

MAY BUILD WESTERN LINE

Postal Telegraph Company Negotiates for Right of Way on Union Pacific

WANTS TO RUN FROM OMAHA TO OGDEN

Application for Permission to Construct is Filed in the Office of General Solicitor Kelly of the Overland Route.

Upon the result of a conference held at Union Pacific headquarters last Saturday depends the fate of the telegraph line which the Postal Telegraph-Cable company desires to build from Omaha to Ogden.

General Counsel McIninch of the telegraph-cable company was at headquarters to make application for permission to use the Overland's right of way for the new line.

He conferred with General Solicitor Kelly, but did not see President Burt, as he was out of the city.

It is understood, of course, that the Union Pacific will refuse to grant the permission. It will be compelled to do so by reason of its ironclad contract with the Western Union Telegraph company, even though the Union Pacific is favorably disposed toward the Postal.

When a permission is formally refused, as it will be at no distant date, the Postal's attorneys will bring suit in the federal courts to compel the Union Pacific to grant its request for the use of the right of way.

The Omaha-San Francisco line was first projected over two years ago. At that time such progress was made in the preliminary work that managers were selected for the more important offices and the promise made that the Omaha-Ogden line would be ready for use in sixty days from the time construction started.

Now the project has been revived and the Postal is determined to build through to the coast, no matter what it may cost.

The Union Pacific land department announced the purchase yesterday of 2,500 acres of grazing land in Wallace county, Kansas, by Lyman S. Curry of Marceline, Mo.

The Illinois Central, Burlington, Northwestern, Rock Island and Eastern Illinois systems all employ expert electrical and mechanical engineers, who are devoting the greater part of their time to electricity, with the object of applying it to the suburban service of the railroads as a substitute for steam.

months ending June 30 showed an increase of \$1,235, and the increase in expenses amounted to \$2,191,879.

TALK OF BURLINGTON CHANGES

Reported Project to Consolidate Its Various Lines.

It is understood in Chicago railroad circles that one of the plans being considered by the new controlling interests of the Burlington system is the consolidation of the lines of that company with those of the B. & M. The so-called "Burlington route" consists of the following lines: Chicago, Burlington & Quincy, B. & M., Burlington & Northwestern, Burlington & Western, Burlington & Kansas City, Burlington & Northern, Burlington & Quincy, Hannibal & St. Joseph, Kansas City & St. Joseph and St. Louis, Keokuk & Northwestern. Several of the above lines have during the past year or two been absorbed by the Burlington company proper, but others still maintain their individuality and are operated independently.

The B. & M. with headquarters in Omaha, comprises a majority of all the tracks of the system west of the Missouri river and the lines operated west and northwest from St. Louis. This system is still operated with an independent staff of officers, except the president. It has a general manager, general superintendent and general freight and passenger agents.

Surveyors Excite Comment. The Loup country is all stirred up over the appearance of what is said to be a Burlington surveying outfit at Burwell. The land hill people see in this a determination on the part of the Burlington to extend the branch from Aurora which ends at Burwell out to the Loup valley.

It was said at Burlington headquarters this morning that nothing was known of the matter there. Surveys have been made in past years for various extensions in the Loup country, but there is no present intention of building.

Rates to Cleveland. Railroads are preparing for the thirty-fifth annual encampment of the Grand Army of the Republic, to be held at Cleveland, O., September 10-14. The Burlington has issued a neat folder, giving details of its train service and rates and much other valuable information. It has made a rate of \$21.60 from Omaha for the round trip.

Rates for Ak-Sar-Ben. Ak-Sar-Ben rates of one fare for the round trip from all points in Nebraska within 200 miles of Omaha have been adopted by the Nebraska lines. The rates for the Iowa lines have not been settled, but will probably be higher. These special rate tickets will be on sale September 17 to 20, good for return until September 23.

Railway Brevities. The Union Pacific land department announced the purchase yesterday of 2,500 acres of grazing land in Wallace county, Kansas, by Lyman S. Curry of Marceline, Mo.

The Illinois Central, Burlington, Northwestern, Rock Island and Eastern Illinois systems all employ expert electrical and mechanical engineers, who are devoting the greater part of their time to electricity, with the object of applying it to the suburban service of the railroads as a substitute for steam.

REPAIR SIXTEENTH STREET

Board of Public Works Anxious to Proceed with the Work.

WANTS SPECIAL ORDER FROM COUNCIL

If Mayor Moore Approves Resolution Adopted Tuesday Motion is Asphalt Paving Will be Filled and Charged to General Fund.

Unless the mayor vetoes the resolution adopted by the council Tuesday, directing the Board of Public Works to cause the asphalt streets to be repaired, the 291 holes in the pavement in the street between Douglas and Izard streets, will probably be filled up and the cost paid out of the general fund.

A contract for the repair of this strip of pavement was recently let to the Great Paving company, but its performance was stopped by proceedings brought by Charles Karbach in the district court. Judge Estelle granted a temporary injunction restraining the work on the ground that the city controller had not certified to the Board of Public Works that there were sufficient funds available to pay for it.

It is said that the controller is now ready to certify that funds are available for the work and it will be done at once unless the mayor vetoes the resolution of the council.

The members of the Board of Public Works believe they have the authority to go ahead and repair the streets without any specific direction from the city council and the mayor, but they hesitate to proceed with the work on Sixteenth street without such particular direction, because of the known opposition of the mayor to the work being done as repairs.

Mayor Moore could not be seen this morning and it is not known whether he will veto the resolution, but it is generally thought that he will.

Ask your druggist or glove dealer about Re-No-May powder. A great economy in hot weather. Cures excessive perspiration—saves gloves, parasols and fine dress goods. No dross shells needed if you use it.
