COMMERCIAL AND FINANCIAL

Corn Leads on Board of Trade and Closes Strong and Higher.

WHEAT ADVANCES FIRM FROM OPENING

Onts Are Quiet and Steady with Small Offerings-Previsions Have Active Cash Demand and Lard Closes with Better Price.

CHICAGO, Sept. 5.—Corn was leader on the Board of Trade today and the closs was strong and higher, December closs as with a gain of lac. December wheat closed the higher, oats were 1/20%c higher, with provisions ranging from 1/2c to 15c higher at the close.

Wheat showed a strong undertone and finished firm, the strength being largely in sympathy with the better feeding in coarse grains and on bullish Argentine it w. Northwest movements showed an increase, but the quality was disappointing. The e was more disposition on the part of outsiders to buy, although trade ir m that quarter was still small. December opened unchanged to a shade lower at 1142113c to 115c, and after selling down to 11467 115c advanced to 115c 2015c, closing a shade to 71%, and after selling down to 71% and after selling down to 71% and after selling down to 71% and 71% and after selling down to 71% and 71

recepits were 211 cars, with only one of centract grade.

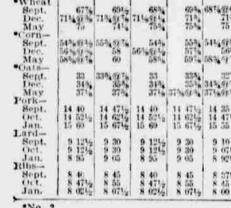

Disappointing cables caused heaviness in corn at the opening and prices were about steady. There was scarcely any corn on sale during the first hour and those who did sell early were cager to buy it back later. The bull influences were fears of frost tonight in the northwest, heavy shipments yesterday and reports or deterioration in the crop condition as compared with August. December opened unchanged to back to long the compared with his coordinates of the corn at 55% fr. Size to 56% and uncer good commission house buying and covering by shorts, there was an advance to 57% and 55%. The close was strong and like higher at 57% c. Receipts were 251 cars, with five of contract grade.

Outs were quiet and steady, with only small offerings on the market. There was a fair commission house demand, while selling was scattered and largely local. December sold between 34% c and 25% c. closing 150% higher at 35% c. Strength in corn was the main strengthening feature.

Provisions were quiet and steady, with lard leading in strength. Compara lively light stocks and an active cash deman i were the bull factors. January peek closed with a gain of 12% at \$15.67%. Lard coved

light stocks and an active cash demant were the bull factors. January pork closed with a gain of 12% at \$15.67%. Land closed 12% file higher at \$1.00 and r.bs 7% 110c. Estimated receives Estimated receipts for tomorrow: Wheat, 109 cars; corn, 365 cars; oats, 180 cars; hog.,

000 head. The leading futures ranged as follows: Articles.; Open. | High. | flow. | Close. | Yes y.

*Offered. **Trust receipts.

The Commercial Advertiser's London financial cablegram says: The stock market today, while idle, was nevertheless more cheerful. The advice of the kaiser to the suitan to come to an understanding with France caused a cessation of selling from Parts. Tintos spurted to 53% on a rise in the metal. American stocks opened above parity, but business was narrow. There was some hesitation before New York prices were received and then the market hardened, closing at the top. The favorites were Canadian stocks, Erie, Chicago Great Western, the latter on large arbitrage buying. Call and future rates are 1% per cent, owing to the transfer to the treasury of £3,500,000 on consols. The Bank of England has received £10,000 gold and has engaged £100,000 from Egypt, Stiver is duil, on New York sales. PROVISIONS—Beef, extra India mess, firm, 70s. Bank Clearings.

NEW YORK, Sept 5—The operations of professional traders, to which business on the Stock exchange is now almost whelly confined, do not make more than a superficial impression upon the market. The object of the waders is achieved if prices are moyed, whether in one direction or another. When the professionals perceive that in selling stocks they are getting in sparse company they turn with the utmost cheerfulness to the buying side as they did yesterday and for a time this morning, and when the buying demand shows diminishing power and there seems danger of becoming loaded up with long stocks they begin to sell with equal alacrity, as they did this afternoon. The news from day to day may continue much the same without effect on the nature of the narrow fluctuations in such a market.

As a background to the market, lie the strong general conditions of business, the prospect that the interruption to the properties cling to their holdings. It is the obvious policy of large capital at this time to discourage active speculation, pending the clearing of the autumn money requirements and at the same time offer effective support for praces of securities when threatened.

The principal development today was the renewal of the interior demand for currency. There was deposited \$700,000 at the subtreasury operations yielded a small balance to the banks on account of payments for gold deposited at Pacine coast points and there was further payments for gold deposited at Pacine coast points and there was further payments for gold deposited at Pacine coast points and there was further payments for gold deposited at Pacine coast points and there was further payments for gold deposited at Pacine coast points and there was further payments for market up to last night, all liss obvious that the current government surplus will render nugatory these relieving influences.

The subtreasury had in fact taken \$3,251.

The subtreasury had in fact taken \$3,251.

The subtreasury had in fact taken \$3,251. U. S. Steel

The subtreasury had in fact taken \$7,253,-600 from the market up to last night, although the movement of currency to the interior was suspended up to that time. The offerings of I nited States bonds for redemption under the terms of the secretary of the treasury have slightly increas d in the last few days, but they are insignificant as an offset to the drain on account of the government revenues. Wall street a discussing relief by some new action of the Treasury department, as is invariably the case in periods of money difficulty, but there was nothing announced to give color to the expectation. New York Mining Stocks. NEW YORK, Sept. 5.—The following are the closing quotations on mining stocks: Ontario

BOSTON, Sept. 5.—Clearings, 12.26.25.
BOSTON, Sep

The improvement in prices today carries the market to the highest point since October 24, 1892.

The close of the market today was very slow and weak, as packers were not willing to pay over \$6.25 for good hoge Selvers were holding for the morning price; so that it was a little late before everything was out of first hands. Representative

8HEEP—There were very few sheep on sale today and hardly enough to test the market. Buyers zeemed to want a few, and from the way they acted it was evident that they would have bought good stuff

Company of the control of the contro No. 55 cull ewes.....

Develop Resources of the

Country.

DEADWOOD, S. D., Sept. 5 .- (Special.)-The Mining Men's Association of the Black Hills completed its organization in this city last night. It was incorporated at the time of the Deadwood carnival. This organization takes in all the mining men of the Hills and it will be a strong factor in the development of the resources of the country. The directors are: S. W. Russell, Harris Franklin, W. S. Elder, O. U. Pryce, Deadwood; George M. Nix, Lead; J. D. Hardin, Two Bit; J. E. Pilcher, Custer; John Blatchford, Terry; Charles H. Fulton, Rapid City. The association has a strong membership to start with and many things are contemplated which will bring the Black Hills to the front.

Woman Sucs for Palse Accusation.

DEADWOOD, S. D., Sept. 5 .- (Special.) --William Goss, an employe of the Homestake company, came to this city a few nights ago and got drunk. The rules of on time when work begins. Goss hired a dector to tie up his head and made the excuse that he had been shot by a girl in one of the resorts. The girl was arrested but no wound was found. She is now suing
