Alleged Kanila Combine.

Acknowledges Promotion of Trade Project and Submits Details and Names of Associates-Major Hawkes Also Testifies.

WASHINGTON, Sept. 30.-The senate sub-committee of the committee on military affairs, consisting of Senators Hawley. chairman, Proctor, Burrows, Cockrell and harris, at 11 o'clock today began the investigation of charges against Liqutecant Colonel Heistand of the army in connection with the alleged Manila bemp combination. The charges were preferred by Major E. L. Hawkes, formerly a volunteer officer, and were deemed of sufficient seriousness to warrant an investigation by the senate.

Colonel Heistand was present today at the opening of the inquiry, in company with his attorney, Charles W. Needham. The committee decided that the proceedings should be public, that course being regarded as best for all concerned.

In brief, the charges against Colonel Heistand are that he, in connection with other officers in the army and some officials in the civil departments of the governments. attempted to form a combination to control the output of hemp from the Philippines, using their official positions and influence to further their ends. Major Hawkes preferred the charges to the secretary of war and also to the genate committee on military affairs. They were denied by those against whom the allegations were made. After some consideration the senate by resolutions authorized the investigation which began today.

Heistand on the Stand.

At the opening of the inquiry several important documents from the War department were submitted to the committee, including a copy of the charges made against Colonel Heistand and his reply to them. In his reply Colonel Heistand says. he was identified with the proposed company and considered his connection with legitimate and honorable. Some time prior to the making of the charges Colonel Heistand says he ceased all negotiations with Major Hawkes, effecting a settlement in full with him. Major Hawkes delivered to him all papers in the case and took a receipt for them. Subsequently Colonel Heistand received a letter from Major Hawkes, in which the latter said he had retained certified copies of all the letters and papers in the case and had photographs of the more important documents. Among the papers sent by the War department were those relating to the appointment of Major Hawkes to the army and as an officer in the Philippines customs service and his discharge from that place,

In Heistand's Company.

At the afternoon session Major Hawkes was sworn and testified to the statements neretofore made in the senate which caused the investigation. He went into details and read copies of letters which Heistand had written to him. The most important development during the day was Major Hawkes' testimony regarding the first meeting of some of those who were projectors which was neld in Dudley & Michener's law office in this city in the summer of 1899. Colone: Heistand and W. E. Harton.

William M. Dudley, Lewis T. Michener, E. L. Hawkes, James E. Boyd, George D. Meiklejohn, Charles H. Allen and H. O. S. Heistand, H. C. Corbin and Lewis B. Jackson.

Major Hawkes produced a paper containing this list, saying he saw Heistand write the names. Colonel Heistand inspected the paper and said he thought it was his writing, but where or when he wrote the names he had no recollection. Members of the committee brought out the fact that Bore Meiklejohn, Corbin and Jackson were not present at the meeting.

Some discussion arose as to a cable message from General Otis, contained in a message Heistand wrote to Mr. Hawkes. The committee wanted to know who sent the cablegram to General Otis which called for his reply. Colonel Heistand said he sent it as a personal message. The letters which were read today were copies which Hawkes had retained. Heistand acknowledged most of them. The committee admitted them. subject to change which the originals might show. These originals are in Heistand's possession and he was asked by the committee to produce them, and he promised to tomorrow at 10 a. m.

Governor Savage and Party Will Represent the State at Pan-Amertenn Exposition.

Governor Ezra Savage and staff left Omaha for Buffalo yesterday afternoon at COLONEL HIMSELF CALLED TO THE STAND 4 45 o'clock to take the leading part in observance of Nebraska day at the Pan-American exposition. The ceremonies upon that occasion will consist of an address on behalf of the citizens of Buffalo by the mayor of that city or the chief executive officer of the Exposition association and responses by the governor and some of the orators of the staff. Nebraska stands high in the estimation of the men

who are making the exposition. When Governor Savage and his staff take part in the banquet at noon on that day they will feast under Nebraska sod, for that part of the entertainment is scheduled to take place in the famous "sod" house. On the day set aside for the recognition of the Antelope state the praises of Nobraska will be sung by a competent party, as the staff of the present governor are all men who are living examples of what

may be done in the state. The Nebraska party which left yesterday consisted of Governor Savage and wife, Colonel Frank E. Moores of Omaha, Brigadier General Leonard W. Omaha people are much interested in the case of Arthur J. VanKuran, a former resident of Omaha, who is on trial at Salt Lake, charged with embezzling funds of was treasurer until his arrest last February.

The defense is that while the books show a shortage, it is due to the system of bookkeeping and the handling of funds and not to any speculation on the part of VanKuran. It is said that the trial will be long drawn out, as the attorneys for the defendant are making their case from the evidence supplied by the witnesses for the prosecution. Mayor Kelly Presides.

For the first time in many weeks Mayor Kelly presided at the council meeting. While an immense amount of routine business was transacted, there was nothing of special importance. Reports from heads of departments were received and filed without

On the matter of street improvement districts a report from City Attorney Lambert was read reciting the fact that improvement districts could not legally be created until some provision has been made for the grading of street and alley intersections. At the suggestion of Johnston this report further action by the council. Later the subject was again discussed and it was decided to have the city attorney draft an ordinance, providing for the issuing of bonds to pay for intersection work. The amount of bonds to be issued will be determined as soon as it is learned how much grading is contemplated by property owners.

Councilman Miller found in looking over the bills that Inspector Clark was having the Oregon Short Line, of which road he his horse shod at the expense of the city. This was ordered stopped. Miller made another attempt to stop the

pay of City Prosectuor Henry C. Murphy by recommending that the ordinance creating the office of prosecutor be repealed. When it came to a vote the motion was

missioner was directed to proceed at once to fill holes in L street, between Twentieth and Twenty-fourth streets, in order that the laying of street car rails for the Missourt avenue extension might not be delayed.

City Engineer Beal was directed to establish the grade on Twelfth street, from to J streets as soon as convenien. Permission was granted to the residents

of Archer avenue to grade the street from Thirteenth to Fifteenth streets, providing the work is done without cost to the city. An ordinance was introduced, providing for the building by the Union Pacific of a new bridge across Mud creek in Albright. Plans of the bridge were exhibited and no objection appeared. The city authorities and the railroad officials will doubtless enter into an agreement for this bridge.

Upon the recommendation of Martin the Louis Hutter claim will be settled for \$217. Numerous street repairs were ordered and an adjournment for one week was taken.

No Bids Received. Although hall a month was given for the filing of bids by brokers for the purchase of city bonds, not a single bid was received by the city clerk up to the time of closing his office at 5 o'clock last evening. This offer of 4 and 6 per cent bonds was well advertised, but for some reason the bidders held back. From all that can be learned on the outside the bonds are all right and are well worth the money. The 4 per cent bonds are general indebtedness bonds, while those drawing the higher rate Byers, who was introduced by Mrs. Harof interest are for districts, the city stand-

It was intimated last night that if the bonds could not be sold at public sale a private sale might be arranged,

the idea being to interest private investors. Mayor Kelly's Return.

Mayor A. R. Kelly and wife returned from an extended eastern trip yesterday afternoon. The mayor and his wife visited the Buffalo exposition and were in the Temple of Music when President McKinley was shot. From Buffalo the party of which the mayor was a member went down the St. Lawrence river to Montreal and to Lake Champlain, thence to New York and Washington. Mr. and Mrs. Kelly are in the best of health and report having enjoyed their trip immensely.

> Interlocking Arrangement Requires an Operative in Each Tower and Men Must Have Clear Reads and Steady Nerves.

October 15 will see the inauguration of the Union Pacific's new interlocking switch and signal system in the Union station yards. At the same time it is probable that the block signal system between Council Pluffs and Gilmore will be put in operation These two improvements represent a large outlay and mean that the best safeguards

known to railroading have been adopted. The switch and signal system is operated from two towers, one just east of Thirteenth street and the other west of the bridge near Sixth street. They are 25x22x13, with the operating floor twelve feet above the tracks. Here is a system of seventy-five levers, controlling seventy-one switches and seventy-six signals.

One operative will be required in each tower. All movements of trains in the district will be subject to their manipulation. The work requires a cool head and steady nerves, but electricity is the nower that moves the switches. The operative merely touches the proper lever and the motor does the rest. Electricity will also light the signal lamps.
