MUST KEEP A WIRE CUTTER Electric Light Company Ordered to B Prepared for Night Fire

Emergencies. As a result of the fire Wednesday night at the old plant of the electric light company at Eleventh street and Third avenue, the city council yesterday afternoon notified the Citizens Gas and Electric company hat it would be required to keep a man at night ready to cut wires when needed in the event of a fire. It also instructed the company to place a firealarm gong in its substation so that the man on duty could

respond at once when an alarm of fire would The fire at the old electric light plant was caused by the wind blowing live wires down on the building, which also came 'n contact with some of the old wires which had yet been removed. When the firemen arrived, there was no one to cut the wires and Chief Templeton refused to allow any of the men near the building. It was some time before an employe of the electric light company could be secured and the wires cut. The damage to the building, however, was nominal. Chief Templeton made a report to the council as the failure of the electrict light company to have a man on duty at night might prove disastrous another time.
