

RAIN THROUGHOUT STATE

Information at Railroad Headquarters Talks of soaking Downpours.

DROUGHT IS A THING OF THE PAST

Graining Country in Northwestern Nebraska and South Dakota is in the Best Condition and Outlook is Generally Good.

Nebraska had a generous soaking Thursday night. Reports secured by the railroads from all sections of the state show that there was a general rain.

The heaviest rains were along the northern division of the B. & M. Sutton had 2.5 inches, the heaviest rainfall reported so far.

Along the southern division the rain was not so heavy, but it was general. Nebraska City had nearly half an inch.

Similar reports came from the Nebraska agents of other lines. The Elkhorn officials were notified of rains averaging half an inch over practically all their Nebraska lines.

Wyoming and South Dakota also shared the rain. The Elkhorn has reports of good rains at Casper and other points along its line in Wyoming.

The graining country in northwestern South Dakota and southwestern South Dakota never was so flourishing a condition as it is at present.

Mr. Donlevy belongs to the advanced or "physical force" party, which believes that if Ireland is ever to gain absolute freedom it must fight for it.

Henry M. James is dead. Former Superintendent of Omaha Public Schools Passes Away in North Carolina.

Henry M. James, former superintendent of the Omaha schools, died at Chapel Hill, N. C., August 5.

Concord grapes are ripe. New fruit finds its way to the local market—cantaloupes, tumblers.

Edward Strong is injured. Market Gardener's Horse Takes Flight at Elephant and Throws Him Out of Wagon.

Edward Strong, a gardener living at Thirty-eighth and Camden streets, was seriously and perhaps fatally injured yesterday morning as the result of his horse taking flight at the circus elephants at Eighth and Davenport streets and running away, throwing him violently to the pavement.

Diarrhoea Quickly Cured. "Mr. Charles Rickerman came into our store some time ago suffering with diarrhoea so badly that he was passing blood," says J. A. Freedel & Co. of Rome, Wis.

FOR A SUMMER OUTING. To the Great Salt Lake Region. Cross the Rockies on a forty-three foot grade, light easy curves, eighty-pound steel rails, a perfectly ballasted road-bed, gigantic embankments of disintegrated granite, through tunnels, bored in solid granite and over stone and steel bridges.

Utah's Ideal Climate. On the shores of the great Salt Lake and for fifty miles from it in every direction, the climate of climate is found. To enable persons to reach the famous health, bathing and pleasure resorts of Utah the Union Pacific has put in effect summer excursion rates.

LETTER INSTEAD OF PRESENCE

School Board Will Write to the Investigating Committee of the Council.

When the city council meets this morning to investigate the "persistent rumors" which have worried the Board of Education in regard to the alleged collection of fines from lewd women and which resulted in an appeal to the district court of Douglas county for a grand jury, the probabilities are that there will be no members of the Board of Education present to make any showing in support of the charges which have been so fruitfully recited in the board meetings.

"The committee will probably be the recipients of a letter which will go into the matter at great length from the standpoint of the school board," says a member of the board, "if anything, will place the committee in the light of seeking to investigate the members of that committee themselves instead of the actions of executive officers."

"The letter will not be the action of the school board as an organization, for that body has had no meeting in the past half since the action of the council in appointing the special committee, Thursday morning the secretary of the school board received a letter from the city clerk stating that the investigating committee of the council would hold a session Saturday morning and requesting all members of the board of education to be present at that time."

As soon as members of the board were informed of the receipt of the letter they held a consultation and a number of them concluded that the best answer which could be made would be a letter in which all facts known by the members and all conclusions reached by them would be set forth.

Similar reports came from the Nebraska agents of other lines. The Elkhorn officials were notified of rains averaging half an inch over practically all their Nebraska lines.

Wyoming and South Dakota also shared the rain. The Elkhorn has reports of good rains at Casper and other points along its line in Wyoming.

The graining country in northwestern South Dakota and southwestern South Dakota never was so flourishing a condition as it is at present.

Mr. Donlevy belongs to the advanced or "physical force" party, which believes that if Ireland is ever to gain absolute freedom it must fight for it.

IMMENSE CHUNK OF LAND

Fifty Thousand Acres in Lincoln County Bought by Ose Company.

UNION PACIFIC MAKES THE SALE

Milwaukee Corporation the Purchaser and the Property is to be Turned into a Stock Ranch of Mammoth Proportions.

Fifty thousand acres of Lincoln county land has been sold to a party of capitalists, headed by Albert E. Smith of Milwaukee.

The land will be fenced at once and converted into a stock ranch. For several weeks the Union Pacific land department has been negotiating the sale of the large tract of land and the deal was closed yesterday.

A. M. Allen of Gothenburg and a number of other Nebraskans are interested in the deal. The land is located in the east half of Lincoln county and part of it touches Custer county on the east.

The land is a few miles northwest of Gothenburg and is located within a short distance of the Gothenburg irrigation canal, which takes water from the Platte.

Men who are interested in the new feeding ranch have control of 5,000 acres of irrigated land adjoining the canal. Most of this land is used in raising alfalfa and is capable of supplying feed for thousands of cattle.

Suitable for Stock. The land which the Milwaukee man and his associates have just purchased is suitable only for grazing purposes.

Further north the lands in the western part of the state are much nearer the country where buyers secure the best feed cattle that a great saving will be had in freight rates.

SOROSIS

Stray Impressions. Every day we hear some customer say—"I had no idea that Sorosis were in so many beautiful shades and styles."

Some people have the impression that Sorosis are necessarily mannish. While some of their best styles for walking are as comfortable, as men's shoes look to be, they still retain that character which gives them individuality.

Fifty different shapes and patterns of Sorosis now in stock from the highest weight to the lightest. Every pair a \$5.00 value and costing the wearer \$2.50 always.

Sorosis mail orders are carefully filled.
