# BANK'S METHODS REVEALED

Expert Walters Tells of Losse Methods of Officer & Pusey.

cer's Liability.

The particular charge which Charles T. Officer, indicted for fraudulent banking. will have to answer, is that of having accepted deposits while cognizant of the bank's insolvency. The indictment is found on the charge that Officer accepted a deposit of \$1,190 made by John T. Oliver of of sand. At the meeting of the city council investigation of the methods of caring for this city on April 6, 1900, and that Mr. Monday, when attention was called to this. Officer was in the employ of the Officer & the aldermen passed a resolution to the Pusey bank and had charge of that part of the bank's business which generally and usually devolves upon the cashier and receiving teller of a banking institution. He testified that his examination showed conclusively that the bank had been insolvent for at least ten years prior to its suspension. As to Charles T. Officer's knowledge of the insolvency of the bank, Mr. Walters' evidence was that he thought Officer testified in the district court at the hearing of the receivership case that he knew the bank had been insolvent for about three years before it was closed. This portion of his tes timony, however, was based only on his remembrance of Charles T. Officer's evidence.

## Worthless Paper as Assets.

L. F. Murphy's testimony related particularly to the fact that outlawed and worthless paper to the amount of \$75,000 had been carried on the books of the bank for eighteen years at 100 cents on the dollar. He testified that on the morning the receivers took charge of the bank Charles T. Officer opened the reserve compartment of the safe and told them that there was not as much cash there by \$10,000 as the slips called for. Mr. Murphy said Officer explained that this difference was made up paid, but which had never been charged up o their accounts. He testified that he had ocen bookkeeper in the bank for fifteen years and that "Charles T. Officer usually counted the cash and made the slip stating the amount of cash in the safe and the cash out of the safe and handed it to me."

upon the quality of the grain will not be

appreciable, as the bulk of the crop had

been cut up, or was beyond danger of

harm from frost. The recent heavy rains

have been very beneficial to pastures and

meadows and in some sections late potatoe

has been expected. The soil is in fine co-

## FROSTS' EFFECT ON THE CROPS

Weather Bureau Confirms Reports of Their Damaging Nebraska's Late Corn Some.

WASHINGTON, Sept. 24.-Following is the weather bureau's weekly summary of crop conditions: The week has been unseasonably cool in nearly all districts cast of the Rockies, with light to heavy frosts. more or less damaging throughout the central valleys, middle-Atlantic states and northern portions of the central guif states. Excessively heavy and damaging rains occurred in the cast gulf and south-Atlantic states. On the Pacific coast the weather conditions were favorable, except in northern portions of central California, where rains probably caused extensive damage to

The corpse of a woman found a week ago grain, hay and grapes. Friday in a brush thicket, was identified Late corn has been damaged to some extent by heavy frosts in North Dakota and portions of Nebraska, Kansas and Missouri and Iowa, the percentage of damage in the last named state being very small. The crop has also suffered some slight damage on low lands in Indiana and Ohio, but the bulk of the crop east of the Mississippi river is matured and safe from injury from frost. Cutting has progressed favorably and is nearing completion in some states. The heavy rains in the south-Atlantic and east gulf states caused much damage to cotton in central and eastern districts. union among its employes, and its order where much open cotton has discolored and is considerably beaten out by heavy rains, while rotting and sprouting are quite generally reported and cool weather has checked growth. In Texas picking progressed uninterruptedly and in localities some improvement in late cotion is indicated, but the general condition of the crop in that state is poor. But little damage was done by frost to tobacco in the

Ohio valley and none elsewhere. Favorable reports concerning apples continue from Kansas, more encouraging statements are received from portions of Arkansas and Tennessee and a slight im--The annual conference of the Des Moines provement in late apples in Missouri is indistrict of the United Brethren will be in dicated.
