COMMERCIAL AND FINANCIAL

Speculative Markets Open Easy, but Ecome
Steadied Later.

INFLUENCED BY FRANCO-TURKO RUPTURE

Wheat Starts Unchanged and After

Drop Railies at Close—Corn Values

Depressed by Government Reports—Provisions Easy.

CHICAGO, Aug. 21.—The leading speculative markets opened easy today, but steadied later, the Franco-Turkish rupture lending a supporting influence. September wheat closed get higher, September corn where to get higher, September oats unchanged and provisions for January delivery 24-456 to 14-6 higher at 70470-56 on buying by shorts, who had a profit in sight, light seaboard clearances, neavy receipts and generally favorable weather scon turned the scale and on a mederate volume of sales the market.

DMAHA WHOLESALE MARKET.

September wheat opened unchanged to tachigher at 70270 ac on buying by shorts, who had a profit in sight, light seaboard clearances, heavy receipts and generally favorable weather soon turned the scale and on a moderate volume of sales the market declined to 65%. Here the market steadled and ruled duil for a time under local conditions. The report of the severance of diplomatic relations between Turkey and France later came to the aid of the buils. Offerings suddenly dwindled to almost nothing and a small demand from nervous shorts was sufficient to cause a rally of te

France later came to the aid of the bulls. Offerings suddenly dwindled to almost nothing and a small demand from nervous shorts was sufficient to cause a raily of 1c from the bottom. The close was steady. September be over yesterday at 70bc. That the foreign diplomatic situation did not cause a sharper rise was due to the Paris market, which was considered weak, and hence a damper on reports of the diplomatic situation being alarming. Experters reported 38 londs taken. Seaboard clearances were 29,000 bushels, the smallest in weeks. Primary receipts were 1.216,000 bushels, compared with 1.265,000 bushels, last year. Local receipts were 164 cars. 13 of contract grade. Minneapolis and Duluth reported 321 cars, making a total for the three points of 556 cars, against 335 last week and 654 a year age.

The government report showing considerable improvement in crop conditions since August had a depressing effect on values all day. Heavy quantities were liquidated early and during this movement the bears embraced the opportunity of taking a fiver on the short side of the market. The creation of the latter interest, due to the partial recovery later, when wheat turned firm, as the shorts were quick to run to cover. September soid between 575c and 555c and closed easy, be under yesterday at 575c. Receipts were 194 cars.

Oats opened easy and ruled easier for a time in sympathy with wheat and corn. A steader tone crept in later in sympathy with the wheat raily and on a fair general demand from people who soid yesterday. Receipts were 171 cars. September sold between 354c and 255c and closed inchanged at 354c.

Provisions opened easy, sharing in the generally bearish feeling and having the additional incentive of heavy hog receipts. There was only a small speculative interest represented in the plt and a small demand for the local account proved sufficient to cause a recovery in prices. The bulge met with practically no selling procedure and the close, therefore, was steady. January lard 5c up at \$8.55 and January Fibs 21 The leading futures ranged as follows: Articles. | Open. | High. | Low. | Close. | Yes'y.

Coffee Market.

NEW YORK. Aug. 21.—COFFEE—The market for coffee futures opened steady, with prices unchanged to 5 points higher on brying for room account, prompted by a reduced crop movement and firm Brazilian markets. Other cable news contained nothing of feature. Deliveries from ware-houses reached only a small total and spot coffee in the street market ruled dull. The market for futures continued steady after the opening on light foreign and local demand, fluctuations keeping within a 5-point range all day. Closing prices were net unchanged to 5 points higher and total sales 29.250 bags. Including: Beptember, 4.85c; October, 4.96c; November, 5c; December, 5.16c; March, 5.35c; May, 5.56c. HOGS—There was not a very heavy run
of hogs here today, but with several stale
loads carried over from yesterday the number on sale was of fair proportions. Packers lost no opportunity to bear prices and
the market was just about as dull and weak
as it usually gets. Indifferent trading
marked the trade and while bids early were
a flat dime lower trading was done at a
basis of about 5sflipe lower than vesterday's
seneral market or the decline for the two
days has averaged about a shilling lower.
Some prime hogs were cicked out at
prices about a nickel lower than yesterday,
tops touching \$6.00, but the bulk sold down
to pretty close to a dime lower.
The market closed dull and unsatisfactory
all around. Representative sales: Representative sales: Ound. Repress Av. sh. Pr. 197 129 5 69 188 120 5 69 147 5 60 228 120 5 69 1147 5 60 2214 220 5 65 118 150 5 65 118 150 5 65 108 150 5 65 Av. Sh. Pr. 538 120 5 7714 333 40 5 7714 231 40 5 774

Wool Market.

Wool Market.

BOSTON, Aug. 21.—The American Weol and Cotton Reporter will say tomorrow of the wool trade: While the demand for weel during the last week has been quieter, there has, nevertheless, been more than an average business transacted and prices on all lines have been fully maintained. The demand has been widely distributed and it has practically all been for consumption, there being no speculative tendency observable as yet. There is a firm undertone to the market and consumers who attempt to secure wools at any concessions from going prices do not succeed in securing wool. The rank and file of them are content, however, to pay current rates. There is no disposition on the part of holders of wool to force the market—they all have all they can conveniently attend to for a while in shipping what they have sold and are content to await developments. The bulk of the territory wool has been purchased outright and is in strong hands. The situation as regards both wool and woolen goods looks strong and healthy. The mills are are fulled with orders and there is no apprehension of a widespread cancellation movement. There is a large stock of weel in Boston—this could hardly be otherwise in view of the fact that the territorial clip has been practically all bought outright and the most of it shipped to Boston. But with the large consumption which it is believed will develop between now and next clip time, the trade feels that the bulk of the supply here will be wanted. The sales for the week amount to 4.62,000 pounds domestic and 52,000 pounds for eign, making a total of 5,192,000 pounds for eign, making a total of 3,620,000 pounds for the corresponding week last year. The receipts in Boston this week amount to 23,236 bales, against 33,239 bales list week and 18,765 hast year. The total receipts since January 1 have been 434,811 bales and 28,580 bales for-elsn against 3,000. Roston this week amount to 32,236 bales against 33,239 bales hast week and 18,755 hast year. The total receipts since January 1 have been 434,811 bales and 28,580 bales foreign against 260,775 bales domestic, and 112,008 bales foreign for the corresponding period of 1900. This is an increase of 13,518 bales domestic and a decrease of 13,518 bales foreign. Shipments of wool for the week ending August 19 are as follows. Tuesday, August 13, 341,831 pounds; Wednesday, 447,544; Thursday, 1,239,120; Friday, 2,437,513; Saturday, 1,210,530; Monday, 910,370; total, 7,221,707. This shows an increase of 1,081,552 pounds over the shipments of 6,158,153 pounds for the previous week. Since January 1 the total shipments amount to 161,114,028 pounds
