(From a Staff Correspondent.) LINCOLN, Neb., Sept. 18 .- (special.)-The democratic and populist campaign managers have practically decided to establish joint headquarters in this city. The offices of the two committees will be side by side in the same building and if the plans of Chairmen Hall and De France are carried out the campaign work will be arranged so that there will be no duplication. with each other.

Heretojore the two committees have acted independently and as a consequence there has been much confusion in the campaign work, especially when one had its headquarfers in Lincoln and the other in Omaha. Chairmen Hall and De France have arrived at an agreement relative to the location and general outline of the campaign and unless objections are offered by the executice committees they will be closely followed. Chairman Hall will not be able to give as much time and attention to the work as he did last year, but he will keep in touch with all movements in the fusion campaign and will be ready at all times to advise with his fellow managers. Chairman De France of the populist committee will take a more active part in the work and he is expected to direct the greater part of the field work. Mr. De France was authorized to select the secretary for the populist committee and he said today that he would announce the appointment within the next few days.

The few fusionists who remained in the city today admit that the outlook for fusion success is decidedly gloomy. The attendance in both conventions was disappointto the managers, as was also the painfully apparent lack of enthusiasm. Supreme Court Cases.

STORY OF HIS HOMECOMING

Canton Multitude Greets William Me-Kinley on His Return with Sobs and Tears.

CANTON, O., Sept. 18.-The sight was profoundly impressive as the funeral train drew into the little station at Canton at exactly noon today. At the station and banked on the surrounding streets were the friends and neighbors of the martyred president, while drawn up back of the station were long lines of military at present arms. Immediately in the rear of the sta-

Women Weep at Sight of Train. All about were the black spmbols of mournoing. The approach of the train was unheralded. No whistle was blown, no bell was rung. In absolute silence it rolled into the station. Even the black-hooded locomotive gave no sound. There was no panting of the exhaust pipes. The energy that brought it seemed to have been absolutely expended. At the mere sight of the train the people who had been waiting there for hours were greatly affected. Women sobbed and men wept.

For a full minute after it had stopped none appeared. The committee moved along down the platform to the catafalque car and waited. Suddenly Abner McKinley, in deep black, his face tense and drawn, appeared in the vestibule of the car next that conveying the body and a moment Kinley, arrayed in deepest mourning.

a broad window at the side was unscrewed and removed. While this was going on the floral pieces inside were carefully lifted out and placed upon the ground at the side of the track. When all was ready the soldiers and sailors who had accompanied the remains all the way from Buffalo emerged from the car and took up their places. The soldiers trailed arms and the sailors held their drawn cutlasses at their sides. Only the body bearers

were bareheaded and unarmed. Meantime President Roosevelt, with his brother-in-law. Captain Cowles of navy, in full uniform, at his side, had decended from the car ahead of that occupled by Mrs. McKinley. The members of the cabinet, Secretary Cortelyou. Governor Nash, Lieutenant Governor Caldwell and Judge Marshall J. Williams of the supreme court, representing the three branches of state government of Ohio, followed. The president was met by Judge Grant of the receiving committee and the official party then moved to the west of the station where they formed in line with the president at the head. All were uncovered.

A majestically solemn spectacle was presented as the procession neared the public square in the center of the city. After the Grand Army came the Cleveland troop, their brilliant uniforms of Austrian Huzzar style, with tall bearskin shakos, topped by pompoms of white. At the hilt of every sword streamed a long band of crepe and the tiny silk guidon flag was topped with a long, black streamer.
