DEFINITE NEWS OF BRIGANDS AWAITED

Correspondents at Turkish Capital Are Still Unable to Report Anything Definite of Miss Ellen Stone.

LONDON, Oct. 13.-The Reuter Telegram company has received the following dispatch from Constantinopie, dated October

"There have been no further developments in the case of Miss Ellen M. Stone the abducted American missionary. It is reported that Spencer Eddy, secretary of the United States legation in Constantinople, received today a dispatch from Washington advising him that a sum of money which should suffice for the ransom would be forthcoming."

The text of Reuter's advice is ambiguous. The Daily Telegraph has the following dispatch from Sofia, dated Sunday:

Seems a Contradiction

"United States Consul General Dickinson has received no instructions to pay the ransom. He is afraid a dangerous precedent would be created by payment, As he is now fully convinced that the brigands were merely instruments acting under the instigation of late members of the Macedonian committee, he has made strong representations to the Bulgarian government, asking the arrest of these instigators. Should this be done, he says, Miss Stone would doubtless be released on payment of a moderate indemnity and assurance of freedom from her captors. Some Macedonians have already been arrested here.

ON THE POPE'S ANNIVERSARY

Consistory of the Catholic Church at Rome Probable in February.

WASHINGTON, Oct. 18 .- In well-informed Catholic circles here it is believed that the next consistery of the Roman Catholic church at Rome will be in February, when Pope Leo attains the twenty fifth year of his reign. While there have been no definite advices to this effect it is thought likely that this assembly will open Two Relieve a Bank While Their Pat | the jubilee to signalize the closing of the quarter-century of Pope Leo's regime and that he will take advantage of it to deliver an allocution, taking a strong position of the question of assassination among other things. Cardinal Martenelli will retain office here until time for the consistory. In view of his past experience it is quite likely that Cardinal Martenelli will be assigned in Rome to the congregations of the holy office, known as the "inquisition," which watches the morals and discipline of the church and the propaganda, which deals with the propagation of the faith. Cardinal Martenelli and two or three of the newly-created cardinals and possibly several cardinals and bishops who may in the meantime be created will receive the red hat at the public session of the coming consistory

BALTIMORE, Oct. 13.-The Sun today prints the following: "The Sun has been for some'time in possession of information gained from one in close touch with the Vatican that no new cardinals will be created at the coming consistory, but if any names are presented no prelate in the United States will be honored.
