Grain Market Rather Narrow in Absence of Change in Crop Situation.

NARROW RANGE OF PRICES THROUGHOUT

Feeling Steady at the Close in Wheat—Corn Moderately Active, but is a Local Market—Provisions and Oats Dull.

CHICAGO, Aug. 9.—In the absence of change in the crop situation the grain markets were rather narrow today, closing steady, wheat a shade up, corn unchanged and oats active for September delivery.

Provisions closed unchanged to the lower limit of their trade. Traders were inclined to limit their trade. There was a little outside interest in the market, while news of influence was about evenly divided between the bulls and bears.

While corn was at times moderately active it was a local market, with the speculative activity being confined to the local market.
