Coxe of the Washington, (Ia.,) commandery delivered the ritual exhortation. This was followed by prayers, the gloria and tedeum laudamus and the reading of bible passages. After the "Coronation" hymn Grand Prelate Coxe delivered his sermon, his text being, "What Think Ye of

Climas in Decorative Effects. A climax to the decorative effects has been reached in the quadruple electric arch at Fourth avenue and Broadway and it the court of honor in front of the Jefferson county courthouse on Jefferson street, between Fifth and Sixth. The magnificence of the former structure was not realized its 5,000 incandescent lamps were lighted tonight. Four massive plers carry the structure upward from the four corners of the sidewalks. Heroic figures of standing knights and armored crusaders, on steeds of war, guard the approaches. Delicately wrought Templar emblems are displayed on the four faces of the structure in heavy relief, made still bolder by the countiess lights that outline them. The massive dome that arches above the intersection of the two streets is surmounted by a cross and crown-one of the most striking of the Templar em-The crown is twenty-five feet in diameter and is jeweled in golden lights. The cross is twenty-two feet high and literally covered with scarlet lamps. From the ground to the tip of the cross is a distance of eighty-nine feet. An electrical mechanism makes the cross and crown revolve, thus causing the entire structure to present a simaler appearance from each of its four

In the court of honor twenty-six pillars, each thirty feet high, line the side of the street in front of the courthouse and lead on one side up the monster balustrades that run from the sidewalk to the entrance of the building. The bases of the pillars are nine and a half feet high and surmounted around the bottom of the columns by petted plants. On an urn on the top of each column grows a Boston palm eight feet high. Garlands of flowers and green, three strands in all, connect the pillars on the south side of the street and on the north side, where the courthouse is situated, follow from the piers that line the street up to the columns connecting with the front of the building. Tonight the scene is intensified in beauty

The courthouse is a building of stern lonic architecture and its front is outlined in rows of incandescent lamps. Across Sixth street the city hall is a palace of light, every angle and outline of the big building being traced in rows of lights of different colors, Similar decorative effects are witnessed on the exterior of the custom house, where the grand commandery of Kentucky will open headquarters Monday night.

GOVERNOR TAFT EXPECTED IN MANILA

Four Companies of Infantry Will Be Added to Thousand Soldiers Now in the City-Fear Possible Uprising.

MANILA, Aug. 25 .- Word was received today that the insurgent colonel, Loreel, with seventeen officers and thirteen men surrendered yesterday to Captain Brown of the Fourth infantry at Talisay. The surrender of numerous other smaller contingents last week brings the total to more than 100.

Governor Taft is expected to return to Manila Tuesday, after having appointed civil officers throughout northern Luzon. In the city of Mantla there are now less than 1,000 effective soldlers, and it has been decided to increase this number by four companies of infantry. The official reason for the increase is that the guard duty is too heavy for the present force. As a matter of fact, however, there is a feeling that although there is no apparent prospect of trouble, nevertheless in the event of an uprising in the future such as is always possible among the Malays, it would be better to have a sufficient body of troops available.

General Chaffee says he considers the city of Manila to be perfectly orderly and he can see no prospect of an uprising. Commissioner Wright thinks the people extremely peaceable." He is satisfied, that although among a certain class there is some discontent, on account of the land tax which is not yet understood, this class is not likely to fement trouble.

Many army officers say they are gratified at the increase in the military force. They think that with the military guard with drawn from the prison, another uprising there might result in the release of about 1,800 prisoners. This possibility is regarded as a menace to the city by those who take that view of the case, as they regard the white guard as insufficient.

Civil officials look upon this contingency as unlikely, inasmuch as the 600 white police could mobilize at the prison before any, of the prisoners could escape and become dis persed throughout the disaffected district.

Miss Hall claims to hail from a wealthy met Drummond she was filling a role at a theater much against the wishes of her relatives. She is 24 years of age and a handsome brunette.

"I met Mr. Drummond in San Francisco," Miss Hall told the police. "At the time was playing at a local theater. He was handsome and appeared to be devoted to me. Every night he was at the theater with flowers. I became infatuated with him and he induced me to elope with him to Chicago.

"We arrived here August 3 and on August 5 he disappeared with my diamonds. We were then stopping at the Palmer house. I did not know what to think of his absence and I consulted friends. They told me to place the case in the hands of the Mooney & Boland detective agency. They worked on the case for ten days and then

decided to notify the Chicago police. "Mr. Drummond told me he was traveling salesman for a wine house in Boston. He had several thousand dollars with him when he came to Chicago. I can tell of no reason why he took my jewels unless he was a professional confidence man."

In the course of their investigation the Mooney & Boland agency traced Drummond to Pittsburg and from there to New York. After hearing the woman's story Captain Colleran telegraphed those cities and Boston in hopes the castern police might find Drummond and return him to Chicago.
