the clixir of life. That he is able with the sid of a mysterious compound, known only to himself, produced as a result of the years he has spent in searching for this precious life-giving boon, to cure any and every disease that is known to the human body. There is no doubt of the doctor's earnestness in making his claim and the remarkable cures that he is daily effecting seems to bear him out very strongly. His theory which he advances is one of reason and based on sound experience in a medical practice of many years. It costs nothing to try his remarkable "Elixir of Life," as he calls it, for he sends it free, to anyone who is a sufferer, in sufficient quantities to convince of its ability to cure, so there is absolutely no risk to run. Some of the cures cited are very remarkable, and but for reliable witnesses would hardly be credited. The lame have thrown away crutches and walked about after two or three trials of the remedy. The sick, given up by home doctors, have been restored to their families and friends in perfect health. Rheumatism, neuralgia, stomach, heart, liver, kidney, blood and skin diseases and bladder troubles disappear as by magic, Headaches, backaches, nervousness, fevers, consumption, coughs, colds, asthma, catarrh, bronchitis and all affections of the throat, lungs or any vital organs are easily overcome in a space of time that is simply marvelous.

Day Is Crowded with Events that Bring Strike Nearer to a Climax.

Pittsburg Labor Paper Accuses Him of Having Abused His Power-Parade at McKeesport Proves a Fizzle.

PITTSBURG, Aug. 31.-While there is no sctual change in the steel strike situation. much has transpired calculated to produ e results in the near future. The conference etween the committee from Milwaukee and he Amalgamated officials, the continued efforts of President Burns of the Window Glass Workers' association, to bring about arbitration or conciliation, the scathing edtorial in the Labor World, calling for the mpeachment of President Shaffer, the march of the strikers of McKeesport to Duquesne and the decided effect of the injunction proceedings at Canal Dover, O., cl. indicate that the crisis is approaching and

The details of the conference of the Milwankee committee and the Amalgamated officials have not yet been divulged, but the fact that the committee is here at all, would indicate that the Bay View strikers are uneasy, J. D. Hickey and C. F. Cooper of the committee have been here since Monday. The general belief is that the main object of the committee's visit is to arrange some compromise by which the Bay View plant may resume. President Shaffer, on the contrary, says the two men did not come here as representatives of the Bay View lodge. They are simply here, he says, is individual members of the Amalgamated association to explain in person the reason for their action in regard to the general strike order and the reversal of that declsion after Tighe's visit to Milwaukee.

The lodge did not send them, nor did to go to work," said President Shaffer.

Bay View to Act.

The two gentlemen left for home tonight and it is said a meeting of their lodge will be held upon their return to take action on their report. What that report will be cannot be learned here. Notwithstanding the report from New York that no conference has been held or arranged for between C. M. Schwab and Simon Burns looking to arbitration, the latter has not relaxed his efforts in this direction. "I am interested in this matter," said President Burns tonight, "as the big strike is affecting all lines of business, including the window glass trade. My purpose is to get the two sides together and start the mills. If President Schwab is still opposed to my plan of arbitration I will request him to suggest whatever modifications he desires, providing the steel corporation will arbitrate.

The editorial in the recent issue of the Labor World, the mouthpiece of the Pittsourg district of the Mine Workers' union and the Pattern Makers' association, is a long and bitter attack on President Shaffer and demands his impeachment for calling the present strike. The demand for the impeachment is made because it is charged Shaffer compelled the steel workers to vio late contracts, because he expelled the Chicago men and revoked their charter without constitutional hearing and because the whole strike is unconstitutional and has brought ruin and wreck to men who have made the Amalgamated association. The editorial gives twenty-four reasons why President Shaffer should be impeached.

Gives the Paper Standing.

The fact that George Powell, president of the Tinplate Workers' Protective association of America, L. R. Thomas, president of the Pattern Makers' league, and Patrick Dolan, president of the United Mine Workers, of the Pittsburg district, constitute the board of control of the publication, and that President Shaffer, up to within a year ago was a member of the board, would seem to lend considerable weight to the utterances of the paper.

When shown the editorial tonight Mr Shaffer said: "Mr. Powell of the Tin Workers' association was at headquarters today and I have understood that the paper mentioned does not represent his organization, the article mentioned is below my notice and I shall not advertise the paper by commenting on it.

The march of the McKeesport strikers to Duquesne today was a disappointment to the strikers, partly because of the heavy

STEEL SARIKERS STIRRED UP rain during the parade and the meeting in an open lot and partly because of a lack of enthusiasm. It was expected that at least 5,000 of the 12,000 strikers would participate n the march, but by actual count there were 553 in line. The rain came down in torrents from the time the parade started until they returned to McKeesport. The men marched without any cheering or noisy SHAFFER'S IMPEACHMENT IS DEMANDED demonstration and no trouble of any kind SERIOUSLY BURNED BY KEROSENE developed. It was expected a halt would be made at the Duquesne mill gate, but none was made. Several mill men came out of the plant with their dinner buckets in their arms, but were not stopped. There was no strike talk heard at the Duquesne mill and the men did not manifest the interest expected.

No More Pickets.

The injunction granted the American Sheet Steel company at Canal Dover, over the strikers has had the effect of doing away with all picketing about the mill. The withdrawal of the pickets was on the advice of the local counsel, who advised this course until the counsel of the association at Pittsburg should make known what course to pursue in the future. United States marshals have served almost all of the 900 strikers with the order.

President Shaffer today sent circulars to all lodges of the association reviewing the strike situation, which he says is in good He cautions all members against that an important change in affairs is not the South Chicago men who refused to obey the strike order, denominates them nonunion and declares their cards void.

Great preparations have been made here for Labor day, Monday next. A grand rally of allied trades and labor unions of western Pennsylvania is to be held at Ross Grove, at which Shaffer, Dolan, Burns and Churchill are advertised to tell the story of the strike. The rally will be under the auspices of the Amalgamated association. A parade of immense proportions is scheduled for this city on that day, the big majority of the trades unions having arranged to participate.

The first break in the strike at Mc-Keesport was made this evening when about forty men went to work in the seamless tube department of the National Tube works. The men returned on the same basis they worked before the sympathtic strike was inaugurated. The men did not send to me any request to be allowed organize, although they met with Federation of Labor men a number of times. It is thought many more will report tomorrow norning. The men were not molested, as their return was a surprise to the strike jubilant over the break at the seamless and the outcome of today's parade to Duquesne.

SAYS WHY SHAFFER SHOULD GO sons Which It Considers as Sufficient.

PITTSBURG, Aug. 31.-The Labor World's editorial that so stirred the steel men today is a long one, entitled, "Sacrifice Shaffer, Save the Amalgamated!" It says:

Save the Amalgamated!" It says:

Is the Amalgamated Association of Iron, Steel and Tin Workers to be sent to slaughter in a lost fight and sacrificed on the altar of the mad and selfish ambition of this creature Shaffer? This is no time for sentiment. It is a time for facts and plain speaking. The fight against the steel trust is lost, but no order comes from Amalgamated headquarters, where Shaffer cowers, to spare the brave men at the front. Leaders of organized labor, lorbid it in the name of the cause you hold dear, but which is menaced as long as Shaffer-ism is allowed to live. Forbid it in the name of labor's honer and honesty, which Shaffer's acts have impugned. Shaffer's acts have impugned.

Then follows an intimation of an accusaion of stock dealing that Mr. Shaffer has repeatedly denied. The editorial continues: Impeach him for plunging the Amalga-mated into a strike that was unwarranted! Impeach him for calling out the men last month without giving the subordinate lodges a chance to vote on the question of a strike!

For Injuring All Unionism.

Impeach him for the blow he has given to organized labor, not only in teaching that union agreements are not contracts to be respected, but showing that constitutional safeguards are no guaranty to a unionist when Shaffer is at the head of things!

Impeach him for causing the manufac-turers to say that labor unions must be incorporated, that their pledged word is of no value! no value!

Impeach him for making it impossible by his breaches of contract and repudiation of agreements for organized labor to end practical support to the men held out!

Most of the prominent labor leaders of lend practical support to the men held out! Most of the prominent labor leaders of the country are on record against breach of contract. Shaffer has made it necessary for them to appear to be on the side of the trust in this strike. Impeach him for issuing his second strike call without consulting anyone when he was framing it.

Impeach Shaffer for making this his strike. He was going to get all the glory and the Amalgamated association was going to get all the scars. On his own responsibility he signed that New York agreement and when he repudiated it the odium was incurred by the organization Only Shaffer's name was signed to the second strike call.

Impeach him for going into this strike without funds or the prospect of funds to support it! Strike benefits begin next week and he has not enough money to last three weeks if every striker gets his due. Impeach him for not accepting the Hotel Lincoln propositions of the trust, which gave him four more sheet plants than the Amalgamated association had last year.

For Advising Deposit Withdrawals.

For Advising Deposit Withdrawals. For Advising Deposit Withdrawals. Impeach him for his crazy advice to the workmen of the country to draw money out of the savings banks.

Impeach him for setting the Federation tube workers to strike and then leaving them up in the air.

Impeach him for having no other weapon to fight the trust than the effect he expected the strike to have on the irust stocks in Wall street.

Impeach him for holding out assurances that organized labor would support the strike when he had been informed by labor leaders that they could do little or nothing for the strike without jeopardizing their own reputations and the good standing of their unions.

their unions.

Impeach him, finally, for having involved the Amaigamated association in a tangle of broken contracts and repudiated agreements, which will work it long injury, and tying up the organization in a hardest examples. hopeless, groundless strike and for pre-ferring to humiliate the Amalgamated as-sociation rather than himself, now that he can find no other way out of the diffi-culty than surrender.

Since Shaffer will not sacrifice himself he must be sacrificed. The Amaigama ed association must be saved and Shaffer am go. Sacrifics Shaffer and save the Amaicamated association

Omaha Dive.

A little boy 8 years old, crippled by accident and neglect and stunted by disea e, arrived in Omaha Friday night from his wretched home in Plattsmouth, and is now a patient at the St. Joseph hospital. The story of his brief life is like one of Victor Hugo's word-pictures of the slums of Pa:1:. Seven weeks ago, in the squalid cellar that the union printers of Omaha are that he called home, he upset a kerosene can and drenched his clothing with the oil. was burned to a crisp. His sodden father not express sympathy with the movement. and mother lay upon the earth floor un-

The neighbors extinguished the flames, gave the burns a temporary dressing and called a doctor. By this time the father had revived from his drunken stupor. He drove the neighbors from the house, and when the doctor came would not admit him. For nearly seven weeks the child lay suffering amid filth and vermin until gangrene set in, and the stench that arose from his poor, wracked body caused the neighbors to complain to the county authorities. Meanwhile the Nebraska Children's Home society, with headquarters in Omaha, had heard of the case, and Mrs. Ella R. Towle, the district superintendent, was sent there to make an investigation.

#### Little Girl in Bad Company.

In addition to the cruelty to the boy, she learned of another case in this same family which called for the attention of the society-that of the boy's 11-year-old sister who is now said to be an inmate of a disleaders. The tube works officials are orderly house in Omaha, and has been for several months. Sheriff Power is now searching for this child.

"It is the most pitiful case of my experience," said Mrs. Towle. "The family consists of a father and mother, both past middle life, who are slaves to the liquor habit; two sons somewhat less than 20 years of age, I should think, who have grown up in ignorance and petty crime; and finally, these two younger children, little Mary and Charlie. The father's name is Charles Finder He works as a porter in a saloon, where he gets 25 cents a day and his drinks. The mother takes in washing when she can get it to do and when she is sober enough to do it. They occupy the cellar of a tumbledown shack close to the river and about three-quarters of a mile outside of the bus iness part of town. There are two rooms; one has the bare earth for a floor and the other has a few planks laid down to walk upon. They are almost entirely bare of furniture, everything of value apparently having been pawned ..

"The day I arrived the little boy lay upon a feather bedtick, which was alive with vermin of various kinds and recking with filth. The stench that arose when I undertook to remove the bandages from his leg almost overpowered me.

"I had a talk with the county physician He said the case had been called to his attention and that he had called every day for a week, but when he found that the a strike!

Impeach him for making demands that were so arbitrary and imperative that the trust could not with honor submit!

Impeach him for calling a strike on demands that he afterward receded from!

Impeach him for calling out the timplate men in July and the National Steel and Pederal Steel men this month, after their scales had been signed!

Impeach him for violating the Amaigamated constitution in revoking the charters of the South Chicago men without a trial!

Sheriff Empowered to Search.

"I secured an order of court appointing the society as guardian for both children and directing the sheriff of Douglas county to make a search for the girl and turn her over to us. When the sheriff of Cass county went down to that wretched hovel to serve the papers he found the conditions to be much the same as when the neighbors called on the occasion of the fire. Both father and mother were drunk the father stretched out upon the ground floor and the mother lying in a stupor across the feather bedtick, while the poor little sufferer was crawling in the slime in a hopeless quest for a crust to eat. He could move only by crawling on his elbows and dragging his legs.

"I tried to get the father to tell me where

Labor unions must exercise some degree of common sense, and it is poor policy to antagonize the business men of a community who are regular employers of labor. These men have it in their power to take from the city a large part of the business by which our people live. We are at this time making an active campaign in favor of patronizing home printing offices, and while the Knights of Ak-Sar-Ben or its committee have sent some of its work from the city, we believe in treating them in the proper spirit. Relative to Presidential Aspirations.

Governor Leslie M. Shaw of Iowa passed through Omaha yesterday morning on his way from Hastings, where he had addressed the state encampment of the Grand Army of the Republic, to his home at Des Moines, He made a brief stop at the station and did not come uptown. In regard to the announcement of his candidacy for the presidency made by Senator Dolliver yesterday, the governor said: "To use the language of Dolliver, it is too soon to make formal announcements, and between now and the time the nominations are made there is much opportunity for changes." Governor Shaw refused, however, to say

that he was giving the matter serious consideration, preferring to wait until later to give his decision.

He concluded the interview by saying that at this time it is the duty of Iowa republicans to let national affairs take care of themselves and to roll up a big majority for the candidates for state offices, making good the claim of the state to being the banner republican commonwealth of the northwest.
