General Trend of Market on Board of Trade is Downward.

WHEAT OPENS HIGHER, BUT DECLINES

Corn Strong at Start, but Closes Lower - Comparatively Steady Throughout the Day-Fair Trade in Provisions.

CHICAGO, Sept. II.—Although the government crop report caused higher prices to rule at the opening on the Board of Trade today the market generally tended downward and December wheat closed \$60\text{sq}\$c tower. December corn was \$4c lower, oats a shade higher, while provisions closed from the total opened higher on a government report showing the crop of hoth spring and winter wheat to be at considerable variance with the estimates of experts, but the lack of any outside demand entirely offset the builteh flect of the crop builetin, and after a momentary strength early prices gradually declined. The decline in corn and continued liberal receipts in the northwest continued to be a feature. There was a good-sized scaboard business, with fair clearances, but absence of any considerable business kept trading down. December opened \$20\text{sq}\$c higher at 70\text{sq}\$Tic. There was a sight advance to 71\text{sq}\$c, after which, on heavy sciling, the market declined and the close was at the bottom at 76\text{sq}\$c, a lose of \$20\text{sq}\$c. Seaboard clearances of wheat and flour were equal to 40\text{sq}\$c business, against 1.31\text{sq}\$co a year ago. Minneapolis and flourith reported receipts of \$25\text{ cars, regainst 1.32}\$co a year ago. Minneapolis and buluth reported receipts of \$25\text{ cars, regainst 1.32}\$co a year ago. A reduction in the crop of two-thirds from August, as given out in the August grop report, was the cause of a strong opening in that grain, and there was a fairly good demand during the first few days of trading. On the bulge flere was a fairly good demand during the first few days of trading. On the bulge flere was a fairly good demand during the first few days of trading. Oats opened h

phade higher at 3523513c. Receipts were not ears.

There was a fair trade in provisions at times and the opening was at steady prices. Under the influence of grains longs disposed of much of their holdings, causing a Aveaker tone. Fluctuations were within a harrow range and January pork closed 50 45c lower at \$15.72\6015.75, lard was 7\frac{1}{2}c lower at \$15.72\6015.75, lard was 7\frac{1}{2}c lower at \$15.72\6015.75 while ribs were 5c lower at \$15.85 km and \$15.85 km and

Financial Power Still Gives Organized Protection to Market.

NEW YORK, Sept. II.—The organized protection of the market by cencert of the financial powers was settl in effect today. There was much realizing on advances by this element of holdings acquired on Saturday and early this week in the furtherance of the purpose to support the market. This realizing was accomplished probably on a demand from uncovered shorts, as there was no evidence of an inside interest in the market or disposition to take stocks by large banking interests. The position of the market in thus restored approximately to that which obtained before the attempt on the president's life on Friday afternoon. The purpose to protect the market on the part of the combined capitalists is not changed apparently, but there was not the same effort shown to advance prices or invite speculation. This is the natural outgrowth of the relief by selling to realize that has aiready been accomplished this

Invite speculation. This is the natural outgrowth of the relief by selling to realize that has already been accomplished this week and of the desire to protect the money market from any invads in the shop of loans for speculative purposes.

The relief of the market into increasing duliness and the heaviness shown today can probably be adequately accounted for on these grounds. There also were some factors of positive effect toward depression, The opening of the prisident's wound last night, while it occasioned no actual upcasiness here, seems to have affected sentiment in London and sales here for London account had to be taken care of on a considerable scale, more than for many days. Rumors of a steel strike settlement resulted in reaction of the United States Steel stocks and the annual report of the Republic Iron and Steel company did not make an encouraging showing of conditions resulting from the year's business. The government crop report showed a pooler condition of corn than anticipated, some speculators having looked for improvement over the August I condition.

speculators having looked for improvement over the August I condition.

The effect of the treasury's proposals for relief of the money market was confined to surmise, as no statement was for hoom in as to the amount of bonds offered or the prices asked. There were significant advances on the prices of government bonds on call, which carried prices of all the government issues, except the short fours, [4,6112] per cent over the prices ruling tefore the secretary's order. Expectation is not sanguine in view of the quieter state of the money and securities market that bonds to the amount of \$20,000,000 invested by the secretary will be offered before the limit of time expires tomorrow afterneon by the secretary will be offered before the imit of time expires tomorrow afternoon at prices which will be accepted by the secretary. Sterling exchange remained fairly steady today, in spite of the buying of stocks here for London account and a lowering of discount rates in London. Exchange on Paris showed a yielding tendency.

LONDON, Sept. II.—The supplies of money were fairly large and easy today. Businers on the Stock exchange was fairly cheerful and prices as a rule started firm. Consols and home rails improved, but were afterward irregular, with a downward tendency. ward irregular, with a downward tendency. Americans opened steady, but were afterwards depressed below parity on unfavorable American crop reports and the bulletins glving President McKinley's condition, which were believed to be indicative of danger, notwithstanding the optimistic reports. The idea has prevailed that the raily in prices was sufficient for the present. Brazilians continued in demand. Grand Trunks were easier. Canadian Pacifics were firm, traffic returns being good. Railroad bonds were dull and irregular. Total sales, par value, \$1.755.60. Unit d States 3s advanced 2½ per cent, the 2s and 5s ½ and the new 4s 1 per cent on the last call.

The Commercial Advertiser's London financial cablegram says: The stock market here was firmer, except in the American department, the latter opening strong, but falling a quarter of a point after the opening. The reason given was that President McKinley had undergone a further operation. The general opinion is that there are more doctors around the market than there is around Mr. McKinley. There was little change in the afternoon for railroads, but United States Steel jumped a full point on support in New York.

Dry Goods Market.

NEW YORK. Sept. 11—DRY GOODS—M.
C. D. Borden bought some 300,000 pieces print cloths at 3c for regulars. Wide goods against buyers. More demand for brown bleached and coarse colored cottons and tone of market firm. Prints scarce and lendency against buyers. Men's wear woolens in staple lines firm, fancies irregular. Woolen and worsted dress goods quiet. FALL RIVER. Mass., Sept. II.—DRY GOODS—Print cloths have been advanced to be as the asking price for regulars in the local market. No sale at this price was reported here today. A lot of goods, conservatively estimated at 200,000 pieces has been for the American Printing company at that figure. The local market is very firm, and trading is quiet today, merely because buyers and manufacturers cannot get the regular prices.

NEW YORK, Sept. 11—COFFEE—Spot Rio. steady: No. 7 invoice, Mgc. Mild, quiet. Futures opened steady in tone at unchanged prices and held pretty steady throughout the forenoon, with trading fairly active and well scattered throughout the list. In the afternoon values scored a partial rise of a points on buying by local shorts. The market closed net unchanged to an advance of 5 points. Total sales, 24,000 bags, including Celober, 4,850; December, 4,850; January, 5,08c; March, 5,25c. August, 5,55c. News from abroad was about a standoff and had no effect on the local situation.
