The National Association of Chiefs of Police of the United States and Canada at the last annual meeting adopted a resolution inviting the heads of foreign police departments to participate in our annual discussions, and the distressing calamity which this country has received experienced through the assault by an unknown assassin confirms the belief that the import of the resolution should be impressed on foreign officials, with a view of having such of their number present at our next annual meeting as may be able to attend; this with the hope that a coser relationship may be established officially and personally and that there may be an interchange of opinions as to the best methods to be pursued to eliminate from society such organizations and persons as may be evilly disposed toward institutions of government and those charged with their conduct.

I trust the members will give this matter close and careful consideration and offer such suggestions as may aid in accomplishing the desired end and that the secretary will be suthor z d to adopt such measures as will bring about a thorough understanding with our foreign friends and to secure their presence and co-speration.

In the meantime there should be active efforts made looking to the eradication of these evils and information gathered and disseminated through the national bureau of criminal identification with a view of accomplishing such result.

Cleacat Vigilance on Anarchists as a Result of the Buffalo Crime.

PARIS, Sept. 8.-Today brings confirmstion that the Buffalo outrage has stirred the police here into action, particularly in relation to the czar's visit. The minister of the interior has telegraphed severe instructions to the several commissaries in the provinces to exercise the clessest vigilance on anarchists. Special defectives also have been dispatched to the industrial centers to aid the police in watching anarchists and other agitators.

President of the Senate.

A dispatch from Dunkirk received today reports that considerable anxiety prevails there and that it is feared that the Buffalo outrage will lead the ezar to postpone or abandon his visit to France. This impression, however, is absolutely unjustified, as proven by the fact that inquiries in Paris indicate that no change in the arrangement of the czar's visit has been considered. It is the general feeling consequence upon the president's life. by Emperer Nicholas would be too obvious a display of the white feather, even if apprehensions of another outrage existed. A telegram from Bergues, near Dunkirk, says that a man known as an anarchist arrived there yesterday and is now under

surve!!lance. An indication of the effect which the outrage upon President McKinley has upon the minds of the ministry is shown by the fact that an Italian named Romani, who was arrested last week at a suburb of Paris on suspicion of being an anarchist, but whose honorable character was attested by a number of inhabitants, who petitioned for his release, is still held in prison. M. Alleman, who had interested himself in the prisoner's behalf, received a letter from Premier Waldeck-Rousseau yesterday declaring it was impossible to set the man free and he will undoubtedly be detained until after the ezar shall have left.

From this time on anarchists will have to be temperate in the language they use in this city if they do not wish to be thrown into jail.

Polish-Americans gathered in St. Laurens Roman Catholic church today, passed reso lutions deploring the shooting of President McKinley and protested against the statements that the would-be assassin was connected with the Polish people in this country. Among those present were five Polish priests. The resolutions, after regretting the attempted murder, continue as follows: Resolved. That we, as Roman Catholic Polish citizens of the United States, protest Polish citizens of the United States, protest most energetically against the insinuations of the English newspapers as if the anarchist who raised his sacriligeous hand against the hishest authority of the great republic had any connection with the Polish people residing in these states. The would-be assassin is a Hebrew by birth, but professes to be an atheist. The Polish nation can boast of never having produced a man who would stain its reputation by attacking a lawful authority, because imbibed by Christian principle. CHICAGO, Sept. 8 .- Two thousand members of the socialist party voted down a resolution of regret for the attempted assassination of the president at a meeting in Bergman's Grove, Riverside, today. The argument of those opposed to the resolution is that McKinley is the representative of the capitalist class and that his safety; or danger are matters of no concern to

The resolution was introduced by the chairman of the meeting. Wilmot I Godspeed, and was designed to counteract the tendency of some people to place socialists and anarchists in the same class ... Incidentally expression was made of the pain of socialists in common with other citizens at the attempted assassination. This was regarded by many present as a letting down of the barrier of hatred supposed to separate the capitalists from the common people and they defeated it.
