Our New York buyer has shipped to us five carloads of pianos this week. These pianos were bought for spot cash at about one-third their actual value. As we had purchased very heavy for the fall trade we find that our large piano floor is loaded to its utmost capacity. In order to make room for this extra shipment we have been compelled to cut the price on every piano on our floor, and will continue to do so until we have closed out. From these five carloads, as we represent mostly all the standard makes in this country, customers will have no trouble in making a selection of an instrument. Every piano guaranteed to give satisfaction or money refunded. All instruments sold on easy payments if desired. Catalogues are furnished to out of town customers on application.
