KELLY SAYS ENGLAND HAS NOT GIVEN UP

Secretary of Royal Ulaters Promises that Yankees Shall Still Have Active Competition for the Cup.

NEW YORK, Oct. 9 .- A joint meeting of the committees of the Royal Ulster Yacht club and New York Yacht club was held today at the clubhouse and Sir Thomas Lipton's proposition submitted by Vice Commodore Sherman-Crawford. He stated that his committee, on behalf of Sir Thomas, desired to ask if the New York Yacht club would withdraw in favor of Shamrock II that paragraph of the deed of gift providing that "no vessel which has been defeated in a match for this cup can be again selected by a yacht club by its representative until a contest for it by some other vessel has intervened or until after the expiration of two years from the time of such

piration of two years from the time of such defeat."

He also stated that in the event of this request being acceded to, should a challenge for next year be received from any one else, Sir Thomas would withdraw his challenge.

Commodore Ledyard stated that the mutual agreement clause gives the two clubs the right to make any arrangements satisfactory to both as to dates, courses, number of trials, rules and sailing regulations, together with any and all other conditions of the match, including waiver of the ten months' notice; but the committee of the New York Yacht club was of the opinion that the clause gives no power to the club holding the cup to accept a challenge which the instrument itself prohibits absolutely. The committee did not think it was inthe instrument itself prohibits absolutely. The committee did not think it was intended that, after a boat had had a trial for the cup and been defeated, it should be allowed to challenge again until the time specified had elapsed, and so declined to accede to the request,

Hon. Hugh Kelly, secretary of the Royal Ulster Yacht club, salled today on the steamer Majestic. He expressed himself as being perfectly satisfied with the treathad received here and the fair treatment that had been accorded Shamrock II. He said that Sir Thomas Lipton would not challenge next year, and Mr. Kelly had no idea who would. He was satisfied, however, that England would again strive to "lift the cup.

Owing to the change in the condition of the track the fifth race was declared off. Rogers last year captained the Carlisie Indian team and is ineligible to play on any other team this year, according to the rule laid down by the conference colleges. It is denied at Minnesota that his playing will be in violation of any rule of the Big Nine. They assert that Carlisle is a preparatory school, to which the rule does not apply. In view of the fact that Hudson, the phenomenal indian punter from Carlisle, was barred from the Harvard team because Carlisle was not considered a preparatory school, it is probable that Rogers will be ruled out.

Digests Dyspepsia Cure

The process of digestion is simply explained. In the mouth, food is masticated and mixed with saliva containing a digestant called ptyalin. In the stomach, it is acted upon by gastric juice containing pepsin, which digests albuminous foods. In the intestines, pancreatin is added to digest fats and starches.

Indigestion always indicates an insufficient amount of one or all of these digestants. At first thought it seems proper to abstain from foods not easily digested; but reflection shows us that while this affords relief by giving the weakened organs less to do, it only makes them weaker by giving them less nourishment.

If you suffer from indigestion, the only right thing to do is to eat a generous variety of food and digest it by using such a preparation as Kopol Dyspersia Cure, which contains all the known digestants, and completely digests what you eat.
