½ up at 57½.

The oats market was dull. Prices held steady in sympathy with corn. September sold between 34½ and closed ½ higher at 34½c. Receipts were 220 cars.

Provisions were weak under liquidations of January product and in sympathy with weak hogs. It was believed that the heavy movement of hogs to market will continue for some time. September park closed 15c lower at \$13.57½ and September rips 2½45c depressed at \$7.77½.

Estimated receipts tomorrow: Wheat, 230 cars; corn, 30 cars; cats, 40 cars; hogs, 39,900 head.

NEW YORK, Aug. 7.—Business today was on a reduced scale and there was a more general disposition to curtail operations pending the settlement of the steel strike. The announcement over night of a general extension of the strike order caused some hestancy at the outset in the general market, but aside from a sharp dip at the end of the first hour and again toward the close, the tendency was distinctly upward throughout. The final prices were about the best for Atchison, St. Paul, I nion Pacific, which accounted for the most active dealings in the railroad division. Reports have been current for several days past of a fixed price at which the United States Stret stocks would not be allowed to break by the alleged pool behind the stock. This level was exceeded eathlier in the week and speculators generally were interested in watching the opening in the stocks this morning. When 6,00 shares of the common stock came out on a scale down to 39% and a figure was made of 3 for preferred, representing losses of 3 each, the support was immediately frihactoming and a rumor gained currency that the level for the day was fixed for 39% and 89 respectively.

Professional operators made but feeble the level for the day was fixed for 39% and 39 respectively.

Professional operators made but feeble efforts to depress the stocks in the subsequent dealings and were more inclined to bid up the general list on the theory that the backing to the steel issues would have a sustaining effect on all other properties. Whether this supposition was correct or not or because the short interest had been duly extended in the railroad list, the fact reextended in the railroad list, the fact re-mains that all the grain-carrying roads showed conspicuous strength at various

The Commercial Advertiser's London financial cablegram says: The stock market today was utterly stagmant, although investment shares were firm on the general investment shares were firm on the general belief that he termination of the Boer war is close at hand. Other stocks than stricty investment ones were inclined to sag and American issues oscillated fractionally. There was a complete lack of interest in that department pending the settlement of the steel strike and the receipt of the government crop report. New York sent hardly any prices. NEW YORK, Aug. 7.—COFFEE—The market for futures opened steady at unchanged prices. During the forenoon prices failed to vary, but on receipt of a late cable from Havre which indicated an advance values here rose sympathetically about 5 points. This gain was sustained throughout the rest of the session and trading was fairly active. Most of the business, however, was confined to "switching" the near months for more remote deliveries. Receipts continue to full volume, while the foreign information in general was void of special significance. The market finally closed steady at net unchanged prices to an advance of 5 points. CATTLE-The cattle receipts today were st. CATTLE—The cattle receipts today were fairly liberal for this time of the week, and state fairly liberal for this time of the week, and state fairly liberal for the markets were quoted lower made buyers a little beartsh in their views at this point. They tried to get their supplies a little lower, but the market segmally braced up and about steady prices were paid for the better grades. Besides the native cattle there were a few rangers offered.

Good to choice beef steers were in fairly good demand today at just about steady

good to choice beef steers were in fairly good demand today at just about steady prices, and practically everything answering to that description was disposed of in fairly good season. The commoner kinds of course, did not move quite as freely, and in some cases seliers thought they had to take a little less money than the same kind. take a little less money than the same sold for yesterday. There were about fifty strong of cornfed cattle on sale, and besides those there were five rars of steers from Idaho. Some of them sold as high as \$4.40, 69, which was considered a very fair price, all things considered.

There were about twenty cars of cows and 78, before in the varies this morning and white.

There were about twenty cars of cows and helfers in the yards this morning, and while is the better grades sold at just about steady prices the commoner grades were neglected and in a good many cases sold a little lower. Bulls, calves and stags sold in very near the same notches they did yesterday.

There were not so very many stockers and feeders on sale today, and the better grades sold without much difficulty at right around steady prices. The common stuff was, of course, neglected, but still they did not sell so much differently from the way they did systerday. Representative sales: yesterday. Representative sales: BEEF STEERS.

CHICAGO, Aug. 7.—One hundred and eighty-seven and a half miles on one bat-tery charge is the latest performance of an electric automobile, the regular Stanan electric automobile, the regular Stanhope, for two people, setting a new mark
for these vehicles. The machine is the
joint output of two Cleveland companies
and a Chicago company. The performance
of the new machine is due to the advanced
improvements in three parts of the machine, battery, motor and running gear,
which enables it to cover more than twice
as many miles on one charge as has hertofore been done by electric vehicles. The
test was made on the Chicago boulevards
between 3 p. m. Monday and 2:30 th s
morning.

SHEEP—There was a good run of sheep here today for this time of the week, and although Chicago was reported steady to a dime lower, the market here on good staff held just about steady. As high as \$3.50 was paid for a choice string of yearlings, but they were the best that have been here in some little time. The common and halffat stuff was, of course, neglected, the same as usual, and in some cases probably sold lower.

There were no strictly choice lambs on the market this morning, and for that reason the trade was slow and weak Packers did not seem to care whether they got the commoner kinds or not, and sellers found it difficult to dispose of that class of stuff.

Smelter Robbery Still a Mystery.

SAN FRANCISCO, Aug. 7.—There is nothing new to report in the Selby Smelting works robbery this morning. The search for the robbers is being actively engaged in by scores of detectives, but if any trace of the missing buillon or its possessors has been found the detectives are unwilling to make the news public, nor are they willing to disclose any definite clues they may have as to the identity of the robbers.
