President Mellen and Judge Cornish Meet President Burt to Discuss Court Traffic. President Charles S. Mellen of the Northern Pacific, accompanied by W. G. Pearce, assistant to the president, and A. Lovell,

superintendent of motive power, was at Union Pacific beadquarters yesterday conferring with President Burt. W. D. Cornish of New York, vice president of the Upton Pacific Oregon Short Line and the Chicago & Alton, was also a party to the conference.

It is understood that the matter under consideration is the use of the Northern Pacific tracks from Portland to Seattle by the Union Pacific. At present the Overland trains run through to Portland over the proprietary lines, the Oregon Short Line and the Oregon Railway and Navigation company, and have done so for years. North of Portland 185 miles via the Northern Pacific is Seattle.

The Union Pacific has desired an entrance, into Seattle and the Puget sound country for the last fifteen years. In the latter '80s a line was surveyed and partially graded, which may be seen to this day, from Portland to Seattle, but it was never completed. Within the last year or two the project has been revived, but infixed charges amounting to \$6,596,190.58. HAYS WILL REST AWHILE stead of building the line it is said that a traffic arrangement will be made with the Northern Pacific. It is predicted by local railroad men that the new arrangement will be in operation within sixty days. President Mellen is well known at Union

Pacific headquarters. For some time prior to about ten years ago he was purchasing Hays, president of the Southern Pacific agent, traffic manager and later acting gencompany, formally announced today that eral manager. The president and his party age of 70 years a scheme of pensions was he would resign from the presidency. In arrived yesterday morning from St. Paul in the former's private car. Judge Cornish came in from the west

and is accompanied by his wife. He will go to his home in New York at the close of the conference.

ON ANNUAL MEETING. Clash Expected Between Hill and Harriman Forces.

Great interest is being manifested in railroad circles in the outcome of the annual meeting of the Northern Pacific in St. Paul next week, says a Chicago dispatch. It will then develop whether the Harriman interests really hold a majority of the stock or whether James J. Hill is still in conpect to remain some weeks enjoying the trol. The general opinion is that there man and Hill forces and that the "community of interest" scheme will receive a shock from which it is not likely to recover soon.

Should the result of the meeting turn out victory for Hill the Harriman roads will have all they can do to maintain themselves, as Mr. Hill undoubtedly will invade their territory wherever it is feasible and extend the Burlington from Guernsey to Salt Lake City and join Senator Clark's forces in building the proposed line from Salt Lake City to Los Angeles. it is said to be the intention of Mr. Hill
