BEST MILE THE ABBOT CAN DO IS 2:04

Geers Says His Horse is Not at His Best and Will Try Again There Saturday Afternoon.

MEMPHIS, Oct. 23.—Another world's record was broken this afternoon at Billings' park, when Audubon Boy stepped a half mile in 1:00 1-4. This was accomplished in the first race, a 2 1/2 class racing event, under what is known as the Memphis plan.

Geers brought The Abbot out for an attempt to lower his record of 2:03 1/4. After giving the horse easy quarters the driver sent him away at a fast clip, accompanied by two runners. The quarter was passed in 0:32, half in 1:03, three-quarters pole in 1:33 1/2 and the wire was reached in 2:04 flat.

OMAHA SPORTSMEN COMPLAIN

They Assert that Deputy Game Warden at Valentine is Unreasonable.

DEPUTY LIMITS GAME TO FIFTY BIRDS. When Applied to Market Hunters, However, Valentine Authority's Construction of the Law Meets with Approval of Sportsmen.

Omaha sportsmen are complaining against the deputy game warden at Valentine and the action of the railroad conductors and the agent at that point as a result of the instructions of the deputy. Several parties who have gone after ducks on the lakes around Valentine say that the deputy at that place has a peculiar way of construing the law, and that he has persuaded the railroad men to refuse the ordinary accommodations secured by sportsmen in other years.

The state law provides that hunters may have in their possession and take from the county fifty ducks and fifty other birds. The game warden at Valentine will not permit this, insisting that fifty birds of all kinds can be taken from the county. The agent at Valentine, when I came down, refused to check my game, and the officials on the train refused to let me put it in the baggage car.

Bert Porterfield had even more difficulty in getting away from Valentine with his game before going to the city. He was told that he would have to check his game, and in addition to this had a note from one of the general officers of the road asking that favors consistent with the service be shown him. According to the report which has reached Omaha, when he attempted to leave Valentine the agent refused to check his game, and he placed it in the smoking car.

There is one phase of the work of the Valentine deputy which comments itself to the Omaha sportsmen, and that is in spite of its lack of warrant of law, and that is his contention that only fifty birds can be held in one day by an individual. By the express terms of the law a hunter can have in his possession 100 birds, and this number is sufficient to warrant market hunters coming to the city with game and making a game market, which the law seeks to abolish.

A market hunter who was in the city yesterday made no secret of his intention to bring birds to the city if he is permitted to have in his keeping 100 at a time. The enforcement of the law has increased the price of prairie chickens at the market to \$6 per dozen and ducks to \$5.50. The profit which can be made in handling 100 birds will repay a trip costing \$2, while with fifty birds the market hunters could make a profit under no circumstances, as railroad fare would consume the entire revenue.

Once again the Omaha High school football team has changed the location for its games on the home side of the schedule. The latest is that all games here will be played on the gridiron at the Young Men's Christian association park at Twenty-fourth street and Ames avenue.

When the announcement came that the street park had been selected as the site for the games the Young Men's Christian association people objected and the previous agreement was brought out. Then in order to avoid any action that might even seem like evading a contract, it was decided to take the contests out north. Therefore the Des Moines High school eleven will be entertained at the Ames avenue park next Saturday afternoon.

OMAHA, Oct. 23.—To the Editor of The Bee: In the Evening Bee of October 21, Charles S. Elgutter had an extremely courteous and just criticism upon conditions which appeared to him to favor professionalism in High school athletics. No one can be more grateful to him for this criticism than I, for the notices in the papers of Saturday evening and Sunday morning announcing the assumed management of High school athletics by an outside party came as a complete surprise to me and indicated a condition wholly at variance with the settled policy of the High school.

The faculty of the High school has complete supervision of athletics. It has made strict requirements as to attendance and scholarship as grounds for eligibility to represent the High school in athletics. To both of these requirements the boys have loyally given sanction and have so strenuously striven to meet them that at this time there is not a boy on the team who is not in good standing in his classes or who is not a gentlemanly representative of the school.

There is in the school an advisory board composed of members of the faculty. This board has control of all matters affecting athletics. To it the manager, who must be selected from the school, submits his schedule of games and by it is governed in all matters not specifically covered by the provisions of the association constitution.
