It is urged that if tariff concessions are not made and if the industries of Cuba languish under the self-government, it is extremely probable that the annexation of the Island will not be interest. It was started only five years long deferred, and after annexation Cuban sugar would come in free of all duty. That does not impress us as a annexation is a possibility of the future. It may come within a generation. There are many who think it inevitable sooner or later. But such a possibility, policy that would destroy valuable and not be done. promising home industries. The question of tariff concessions to Cuba demands very careful consideration.

College students are often given to emotional antics which upon sober second thought do not appeal to good sense or cool judgment. This applies forcibly to the resolutions adopted by the students of the Wesleyan university at Lincoln demanding the deportation of corpse of the assassin of President Mc-Kinley as a warning to other anarchists. Quite apart from the obstacles in the way of such a scheme in both state

and international law, it is doubtful whether such a warning to anarchists would have the slightest effect. In the was secretly submerged under the Pothe federal offices and over expressions tomac to prevent his friends from fabri- this character. have no children in school or out of attributed to him by rival politicians cating martyrdom for him by its exhi-

bition. The assassin of Garfield was interred like that of any other executed spondent predicts that the president is murderer and that course will doubtless signed eventually to encompass the whole be pursued again.

Etchings of Scenes and Incidents in the Big Town.

Stand where you may in upper New York

you can see an immense stone arch out lined against the sky. It is on the edge o a high place that in itself overlooks the city. The arch is one of four which will support the tower of the Cathedral of St. John the Divine, and this square towe state committee should vote to cut down the beet sugar industry until it has will in time rise to a height of 440 feet above the arch. When work was begun or the Belmont chapel, one of seven which are to surround the choir, it became necessary to decide on the kind of stone to be used for the exterior work of the whole cathedral and now that the walls of the chapel are rising from the ground the color of the cathedral walls can be seen for the first time.

The material is a granite, quarried near Yonkers, and while many have said that the color, a grayish yellow, is not specially pleasing, the stone has so many good quall ties, hardness and durability particularly that the trustees chose it, knowing that in a few years after crection the color would be softened by time and weather so that its new appearance was to some extent unimportant.

The trustees have decided to use Frontenac marble for the entire interior finish The Belmont chapel is to be completed in about a year and will cost \$200,000. 11 will be entered from the end near the cathedral proper, its walls for the first third of their length will spread out at an angle of about 15 degrees and beyond this will come the nave, with parallel walls. Still particularly forcible argument. Cuban further will be the choir, almost square in shape.

It is intended that a row of immense polished granite columns shall stand across the front of the cathedral, each of which siderable benefit to the grain dealing be it near or remote, furnishes no sound to have each in one piece, but the actual reason why we should now adopt a test of manufacture has shown that it can-

A New England quarry company took the contract. A special polishing lathe was constructed at a cost of \$50,000. The shaft was squared in the rock and placed upon the machine. Just as the pollshing was completed it broke in two and a second shaft met the same fate. The pillars will have to be made of two sections of thirty feet each.

Beneath the arches now standing they have built a crypt chapel, beautifully finished, and used for stated services. It has an organ, a beautiful altar and memorial windows. Near a half century may pass before the final builders can look upon their work and say: "It is finished at last." From \$20,000,000 to \$30,000,000 is the ultimate figure now talked about. But as time goes by and the country grows richer it is inevitable that the cost will be in creased. When you come to decoration. statuary, paintings, mosales, altars, wincase of the assassin of Lincoln the body dows and so on, there is no end to the wealth that can be added to a building of

curio

Why not award the presidency of the auditorium company for the year to the director who gathers in the largest amount of contributions within a time limit set to the competition?

It is evident that whatever the intention may have been, that Manila company did not secure a corner on hemp. There seems always to be plenty obtainable whenever a southern mob starts to lynch a negro.

Federal judges who hold offices for life may defy public displeasure with impunity, but they cannot afford to show such flagrant partiality to corporations as to bring our federal courts into contempt and disrepute.

Irish leaders advise the people of that island to give King Edward a warm reception on the occasion of his forthcoming visit. If Irishmen really promise to show their king a hot time he will not need to take his overcoat along.

The fate of Tod Sloan and Lester Reiff should warn American jockeys against being too successful abroad. Having won so many races when they happen to lose it creates suspicion for which they are immediately disciplined.

Another official bulletin on crop conditions has been issued by the government and for a wonder it could see no decline in the condition of Nebraska corn. Nebraska corn is going down, but it is down the necks of cattle, hogs and horses.

The Industrial commission has issued a report which sets out that there is a mass of conflicting railroad legislation on the statute books of the various states. At the rate such legislation is conflicting with federal courts little of it will be left in a short time.

County Commissioner Connolly's des perate effort to break into the courthouse for a second time forcibly recalls the way he broke in the first time by the aid of Albyn Frank and a signed pledge to vote and act with the republican members of the county board.

The good ship America, which brought the famous cup to this side, is still in commission and on hand to watch the defense of its trophy. It would be interesting as a side issue to have a race between America and some British ship of the same class and age, just to give the old boat a chance to show that it has not forgotten the old tricks.

The past month shows another decrease in the public debt, which is now reduced, interest-bearing and all, almost to the billion-dollar mark. At the present rate another fiscal year will see the Judge Vinsonhaler and Charles Unitt, debt less cash in the treasury reduced had been nominated before the vote order in the island depends very largely below that point for the first time since the civil war. This debt-paying habit is one of the legacies of the administration of President McKinley.

by appeal to the higher courts.

ciples and equities of taxation.

THE NEW MACHINE

the great majority under the domination of a small minority? The fundamental principle of the re-

publican party has been that majorities as an official. should rule not only at the election, but in the nomination of candidates. The whole purpose of the machinery of the

party should be to give force to the will of the party expressed by a majority of the rank and file in caucuses primaries and conventions.

Under the new dispensation, this principle has been reversed and every rule away without being favorably imof just representation trampled under pressed. "At making a good impresfoot. A few figures will throw a light on the shameless bargain by which Omaha republicans have been disfranchised and robbed of the voice to which was his distinguished and lamented they are entitled in the party councils. The total vote cast for McKinley in long retain his influence if he should

Douglas county at the last election is permit himself to be drawn into fac-14.340, divided as follows: Omaha, 11,180; South Omaha, 1,793; country precincts, 1.367. In other words, there are more than six republicans in Omaha to one in South Omaha, and there are nearly nine republicans in Omaha for every republican in the country precints. Yet while South Omaha and the country combined cast less than onethird of the vote of Omaha for McKinley the representation of South Omaha and the country in the next county convention is to be eighty-eight delegates, as against ninety delegates for Omaha This rank disproportion is even worse in the new county committee, in which Omaha, with its 11,180 republican votes, is represented by twenty-seven members, while the county precincts, with 1,367 republican votes, have

twenty-eight members and South Omaha, with 1,793 republican votes, six that for the maintenance of the influmembers. In combination South Omaha ence of the United States in Cuba no and the country control the committee by a majority of seven, when a just ation of large economic interests, apportionment would entitle Omaha to shared by both Americans and three times its present membership.

This scandalous gerrymander appears more striking when the fact is recalled sugar and tobacco of Cuba as will inthat the Sixth ward, which cast 1.861 votes for McKinley, has three committeemen, while the country, which cast 1.367 votes for McKinley, has and thus Cuba would become a part of twenty-eight committeemen.

Where is the blame for this outrage? First, it must rest upon the delegates fluence in the island, it is argued, be that misrepresented the Seventh and Ninth wards in the recent convention

and cast their votes to disfranchise Omaha. This betrayal of their own constituents cannot be condoned under any plea. Their preferred candidates, was taken to shackle Omaha and leave it at the mercy of the minority.

have called on him since he has been in the White House not one has gone sion and instilling belief in his sin-

cerity," says a Washington dispatch, "Mr. Roosevelt is quite as successful as predecessor." The president would not

tional fights anywhere. TARIFF CONCESSIONS TO CUBA That tariff concessions will be made

on Cuban sugar and tobacco is probably assured. The administration favors doing so and it seems safe to assume that congress will not refuse concessions. The difficulty will be to determine how far we can go in helping

the Cuban industries without doing fatal injury to American sugar and tobacco interests. The Cuban argument is that it is necessary to modify in a between the island and the United States for political as well as economic

reasons; that this country having bound itself to keep order in the island it can best secure this by fostering the wel-

fare of Cuba. It is furthermore urged means will be so effective as the cre-

liberal concessions are given to the sure the greater development of those industries American capital will go to the island and boom those industries

the economic system of the United States. Not only would American in-

thereby increased, but there would also be created a valuable market for our products. This certainly is plausible. Americans desire that Cuba shall be peaceable

and prosperous and they understand that the preservation of peace and upon the improvement of industrial and commercial conditions there. They

The rule seems to be, the nearer the sidewalk the better, and great plate glass windows with the flimslest of curtains, in many cases no curtains at all, forming the sole barrier between table, guest and the passing pedestrian, the latter having an unobstructed and most appetizing view of the entire interior, with its wealth of mural, tapestries and mirrored decorations, its gleaming tableware, faultlessly attired army of servitors, and withal the highly groomed guests. The window seats, those nearest the passing crowds, are the choicest in these palatial banqueting rooms; 'tis as in the play, the actors, men and women in the drama of feeding, all want the

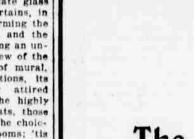

The Surplus in Nebraska. Louisville Courier-Journal.

Nebraska is a state that has been one of the worst sufferers from the corn crop failure, yet here is what an Omaha special says of financial and commercial conditions there:

are you?" "Yes," replied Mrs. Locutte, "except for a modest little bunch of flowers for the

corsage." "My dear, the most modest bunch of fowers you could wear would be about twenty-five or thirty large chrysanthe-

OUTWARD BOUND.

President Mckinley: Died September 14, 1901.

(The following verses by Edward Sydney Tylee, printed in the London Spectator, are esteemed the best that have yet appeared at home or abroad on the death of Presi-dent McKinley.)

Fareweil! for now a stormy morn and dark The hour of greeting and of parting

brings: Already on a rising wind yon bark Spreads her impatient wings.

Too hasty keel, a little while delay! A moment tarry. Oh thou hurrying dawn! For long and sad will be the mourners' day When their beloved is gone.

But vain the hands that beckon from the

shore: Alike our passion and our grief are vain. Behind him lies our little world; before The illimitable main.

none the less, about his moving bed Immortal eyes a treless vigil keep-An angel at the feet and at the head Guard his untroubled sleep.

Two nations bowed above a common bier, Made one forever by a martyred son-One in their agony of hope and fear. And in their sorrow one.

And thou, lone traveler of a waste so wide The uncharted seas that all must pass in same star that was so long thy May

guide O'er thy last voyage burn.

No eye can reach where through yon That bark to its eternal haven fares; No earthly breezes swell its shadowy sail; Only our love and prayers.

-

Then comes the new fall hat, and after that the fall suit—and no clothing fits like ours.

Then comes heavy-weight underwear, new shirts, ho-
