

Kodol Digests what you Eat Dyspepsia Cure

The most certain way of curing indigestion and stomach troubles is to perform the stomach's work for it by using KODOL TROUSERS CURE, which digests what you eat and gives the stomach perfect rest. It contains all the natural digestants combined in exact proportions, together with the organic substances required for reconstructing the worn out digestive organs. That is why it has never failed to cure the worst cases of indigestion and dyspepsia even after all other methods and preparations have failed. The most sensitive stomach can take it.

It can't help but do you good

Prepared by E. C. DeWitt & Co., Chicago. The 24 bottle contains 24 times the dose. When you need a soothing and healing application for piles, sores and skin diseases, use DeWitt's Witch Hazel SALVE. Beware of counterfeits.

WOMAN AND GREAT FRAUD

Former is Accused of Attempting the Latter in London.

MISS EASTWICK OF PHILADELPHIA THE ONE

Tampered with Stock Certificate Until It is Made to Represent Many Times Its Value, and is Her Name.

LONDON, Sept. 2.—Mary Josephine Eastwick of Philadelphia was arraigned in Old Bailey police court today, charged with having forged a railway stock certificate of the value of £100,000. Sensational evidence was presented.

The defendant was accompanied with a visit and sat the whole time intently in the dock.

The public prosecutor said the defendant had been residing in England for eighteen months and was believed to be an American of wealth. She had been living with persons, said to be her father and sister, at the Metropole, London, and had been coming through England and living generally in the most expensive manner.

Later she had removed to Hampstead for the benefit of her health. She obtained an introduction to Mr. Beeton, a member of the stock exchange, to whom the defendant represented herself to be the owner of securities worth, roughly, £500,000. She said she wanted to buy 1,000 shares of United States Steel corporation at a speculation. This operation required £1,000, which, the defendant said, she did not have, but as she wanted to invest immediately, she told Mr. Beeton she had called to a trust company in Philadelphia to break open her strong box and forward the money by mail. She added that the trust company had refused to do so until they had possession of her key.

Begin Manipulating Shares.

The defendant on August 12 went to the Charing Cross branch of the Credit Lyonnais and asked the manager to buy two shares of Canadian Pacific railroad. The manager took the order, but afterward found it difficult to get so small a number of shares, and wrote to the defendant at the Red Lion hotel, Hentley, asking if he would be allowed to get five or ten shares. As a result five shares were bought on August 15 and the defendant duly sent her check. She wrote Mr. Beeton August 18 from Stratford-on-Avon, saying she expected 1,000 Canadian Pacific shares from New York and wanted a loan on them, as she was desirous of buying more United States Steel shares. Mr. Beeton replied that he did not think there would be any difficulty in raising a loan on such security. She received a certificate for five Canadian Pacific shares August 16. The prosecutor said that by August 26 the certificate had been altered, the name of the original holder had been erased and the name of Marie Josephine Eastwick had been substituted. The word "five" in the number of shares and the numeral had all been altered so that it appeared to be a certificate for 1,000 instead of five shares. This was skillfully done, three kinds of type and ink being used, showing considerable preparation.

Stamp Too Small.

The only mistake was that the document bore a shilling revenue stamp instead of one for £10, which a certificate for 1,000 shares would carry. The defendant sent the altered document, with a letter, to Mr. Beeton August 26, asking him to buy 1,000 United States Steel shares in the firm name, also requesting a loan of £4,000, adding that she was going to be motor cars rather heavily and was about to purchase a suit farm.

The defendant wired Mr. Beeton from Buxton August 28, asking if the certificate had arrived. In the meanwhile Mr. Beeton's clerk, on receiving the certificate, noticed the stamp irregularity and went to the Canadian Pacific railroad office, where it was pronounced to be a forgery. Mr. Beeton wired this information to the defendant, asking for an explanation. She replied: "Call me on the telephone," and then wired: "Have sent no certificate. Don't understand."

Mr. Beeton notified the police of London and a detective arrested the defendant at the Palace hotel, Buxton, Saturday afternoon. The receipt for the registered letter in which the certificate was sent was found among the defendant's effects.

The testimony of Mr. Beeton and others

was heard, generally sustaining the prosecutor's statement. The detective said the defendant told him she had practically no defense.

Claims Paternity.

The magistrate asked if the person, who was said to be her father, was present and a well dressed, somewhat distinguished looking man stood up among the seats "I do not wish to appear before this magistrate directed him to be seated. In conversation with a representative of the Associated Press the man said he was the father of Marie Eastwick, who came from Philadelphia.

The general tenor of Mr. Beeton's evidence was that the defendant impressed him as being a woman of wealth and position. She told him that while she was in Russia the czar placed a train at her disposal and that J. Pierpont Morgan had written her, advising her to buy United States Steel common, in anticipation of an immediate rise.

The defendant's father was called up by the court and consented with the greatest willingness that he and his daughter's trunk be searched and the prisoner, speaking for the first time, said:

"You are welcome to search them all."

The defendant was remanded until September 5. She will be afforded special privileges on account of the poor state of her health and will be examined by doctors. Her counsel, who was interviewed by a representative of the Associated Press, intimated that the prisoner was suffering from temporary insanity. Her father said he could not explain matters at present, but everything would come out all right.

Her Philadelphia Friends Surprised.

PHILADELPHIA, Sept. 2.—Friends of Miss Josephine Eastwick learned with surprise today the story of her trouble in London. Although she has only been an occasional visitor to Philadelphia in recent years her charming personality has despite her indifference to society, made her well known in society circles. Miss Eastwick is about 27 years of age. She is a granddaughter of the late Harrison Eastwick. Her father, Edward P. Eastwick, was formerly associated with the Haverlyers in the sugar refining business and when he retired fourteen years ago he was reputed to be a millionaire. Fond of horses, dogs and all outdoor sports, she was from the first averse to the social pretensions that her family's wealth assured her. In the course of time her spirit of independence asserted itself so strongly that at frequent intervals she was estranged from the members of her immediate family and as such times she made her home with other relatives.

Is an Inevitable Globe-Trotter.

During the last twelve years she has devoted herself to travel, making her longest stay in England. Occasionally she came to Philadelphia to visit the family of her uncle, Andrew N. Eastwick, and her aunt, Mrs. Isaac Jones. While in this country she resided at New York at her home and stayed at the Waldorf-Astoria. She made numerous visits to her brother, Spencer Eastwick, who is in the sugar business in New Orleans.

Several years ago Miss Eastwick inherited from her grandmother an interest in an estate said to be worth \$100,000. About this time she and her father became estranged. It is said, and with the capital afforded by her grandmother's legacy the young woman sought fortune as a speculator in the stock market, but with what success her friends and relatives do not know.

Later her health gave way and a reconciliation with her father followed. She was sent to a sanitarium, where she remained for several months. Upon recovering her health she again went to England and became distinguished as a whip. She did most of her coaching in Scotland and was frequently accompanied by distinguished Englishmen and Americans.

Miss Eastwick left this country about eighteen months ago, accompanied by her father and sister Hulda. She was last heard from in Scotland.

Keep the body healthy at this season by using Prickly Ash Bitters. It is a necessary condition to successfully resist malarial fevers.

Gasoline Starts Fatal Blaze.

PITTSBURGH, Sept. 2.—The destruction of the Hotel McKee, a frame structure, resulted in the death of Harry McKee, a boy, injuries to four others and the narrow escape of many more. McKee was burned to death. The injured were, Della Campbell, John M. Gray, Harry Mardis, Harry McGouever and Mary Wolosh. Miss Campbell will probably die. The fire was caused by the explosion of a gasoline stove, which Miss Campbell attempted to light. The injured were all employees.

New School House.

Work is progressing rapidly on the new school house being erected in the Fourth ward. While the structure is to be of frame, it is substantial and will answer the purpose for years to come. At the outset the contractor expected to consume sixty days in the construction, but owing to the need of the building arrangements have been made to hasten the work and the chances are that the school will be ready for occupancy in not over thirty days. The building, aside from interior furnishings, is to cost \$18,500.

Viaduct Repairs.

The repairs being made by the Union Stock Yards company to the L street viaduct are nearing completion. When completed, it is stated, this bridge will be in shape to stand the usual wear and tear for a number of years. By cutting off the west approach and laying a stone pavement up to the spans the bridge has been shortened and this will do away with the rickety wooden structure which formerly formed the west approach. In order to meet the stone pavement on the west, the bridge west of the spans has been lowered, and now plankings four inches square is being laid as a flooring. It is expected that the viaduct will be open to travel within the next week or ten days.

Democratic Politics.

And now it is reported that Dick O'Keefe has beat Hector to it and secured the endorsement of the Germans. For several days past O'Keefe has been seen lurking around the headquarters of the German American Democratic club and yesterday the information was given out that he had secured the support of the Germans in his race for county commissioner.

Anti-Saloon League.

The Anti-Saloon league of South Omaha will request some reforms from Mayor Kelly. It is asserted that the league wants saloonkeepers to stop selling liquor to minors. Another point is the removal of

AFFAIRS AT SOUTH OMAHA

Indications Are that Feeder Cattle Are Going to Be Scarce.

OPINIONS OF DEALERS IN STOCK

Rumor from the East to the Effect that Hammond Plant is to Be Overhauled and Greatly Improved.

Magie City News in General.

"Feeder cattle will be a scarce article on the South Omaha market this fall," said a well-known commission man yesterday. Continuing he said: "The territory tributary to this market—Upper South Dakota, Nebraska—has grown an exceptional crop of grasses on the range. In fact the feed has never been better in twenty years. On account of the shortage of corn in Nebraska and Kansas the stock raisers have decided to keep their feeder stuff at home. There is no need for them to bring young stock to market at this time because the grass is well-cured and moist if not all of the stock growers who do business at this market are in a prosperous financial condition. My advice from the ranges are that growers will ship three and four-year old stuff and dry fat cows this fall, but no feeders will be sent to the market. There is no need for them to bring young stock to market at this time because the grass is well-cured and moist if not all of the stock growers who do business at this market are in a prosperous financial condition. My advice from the ranges are that growers will ship three and four-year old stuff and dry fat cows this fall, but no feeders will be sent to the market.
