Great Fight in the Eighth

The Eighth ward gave a fight between two behind the low man on the regular ticket. The successful delegation is supposed to favor George F. Munro, the grocer, for county commissioner.

Only one ticket was up in the Ninth ward and the only unusual display was a tendency to scratch the new importation of Blackburn, who was cut out of forty-three tallots out of 204 or one out of five of the NO QUAIL IN THE ICE BOX votes. The delegation is labeled for Charles Unitt for county clerk.

In South Omaha the voting was compar atively light, except in the First ward, but a South Omana delegation under teadership of City Prosecutor Henry Murphy, went over to Clontarf in the evening and ention, but with poor success.

WALCOTT GETS THE DECISION George Gardner Stays the Twenty Rounds and Claims It is Really a Draw.

SAN FRANCISCO, Sept. 27.—George Gardner and Joe Walcott met tonight in a twenty-round contest at the Mechanics' pavilion for a percentage of the receipts. The betting on the fight was light, with Gardner a 10 to 3 favorite in the poolrooms. Jack Welch was referee.

Walcott was given the decision at the end of the twentleth round. The fight was a hard and fast one, with honors about even until the eighteenth round. Walcott took a decisive lead in this round, when he caught Gardner hard on the jaw. He followed up his advantage until the finish, never letting up for a minute. All through the fight Gardner kept trying for Walcott's head, while Walcott gave his attention to Gardner's body. Walcott's blows gradually weakened Gardner. Gardner claimed the fight should have been a draw. Both men left the ring without much sign of punishment.

LIPTON SAYS SHAMROCK WILL FOOL 'EM GENTE.

Declares That Its Virtues Are Still Unrealised on This Side of the Pond-Some Complaint of Barr.

NEW YORK, Sept. 27 .- The first race of the America's cup series, which, after a disappointing day of fluky airs, was abandoned in a dead calm Thursday, will be resailed tomorrow over a course off the Sandy Hook lightship. A beat to windward the sloop learnes, representing Great Brit or a run to leeward and return will be sailed, the course depending upon the direction of the wind at the time the two yachts arrive at the lightship. According to the agreement the first, the third and the fifth races are to be sailed fifteen miles to windward or to leeward and return; the second and fourth races being over a course represented by an equilateral triangle measuring ten nautical miles to the leg. At a late hour tonight the weather bureau issued the following bulletin:

The wind off Sandy Hook on Saturday will be fresh and easterly in the morning and will probably shift to the northeast in the atternoon, increasing to brisk.

According to the definition of a "fresh breeze," interpreted into figures from the standard of the weather bureau in the morning, the velocity of the wind will vary from ten to nineteen miles an hour. By a brisk breeze is meant one driving anymiles an hour.

"Wind, wind! My kingdom for a wind!" rival yachts which lay behind Sandy Hook

'We must have wind," Sir Thomas Lipton said, "and from the present indications we shall get it tomorrow. If it comes and there is a race all Britain and all America will rejoice, for then we shall have the first test of the yachts.

Don't Know Shamrock Yet. "Why, no one here has seen that boat race," he continued. "The race of Thursday was a procession of flukes and a boquet of fizzles which it would be hard to equal even if searching the records of the races of blooded Herefords and was twice presi-

"What do you call a fair breeze?" was asked.

"Oh, a nice breeze." "At about what speed wind?" "Say ten or twelve or fifteen knots-anything, in fact, over eight knots an hour. We do not mind a sea if only we have the wind to drive us. The sea will not bother us unless, indeed, like last time, there is a sea and no wind. We do not want a regdar easterly gale, for that would make things uppleasant for all concerned. But

Press Sees Little Hope. LONDON, Sept. 27.-Sir Thomas Linton has cabled to his friends here: "Am very hopeful," but the feeling is not reflected by public opinion, which foresees defeat Shamrock II in its races with Columbia for the America's cup. The afternoon pa pers derive scant comfort from the account of yesterday's contest. The St. James Gazette points out that, in spite of all suggestions that the conditions prevent accurate judgment of the comparative merits of the two yachts, "the plain facts stands out that under a condition of weather. which was the same to both, the American boat got a good bit nearer the winning line

than our own.' The Pall Mall Gazette is practically alone in thinking that the American experts are easily satisfied if they already are convinced that Columbia is the better boat. The paper's comment is probably based on the conclusion of its own correspondent's long account of the race, which commences. "Columbia did much to shatter the Lipton hope yesterday," and concludes: day's sailing did nothing to suggest that Shamrock II will not win in a good breeze.

COLON, Sept. 27 .- Panama for a week or more has been terribly unsettled owing to apparently well founded reports brought by incoming steamers and received from other sources, which assert that an expedition numbering between 1,200 and 1,500 men, under General Domingo Diaz, which sailed from Corinto, Nicaragua, two weeks ago, effected a safe landing at a place called Chame, fifty miles south of Panama. Chame offers splendid natural facilities for resisting attack and the expedition is said to be well armed and equipped and to be in pos session of modern guns.
