Adjusting Pinancial Perplexity Calls Forth Much Argument-Art and Social Doings Relieve the Tension.

(From a Staff Correspondent.) WAYNE, Neb., Oct. 9 .- (Special Telegram.)—Wednesday morning's session of the annual convention of the Nebraska Federation of Woman's Clubs was occupied with reports of the work of forty-one of the one showing enthusiasm and progress. The result of the efficient work of the extension number of new clubs that have been brought in through its efforts.

Promptly at 2 o'clock Mrs. Draper Smith called the convention to order and the first business was brought before it, Mrs. H. H. Heller of Omaha having asked the co-operation of the women in bringing a young colored woman from the south, training her for two years in the Washington kindergarten schools, and returning her to the south to teach among her own people. It was decided that each club of the state be requested to give an entertainment for the benefit of the project and that each club report to Mrs. H. H. Heller within the next six weeks the nature of the effort in behalf of the plan.

The amendment to the constitution proposed last year, providing that presidents of local clubs be members of the nominating committee, was next acted upon and carried unanimously.

The next amendment, raising the dues to the state federation from \$2 for each club of fifty or less with an additional dollar for each additional fifty members or major fraction thereof, to \$3 with the same rate for additional members, was carried with but few dissenting votes, but had hardly been so declared when it was asked when the \$1 increase would go into effect.

Don't Want to Pay Too Soon. When the president announced that the increase would have to be met at once a

good part of the women protested, as most of the clubs had paid their \$2 yearly dues in advance as required, and they held that they could not be compelled to pay the additional dollar after receiving their receipts for the other amount. The matter was referred to the parlia-

mentarian, and when convinced that the convention's action took effect at once a motion to reconsider the action was made and the vote was rescinded.

Art Session Grently Reliabed.

At this juncture the session was adjourned, as the time had arrived for the art session. Mrs. F. M. Hall of Lincoln presided at that session and one of the

A general discussion followed, but as no progress was made the convention was resolved into a committee of the whole, Mrs. Winnie Durland presiding, and the matter talked over again. Nothing was accom- the largest funerals in the history of this plished, however, and the president resumed the chair and after more discussion it was decided to add the proposed dollar. the law to go into effect after September

This adjustment will mean no disappointment to the clubs coming in this year expecting to pay but \$2. It made no provision, however, for the coming year's expense and to meet this it was voted that the financial condition of the federation be explained to all clubs and a voluntary contribution be asked for from all to meet expenses until the new law could go into

It was further decided that the nominating committee make its report Thursday morning and that the election of officers take place Thursday afternoon, after which

the convention will adjourn. Reception to All Delegates.

An elaborate reception was held this evening at the home of Mr. and Mrs. J. T. Bressler, at which the entire delegation was in attendance. In the receiving line were the host and hostess. Miss Margaret Evans of Minnesota, Mrs. E. W. Peattle of Chicago, the federation officers and the officers of the Wayne clubs. The question of finance seems to have taken precedence over all other interests and it is probable that all the old officers will be re-elected, except the corresponding secretary. Mrs. H. D. Neely of Omaha deelines to run again and in case she cannot be persuaded to accept the office Mrs. C. S. Lobengier of Omaha will doubtless prove the unanimous choice of the convention.

They present a lengthy affidavit in which they of coal over four feet in thickness at a Broken Bow as moderator. Miss Martha depth of 225 feet and that on the following day they found the second vein, measuring six feet in thickness and at a depth of 245 feet. Both veins are located in the northwest quarter of the northeast quarter of section 9, in township 13, north range 7, in Saunders county. The law providing for the award says that when it shall be made apparent to the governor that a vein of coal not less than twenty-six inches in depth and of sufficient capacity to pay to mine and within paying distance of the surface has been discovered it shall be the duty of the governor to appoint a suitable person to examine the same, whose duty it shall be to report the probable extent and capacity of the vein. T. J. Mahoney on Divorce. In response to the request of Deputy Labor Commissioner Watson for an opinion regarding the divorce law of the state T. J. Mahoney of Omaha has submitted the following:

Replying to your recent inquiry in respect to the operation of our divorce laws I would say that in my opinion the evils in that connection grow not so much out of

First-Where a divorce is sought in a state other than that in which it is claimed the cause for divorce arose it should never be granted unless it were made to appear that the ground would have been suffi-clent in the state where the wrongful con-duct it alleged to have taken place.

Scond—No divorce should be granted upon service by publication until there has been a hearing upon an application to ob-tain service in that matter and a showing made on such a hearing that it is impos-

sible to locate the defendant and secure personal service of notice of the pendency

sible to locate the defendant and secure persunal service of notice of the pendency of the suit.

Third—I believe that an amendment to our divorce laws, to the effect that the perty against whom a divorce is granted, should not be permitted to remarry would very greatly reduce the number of divorces, as the defendant would have a strong inducement to make a defense and prevent the granting of a divorce, as a mere mutter of course.

There is much wisdom in the old saw that 'too many cooks spoil the broth' if there can be some concerted effort by which the legislatures of the several states will adopt substantially uniform divorce laws, even though such laws may not be in all respects satisfacto y, it will be much tetter than continuing our present heterogereous system, unl'r which divorce may be valid in one state and invalid in another rendering narriages legal in one jurisdiction and ille all in another. The culy movement of which I am aware looking to such uniform legislation is the action proposed by the American Far association and I believe that much more good could be accomplished by pressing the suggestions of the association upon the several legislatures than can ever be attained by local or individual efforts.
