STICENEY MEANS BUSINESS tween Murray and Creaton, the latter point being 107 miles from Omaha.

No Lenger Any Donbt that Chicago Great Western is Coming to Omaha.

PROPOSED CHANGES ON THE MAP

President of Independent System is Doing Things that Set the Other Magnates to Talking-Negotiations with Senator Clark,

There is no longer a doubt that the Chicago Great Western will build into Omaha next year. A Chicago dispatch announces that President Stickney has succeeded in forming a syndicate to underwrite an issue of \$5,000,000 Chicago Great Western debenture bonds to provide funds for the building of the proposed extensions to Omaha and Sloux City.

The surveys have all been completed and construction is to be commenced in the spring, though some preliminary grading done this fall. The first work of this kind will be done this week by Katz & Callahan, the contractors, through th city of Fort Dodge and to the new bridge over the Des Moines river.

President Stickney is credited with the determination of changing the railroad map of the middle west within the next year or two, not only by the building of the Omaha and Sloux City extensions, but also by the construction and purchase of new lines in lowa and surrounding states. A move in this direction is the recent purchase of the Winona & Western road, which will be taken over October 1. The road runs from Winona, Minn., to Osage, Ia., crossing the Great Western's main track at McIntire Ia. It is 113 miles long and will prove a

A dispatch from New York says that President Stickney was represented at an important conference held there between Senator Clark on the one hand and Messrs. Harriman, Gould and Hill on the other regarding the building of Senator Clark's new road from Los Angeles to Salt Lake City and the proposed extension of the Burlington to the latter city. It is said that President Stickney will extend the Great Western into Utah or else form a close traffic arrangement with the Burlington at Omaha and through it with Senator Clark's road. It is reported on good authority that President Stickney made a contract with Mr. Clark to enter into such relations in case the two projects are car-

OFFICE IS CREATED

Pacific Roads Unite in Appointing

Mail Superintendent. The management of the Union Pacific and Southern Pacific has created a new office. that of superintendent of mail contracts. and has offered the position to Herbert P. Thrall, now superintendent of the eighth division of the railway mail service. The report comes from reliable San Francisco sources, but as Presider: Burt is in the east it could not be confirmed at Union Pacific headquarters this morning.

The position is a new one for these lines, but other railways have such an official. The Santa Fe has J. W. Lindsay to care for its mail business. J. Lowrie Bell, formerly general superintendent of the railway mail service and afterward First Assistant postmaster general of the United States, is similarly engaged with easters railways. The Southern Pacific and Union Pacific have seen that they must place themselves upon an equality with all pos-

The duties that the transportation lines call upon their mail superintendent to perform include the designing, building and does not fit up cars for the mail service. work at a fixed rate per foot for the neces sary equipment. This service requires expert knowledge, for the conditions vary materially on main lines and on branch lines. The railroads' representative, caring for their mail interests, has still more arduous service in connection with the negotiations with the government, which he must conduct. He must provide for the weighing of the mails that pass over the lines that he represents. There is a great amount of detail in this connection and in the other work

to be performed. The offer of the railways carries with it a salary very much larger than the one that Mr. Thrall receives from the government, being more than double. His present salary is only \$2,700 per annum, while the railroad companies are prepared to pay \$7,000 per annum for his services. No one could possibly fill the requirements of the roads without expert and intimate knowledge of a vast amount of detail, which it would be impossible for an outsider to acquire in any reasonable length of time.

PASSENGER ASSOCIATION MEETS

Omaha Railroads Are to Be Well Represented.

The Western Passenger association will meet Thursday of this week at Chicago. While there are many routine matters to be disposed of, perhaps the most important result of the meeting will be the harmonizing of differences among the members of the Transcontinental Passenger association regarding the location of its headquarters.

Leading western passenger officials are almost unanimously of the opinion that the Western and Transcontinental associations should be consolidated, says a Chicago dispatch. It is more expensive to maintain two associations than one and it is urged that all questions concerning transcontinental traffic could be handle! more expeditiously by a special committee of the Western Passenger association than is possible at present with the headquarters of the Transcontinental association located at Denver.

The Union Pacific will be represented at the meeting by E. L. Lomax, general passenger agent, who is now in Chicago, and Gerrit Fort, assistant general passenger agent, who will go tonight. J. Francis, general passenger agent of the Burlington will be in attendance in the interests of his road. General Passenger Agent Buchanan will leave tonight for Chicago to represent the Elkhorp.

CRUSADE FOR DOUBLE TRACKS.

General Improvement in Chicago-Missourt River Lines.

Double tracking of several of the leading Chicago-Missouri river lines is approaching completion. Work of this kind is now progressing through Iowa, a good distance bayond the Miseissippi river. The road most advanced is the Chicago & Northwestern, which has a double track as far west as Maple River Junction, Ia. Twenty-four miles of additional second track soon to be put into service will leave a gap of only forty-three miles of single track between Denison and Missouri Valley in the whole distance of 490 miles between Chlesgo and

Council Bluffs. On the Chicago, Burlington & Quincy railroad the double track crossed the M.s. sissippi river two years ago and extends to Batavia, 268 miles west of Chicago and sixty-two miles west of the Mississippi river. Work on the construction of a new second track is progressing as iar west as Red Oak, with a break of ninety-two miles of single track between Ottumwa and sturray. It is expected to have a new second track completed for operation this year be-

ratiroad double track is being operated as far west as West Liberty, Ia., 221 miles from Chicago, thirty-nine miles from the Mississippi river at Davenport, and 282

miles from Omaha. The Chicago, Milwaukee & St. Paul railway has a double track road in operation to the Mississippi river at Savannah, Ill., and with some breaks there is double track miles from Omaha.

Rearrangement of Territory.

A. S. Dodge, freight traffic manager of the Frisco system, has just issued his first general order. It rearranges the territory of the general and traveling agents, including that of E. F. Serviss, commercial agent, with headquarters in Omaha. His territory now includes North and South Dakota, Minnesota, Iowa, Nebraska and that part of Missouri north of the Hannibal & St. Joseph railroad, exclusive of St. Joseph. St. Paul, Minneapolis, Duluth and Mississippi river points. It is probable that Mr. Serviss will be given a traveling freight agent to help cover this large territory.

WOMEN DISCUSS THEIR WORK

First Fall Meeting of Christian Assoclation is Held in Y. M.

C. A. Parlors.

The first fall meeting of the Woman's Christian association was held yesterday morning in the parlors of the Young Men's Christian association, Mrs. George Tilden presiding, and while the attendance was to Marion, Ia., ninety miles further, or 262 not large, it included the majority of the members now in town and the work was taken up enthusiastically. This is the first meeting since June, the work of conducting the Old Ladies' home having been carried on during the summer by committees, working under the direction of the board, which has met monthly.

Owing to the general advance in the prices of provisions the expense of maintaining the home has been nearly doubled for the past three months. There was an earnest consultation as to how this expense might be reduced by the substitution of less expensive but equally nourishing and palatable food for the aged inmates. Mrs. Tilden gave an interesting account of a recent interview with the president of National Association of Woman's Christian associations, in which she told of the assistance received by the organizations in the majority of cities by the fashionable women throwing open their homes for entertainments for their benefit. This has rarely been done in Omaha, the Old Ladies' home having been maintained enmembers and their friends. The next meeting will be held on Tuesday

morning, October 1. No Relief for 20 Years.

"I had bronchitis for twenty years," said Mrs. Minerva Smith of Danville, Ill., "and never got relief until I used Foley's Honey and Tar, which is a sure cure for throat and lung diseases."

Announcements of the Theaters. It requires eighty-seven of the best voiced and nost vivacious players on the lyric stage to fill the requirements of the 'Floredora' score and librette. Composer Leslie Stuart and Librettist Owen Hall created a work which has not only made them rich and famous, but one which will live after them. They are among the men

of mark in the musical world today, and deserve all they are getting for the tunefulness, wit and beauty of their masterpiece, "Florodora." It comes direct to Omaha to open the regular season at the Boyd on Friday and Saturday, September 6 and 7. with a Saturday matinee included. The seat sale opened Tuesday morning and while it was an utusually large one there are plenty of choice seats for each perform -Low Rates to Cleveland, O.

omplaints Made to the Police About Turkish Bath Establishment on Fourteenth Street.

H. Smith, H. Morrison and F. H. Pike, all guests of the Merchants' hotel, appeared at the police station yesterday to file complaints against the proprietor and various 'rubbers" of the H. Clements Turkish bath parlors, 167 South Fourteenth street. Their grievance seemed to be that when they went into the parlors they were "dirty. and when they came out they were "clean.

"Yes," said Morrison, "they cleaned us out of most of our ready cash. When I emerged from the bath and unlocked the drawer which had been assigned me for my valuables found my purse \$20 short, and Smith's was short \$1. When we came to paying for our baths they charged us \$17.86, which was \$12.75 more than the bill. I gave the clerk a \$20 bill, and he kept it, refusing to give me any change. That made three times they 'got in' on us in about fifteen minutes. Frank Bannerman and J. A. Hanley, both rubbers, are under arrest at the station and warrants are out for others. The po
