

HUMOURS

Pimples, Blackheads, Red Rough and Oily Skin PREVENTED BY

Cuticura SOAP

MILLIONS of Women use CUTICURA SOAP, assisted by Cuticura Ointment, the Great Skin Cure, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, itchings, and chafings, in the form of baths for annoying irritations and inflammations, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and many sanative, antiseptic purposes which readily suggest themselves to women and mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used these great skin purifiers and beautifiers to use any others. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odours. No other medicated soap is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in ONE SOAP at ONE PRICE, the BEST skin and complexion soap, and the BEST toilet and baby soap in the world.

Complete External and Internal Treatment for Every Humour. Consisting of CUTICURA SOAP, to cleanse the skin of crusts and scales and soften the thickened cuticle; CUTICURA OINTMENT, to instantly allay itching, inflammation, and irritation, and soothe and heal; and CUTICURA RESOLVENT, to cool and cleanse the blood.

A SINGLE SET is often sufficient for cure of itching, disfiguring humours, with loss of hair, when all else fails. Sold throughout the world. British Depot: F. NEWBURY & SONS, 27 and 28, Charterhouse Sq., London. U. S. C. POTTER DRUG AND CHEMICAL CORPORATION, Sole Props., Boston, U. S. A.

INDIA'S FINANCIAL REPORT

Gold Standard Has Helped Country Despite Famine and Acute Depression.

LONDON, Aug. 17.—The Indian secretary, Lord George Hamilton, in the House of Commons today presented the financial statement for India. He said that in spite of three years of famine and acute depression in the three agricultural staples, tea, indigo and cotton, he was able to present the most favorable balance sheet since Indian came under the crown.

The relief expenditures for three years totaled £15,000,000, but the same period showed a surplus of £677,000. The rain, though below the normal, has been sufficient for agricultural purposes. The crop outlook was fair and there was a prospect of material reduction in the relief.

The results of the gold standard policy had more than realized the government's expectations.

Referring to the railway department, Lord George Hamilton said that a special provision of the sinking fund would, during the next fifty years, give the government possession of the rolling stock now valued at £85,000,000. This, he contended, afforded conclusive proof of an upward economic movement. He announced that it was the government's intention to appoint a trained expert to assist the government in developing the railways of India on the most modern practical lines. This expert would visit the United States and would prepare an exhaustive report upon the railway system there, especially concerning light railways, with a view of determining how far the American system would be applicable to conditions in India.

Lord George concluded with praising the administration of Lord Curzon of Kedleston in the government of India.

In the course of his statement, Lord George Hamilton says he expected that before long the production of steel would be begun in India.

FRENCH'S SCOUTS SURROUNDED

Fifty British Surrender to the Boers, One Being Killed and Three Wounded.

LONDON, Aug. 17.—The War office has received the following dispatch from Lord Kitchener, dated Pretoria, August 16: "While a party of fifty of French's scouts were proceeding to join a column near Bethesda they were surrounded in the hills by a superior force under Theron and surrendered. One was killed and three were wounded, Captain Bethelheim dangerously."

Lord Kitchener does not give the date, but the casualty list indicates August 8.

DURBAN, Aug. 17.—Lord Kitchener, with a strong force, is moving on Honderland, on the border of Zululand, where General Botha is reported to have concentrated 4,000 Boers. An important engagement is expected to ensue.

Reporting upon the engagement between Colonel Gorringe and Commandant Kritzinger at Middleburg, Lord Kitchener says that the British commander drove the Boers north to Venterstad in confusion. He adds also that General French's other column in Cape Colony is gradually driving the enemy northward.

STILL OCCUPY THE TEMPLES

Troops of the Powers Will Not Be Withdrawn Until the Protocol is Signed.

PEKING, Aug. 17.—The troops of the powers have not yet evacuated the public buildings. The British and American troops are occupying the Temple of Heaven and the Temple of Agriculture until their barracks are ready.

Sir Ernest Salow, the British minister, thinks it would not be wise to withdraw before the protocol has been signed in conjunction with the Chinese plenipotentiaries, as withdrawal would remove the chief inducement to the Chinese to sign.

The Japanese still hold the northern section of the city. It is considered significant of their relations with the Chinese that the Japanese colonel has been elected to command and organize the Chinese police.

The opinion is growing that the court will refuse to return so long as the powers maintain such large forces in the province of CHI-LI.

The protocol does not provide for the destruction of the forts, the ministers of the powers having failed to agree on this point.

ITALY'S CROP PROSPECTS GOOD

Wheat, Wine, Olives, Hemp, Corn and Rice All Promise Well This Year.

ROME, Aug. 17.—Favorable crop reports throughout Italy indicate the wheat prospects slightly in excess of last season. The wine outlook is also promising, there being no disease affecting the vines. For the first time in several seasons the olive crop will be good and the prospects for hemp, corn and rice are uniformly bright.

American Coal in Europe.

LONDON, Aug. 17.—"American coal has opened a new market in the Swiss market," says a dispatch to the Daily Mail from Geneva. "and the American syndicate is confident of eventually obtaining a monopoly of the entire Swiss coal market."

Valkyries Will Visit New York.

COPENHAGEN, Aug. 17.—The Danish government, having determined to return the visit of the United States training ship Hartford, the cruiser Valkyrie, in command of Prince Waldemar, the king's youngest son, will sail for New York in January and afterward visit other American ports.

AFFAIRS AT SOUTH OMAHA

Police Asked to Assist Garbage Inspector in Interests of Public Health.

DRUGGISTS SLOW TO COMPLY WITH LAW

New Bridge Over Mud Creek is Now Open to Traffic—G. W. Robinson, Ex-Police Officer, Arrested in Kansas City.

The promiscuous dumping of garbage in alleys is causing the city officials considerable annoyance. In spite of all Inspector Jones can do persons persist in dumping refuse of all sorts in alleys and on the lots. A request is to be made to the mayor to have the police keep watch for violations of the sanitary rules. It is thought that if a few arrests are made and fines imposed the practice will be stopped. Several recent lots near the center of the city are used as public dumping ground. Inspector Jones said yesterday that he had tried to put a stop to this practice, but could not catch anyone in the act. He suggested that an officer be detailed for this work for a few days with a view to making arrests for creating nuisances.

Another violation of the city ordinances which is constantly going on is the burning of rubbish on paved streets. If this practice is continued arrests will follow.

The city ordinance governing the sanitary condition of the city are not now being observed to any alarming extent. The inspector appears to be doing his duty, but the police do not assist, as it is thought they should.

Attorney Lambert Home.

City Attorney W. C. Lambert returned yesterday from the Pacific coast, where he spent four weeks seeing the sights. He went to work at once upon his arrival. While on the coast Mr. Lambert visited the salmon canneries at Astoria and says it takes only thirty minutes for a salmon to be canned after taken out of the water. From Astoria the party went to San Francisco by steamer and enjoyed the trip greatly. The strike in San Francisco, said Mr. Lambert, has tied up all shipping and drays loading at the docks were guarded by the police. The return trip was made over the southern route.

Planking L Street Viaduct.

The planking of the L street viaduct began yesterday. Planks of Oregon pine are being laid. It is expected that this flooring will last for some time. The grading at the west end of the bridge is nearing completion and the chances are that the viaduct will be opened for business in less than thirty days.

Druggists Are Slow.

City officials are complaining because the druggists do not comply with the law and file applications for the sale of liquor. Only two or three have made any attempt to comply with the ordinance and the orders of the council in this respect, and it may be that the chief of police will be instructed to put a stop to the sale of liquor by druggists unless there is a ready compliance with the law. An advertisement the same as exacted from saloons must be inserted for two weeks in the newspaper having the largest circulation in the county.

Mud Creek Bridge.

The bridge over Mud creek has been built by the Union Pacific Railroad company and is now open to traffic. On account of the building of the bridge by the railroad company it will be necessary for the mayor to veto the resolution letting a contract for this work to S. J. James. The Union Pacific is doing a great deal of work in Albion and will spend considerable money there increasing the yardage. Grading is going on yesterday for a change in the course of the creek. This is being done in order to allow more yardage for the road on its right of way.

Robinson Arrested.

Captain Allie, acting chief of police, was notified yesterday that J. W. Robinson had committed last Saturday. The men who joined the letter are responsible for their action. A majority of the board signed it before it was forwarded. I know who signed it and so do the other members of the board. The secretary is getting together under instruction and cannot make the board public until he is authorized to do so by a majority of the board. There were enough signatures attached to make it the action of the board and it is childish for members to now say that they signed without first reading its contents, for the record is against them.

SALMON TRUST IS ORGANIZED

Capital is Twenty-Five Millions—Will Have Five Ocean Steamships.

NEW YORK, Aug. 17.—It was announced today that arrangements for the new salmon combination had been completed. The Pacific Packers' Navigation company will be the title of the combination, with a capital of \$25,000,000, half common and half preferred, and bonds to the amount of \$7,000,000. DeLafayette, McGovern & company are to be the agents of the company. It is understood that the Alaska Packers' association, the only large salmon packing concern outside the combination, will work in harmony with the new corporation. The combination will have five ocean steamships to transport supplies to its various stations.

A. H. Davis, Mt. Sterling, Ia., writes: "I was troubled with kidney complaint for about two years, but two 1/2 bottles of Foley's Kidney Cure effected a permanent cure."

Dinner At The Kursaal—

One of the chief attractions now at Manhattan Beach is the table d'hote dinners which are served every night at the Kursaal by Caterer Balduff. People look over there nightly to enjoy a good dinner—which they are always sure of getting—and at the reasonable price of 75c—the completion of the splendid big bathing pavilion, the Kursaal, has permitted Balduff—the popular Omaha caterer—to specially feature his splendid table d'hote dinners in its inviting cafe—and the result has been a succession of pleasing social functions.

HOW SCHOOL BOARD STANDS

All Members Disclaim Having Any Knowledge of Alleged Corruption.

NO ONE TO FATHER WELL DEFINED RUMORS

Although Complaining of Alleged Diversion of Fines, No One Wants Fines Reimposed for the School Board Treasury.

The mysterious reticence of the secretary of the Board of Education in declining to disclose by what authority he sent to the council a letter, signed by the secretary of the board, denying the committee's power to investigate the so-called well-defined rumors on which the board had asked for a grand jury, has prompted the Bee to ask for information from the school board members themselves.

Coupled with this inquiry, in view of the fact that the board seems to be complaining about an alleged diversion of fines upon inmates of disorderly houses, an effort was also made to ascertain whether the school board is working for a restoration of the system. The two questions propounded were:

First—Did you sign or authorize the letter sent by Secretary Burgess as coming from the board in response to the invitation of the council to appear and give evidence in its investigation?

Second—Are you in favor of returning to the fine system with reference to the social evil?

The interviews follow:

Black is a Signer.

C. E. Black—Yes, I signed the letter, but I never read it. Mr. Burgess came down to the store Saturday when I was very busy. He asked me if I would sign a letter to the council committee, and I asked him what it was. He said that it was to support him in his contention in regard to the investigation by the city council. I told him that I would sign it to support him, and did so without reading the letter, which I have not read at this time. I am absolutely opposed to resuming the system of levying fines upon the inmates of disorderly houses. Now I want to tell you all I know about the matter of the investigation and the rumors. One night during the session of the board Fankhouser came over to my desk and threw down a copy of the resolutions asking the district judges to call a grand jury. I read it and asked him if there was anything in the charges. He replied, "we think there is," and I signed the resolution, knowing no more about the affairs than that. I believe that we will never get the funds we should in the treasury of the board until we get a police judge who will fine offenders and collect the fines.

Mr. Stubbendorf Undecided.

Fred Stubbendorf—I signed the letter. I do not know whether or not I am in favor of making regular fines upon disorderly women or not. I would have to investigate the matter further. I have never seen in being collected they should come to the treasury of the school board. This matter of the diversion of fines had its inception at the time the school levy was made for this year. At that time committee from the Commercial club visited the school board and asked that we reduce our levy. We found that in order to pay current expenses and get out of debt we couldn't reduce the rate, and so told the members of the Commercial club committee that we were going to the members of that committee, Euclid Martin, I believe, referred to the fines from the police court from these houses. He said that in former years the board derived considerable revenue from that source and asked where that money was going at this time. This is all I ever knew about the matter, except as we relied upon the report of the committee of finance which brought in the resolution calling for a grand jury.

J. J. Smith—I never signed the letter.

J. J. Smith—I never signed the letter; I never saw it. After the letter was sent to the council committee the secretary of the board called me up by telephone and asked me if I would sign it. I told him that I did not approve of the action of a bare majority of the board in getting together in secret caucus and taking action like this, which will bind the board without giving opportunity for full and free discussion. At the time we passed the resolution calling for a grand jury I was under the impression that such a body was to be organized to make a survey of the city. Since that time I have discovered that under the charter of the city the council is the body authorized to make investigations of this character and therefore I would not have signed the letter even if I had known about it from the first. I believe now that it is the duty of the members of the school board to appear before the committee and tell what they know about the matter. From what I can learn no member of the board claims to have personal knowledge of any corrupt practice, but some of them say that they know men who claim to know of such practices and it is certainly their duty as honest-citizens to give those names to the committee of the council. They claim that they fear the committee was organized for the purpose of whitewashing certain officers. If there is any disposition of the council to do that, it is certainly their duty to carry out that plan that evidence given before the committee will be public property and then the majority of the people of the city will sustain the board in its demand for a grand jury. In voting for the resolution as offered by the finance committee I was only doing what I believed proper under the circumstances, for the men who signed that resolution are reputable citizens, whose word is entitled to credence.

N. M. Howard—I signed the letter

N. M. Howard—I signed the letter without giving much thought to the question of fine the women again, but if such is the law I believe that all laws should be enforced. However, I do not believe in raising school money from that source and think the law should be changed if it now so provides. I know nothing of the facts in the case of the alleged diversion of fines one way or the other. I voted for the resolution, believing that if no one was to blame in the matter investigation would not hurt them.

Morris Levy—I decline to state whether or not I signed the letter. I am not in

favor of reviving the fine system.

I do not think that the resolution introduced by the finance committee had for its object the increasing of the revenues of the Board of Education.

Johnson Doesn't Remember.

Theodore Johnson—I don't know whether I signed the letter which went to the council committee or not. I signed a letter presented to me by Secretary Burgess, which I understood was to authorize him to send a letter written along the lines of the one published in the paper, but it may be that I never read it. As to a return to the fine system I cannot say, for I have believed all along that it was a matter of enforcing the law. As to the unanimous vote on the resolutions calling for a grand jury, we had the report of a committee appointed to investigate the matter and we went according to that.

George T. Nicholson—Yes, I signed the letter. I would have to consider the question of a return to the fine system before answering. My reason for signing the letter was that the matter had been considered by a committee of the board which had decided to investigate the question and the board had never asked the council to take the matter up. An investigation would hurt no one if no one is at fault.

Robert Smith—I signed the letter, but I do not know anything about the matter. We left it to our finance committee and I have acted solely on its recommendation. I am decidedly opposed to reinstating the fine system.

Messrs. Hayward, Wood, Barnard, Maynard and W. F. Johnson are board members of the city, hence there was no opportunity to secure interviews from them.

Fankhouser Non-Committal.

M. F. Fankhouser—I decline to state whether I signed the letter or not. In regard to the levying of fines upon the keepers and inmates of disorderly houses, I believe that the law should be enforced. Under Dennis and under Bronch the enforcement of the law was dropped, as I understand, the Ministerial alliance opposed it. Under the administration of Mayor Moore in 1898 we raised about \$200,000 from this source. I cannot say that I favor this plan of raising money for the schools, but the law should either be enforced or repealed. In regard to this investigation which has been called for, I have acted in the matter lately for I was acting president of the board in the absence of President Hayward. The secretary was authorized by a majority of the members to send the letter, and their signatures to the original letter will show. In making the report to the board upon which the body called for a grand jury the committee did not bring charges against any one, but simply referred to certain rumors which were current upon the streets and of which the members knew no more than any one else. The entire matter was simply carried out by a number of citizens purporting to be a committee from the Commercial club, which waited upon the school board at the time the tax levy for the current year was made. On that occasion there were present, on the part of the Commercial club, Martin, Green, Bruce, Koutze, Poppleton, Martin, Green, Colonel Weller and others. Mr. Poppleton, I believe, spoke for the committee. He said that the board should receive at least \$5,000 a year from these fines and that if the council would much it would be better if it did not receive that money, but because something was wrong and that it was the duty of the finance committee of the Board of Education to find out where the wrong existed. In fixing our estimates for the year we placed the probable income from fines at \$5,000. About \$2,500, according to the statement of the Commercial club committee, there should be more than twice that much. Acting on the suggestion of that committee the finance committee of the board was going to find out where the balance of the money went, and we know no more about it than the rumors which were current on the streets. I decline to say whether I authorized the secretary to write the letter and transmit it to the council or not. The men who joined the letter are responsible for their action. A majority of the board signed it before it was forwarded. I know who signed it and so do the other members of the board. The secretary is getting together under instruction and cannot make the board public until he is authorized to do so by a majority of the board. There were enough signatures attached to make it the action of the board and it is childish for members to now say that they signed without first reading its contents, for the record is against them.
