ARGENTINA'S REPORTED RAIN IS A FACTOR

it Knocks the Props from Under Wheat, Causing a Fractional Depression Spreading to the Other Commodities.

CHICAGO, Oct. 28.—Rains in Argentina and bearish weekly statistics depressed narkets today and December wheat closed surject lower, December corn is down and series today and December outs a shade lower. Provisions dosed for to 20c depressed.

Lower cables brought the depression to wheat at the opening, December starting for lower at 71 set to 71c. Report had it hat there had been good rains in Argentina and at once there was a general iquidation, not only of long accounts, but use for short sellers. The world's visible supply had increased and the world's shipments had decreased and there was an atmental to press the market under 71c. No sooner had the buil clique gotten rid of their wheat, however, than there came reports that the rain was in provinces where it was not needed and December 20ck a quick apturn. It only reached 71%, 571%, however, and when the pit showed signs of growing daliness prices eased for again to 71c. December closed weak, 1673c lower, at 713c. Local receipts were 20 cars, one of contract grade. Minneapills and Duluth reported 293 cars, making a total for the three points of 1.123 cars, against 1.127 last week and 1.339 a year 1.60. Corn started weak, because of the selling pressure in wheat, but turned up alightly as soon as the other pit began to recover. December opened \$45 \text{\text{\$\sigma}} c lower and fluctuated narrowly on a dull market. There was some changing of December for May, but nothing influential. December lossed casy, \text{\text{\$\sigma}} c lower at \$55 \text{\$\text{\$\sigma}} c. Receipts recover. December opened and the control fluctuated narrowly on a dull market. There was some changing of December for May, but nothing influential. December losed easy, we lower at 56%c. Receipts were 185 cars.

A fair cash demand kept the oats pit fairly firm and independent of other markets. When other pits were at their weakest there was no pressure to sell and the growd favored the long side. December opened 4c lower on wheat influence, but advanced to 36%g33%c and cased off only in profit-taking a shade lower at 36%g33%c. Receipts were 182 cars.

NOT TO BE WORLD BEATER

Thirty-Two Hours, Not Twenty-One, to Be Union Pacific Time to Ogden.

The special story sent out from Cheyenne is characterized by Union Pacific pas-senger department officials as being absurdly untrue. In referring to the new schedule which goes into effect next Sunday, it says that "one train will be made the fastest regular passenger train service on any road in the world. Train. No. 8 will be the fast train, and it will maintain an average speed of fifty-five miles an hour, exclusive of stops. The time from Omaha to Ogden will be twenty-one hours, which is four hours faster than the time now

made by the Union Pacific's fastest train.
