Deputies as Committee of the Whole Fass Prohibitory Measure.

BISHOPS SETTLE HAWAIIAN PROBLEM

Islands Are to Form a Separate Missionary District in Charge of an Appointed Bishop After April 1.

SAN FRANCISCO, Oct .14.-The house of deputies of the Episcopal church of America, sitting as a committee of the whole, to day adopted the proposed canon prohibiting the marriage of divorced persons for causes not arising previous to their former marriage. The canon was adopted just as it came from the house of bishops. The vote stood 182 for, 156 against.

The amendment of Dr. Huntington of New York, making an exception in the case of the innocent party to a divorce granted on in the committee of the whole was reported to the house of deputies, who will vote on the matter. The result, however, may of thirty delegations is required to carry measure, the divided delegations virtually counting among the nays. No time was set for a final vote by the house, but it will presumably be taken tomorrow

### Arbitration Committee.

Previous to this action in committee of the whole the house of deputies adopted bringing about the results anticipated. the resolutions presented by Dr. McKim of Washington, providing for a standing joint committee of both houses to consider the relations of labor and capital. It is to consist of three bishops, three presbyters and three laymen and shall report its proceedings to each general convention.

The afternoon session of the house of deputies was held behind closed doors and was devoted entirely to consideration and voting on the five nominations for missionary bishops handed down to the house of bishops. The election resulted as fol-Spanish vessels inside the harbor. He gave lows: Rev. James Addison Ingle, district the names of those vessels, saying they of Hankow; Rev. C. H. The only nomination rejected was that of Rev. Charles C. Campbell Pierce to be missionary bishop of North Dakota. Bishops Reorganize Hawaii.

The house of bishops, so far as its action goes, has settled the Hawaiian church problem, through the conference of its committee, consisting of the bishops of Pennsylvania, South Carolina and California, with Bishop Willis of Honolulu. The terms of settlement in brief are the resignation of the bishop of Honolulu, to take effect the 1st of next April: the formation of the Hawaiian islands into a missionary district, to be placed for the present in the court should adjourn. Accordingly the charge of a bishop designated by the presiding bishop.

The house of bishops took the report of the joint committee on revising the canons. It was decided to limit the time for the election of a bishop to three months. If the dioceses voting are not heard from in that time the result is to be announced.

The next decision reached was that if missionary becomes permanently disabled his position may be declared vacant. It was agreed that before a bishop for a foreign country is chosen the bishops must have evidence that he has been duly elected and will follow a form of worship in accordance with established usage.

In case of disagreement between a bishop and a parish it was voted that in the future a council of conciliation may be called a bishop resigns between sessions of the general convention the house of bishops shall meet as a house to consider the resig nation. The bishops adopted a canon providing that no woman can be formally set apart as a deaconness until she has attained the age of 20 years and declaring that marriage renders her position vacant. The remaining portions of the report on canon was recomitted by the bishops to be

### reported to the next general convention. On Marginal Rendings.

The house of bishops agreed to the committee report of marginal readings already accepted by the house of deputies. The following amendment to article x of

the constitution was adopted: Provided. That nothing in this article shall be construed as restricting the authority of the bishops of the church to take such action as may be provided by the rubries of the book of common prayer and by the canons from the general convention for the use of special forms of worship. This is intended to apply especially in cases of Swedish congregations in the

northwest. The bishops having declined to divide the dioceses of Springfield and Kansas it was agreed to appeal for the application of more funds from general appropriations for missionary work in these dioceses and also to ask for special concessions.

Sweden Talks to the Lima

Convention.

LIMA, O., Oct. 14.-The biennial session of the Evangelical Lutheran church of North America was honored today by a visit from Royal Bishop von Scheele, special emissary from the Lutheran church of Sweden and representative from King Oscar II. When the bishop reached the church business was suspended and he was welcomed in an address by Dr. Ranzeen in English and Dr. Shafer in German. Bishop

Scheele responded in German. He said there was one desire in his heart, and that was for unity in the Lutheran church, but it must be awaited with patience. Dr. Horn of Reading, Pa., chairman of the special committee to which the report of the committee on foreign missions was referred, reported that after examination of witnesses and reports they found the trouble in India was with the senior missionary. They recommended that only missionaries of experience in the church were wanted, even at more expense, and that

they be from their own church and be English speaking workers. Resolutions were adopted to that effect, starting a discussion of the resolution to recall Dr. Schmidt, who for thirty years had been in charge of the India work. Dr. Shafer opposed the resolution, declaring it to be an injustice to Dr. Schmidt. The question had not reached

a vote at the noon hour.

The statement that 200,000 Scandinavians in the northwest are looking toward the Protestant Episcopal fellowship made recently in San Francisco was emphatically denied by Rev. Ranzeen, president of the council, and the leader of the Augustana synod, the largest Scandinavian body in America. Dr. Ranzeen said with great emphasis: "As far as I know, as far as our pastors scattered throughout America know and as far as our synod knows there is absolutely no truth in the statement made at the Protestant Episcopal convention in San Francisco that there are thousands of Scandinavians waiting to be welcomed into the Protestant Episcopal church

The principal address of the morning session was delivered by M. E. Farris, a young man who has spent the last few years in missionary work in the Congo Free State. Mr. Farris was very severe in his denunciation of the Pelgian government, which administers affairs in the Congo, claiming that the government was corrupt from top to bottom. He had seen natives shot for failing to turn in their per capita tax of rubber, even when they lived in districts which produced none of that commodity. Furthermore, the government officials did everything in their power, unofficially to hinder the missionaries in their
