COMMERCIAL AND FINANCIAL

Professionals Brace Corn and Oats by Starting Buying.

FORMER COMMODITY BECOMES LIVELY

Wheat Market Has It Down at th Opening, but Liverpool Cables

Induce Bulls to Take a

CHICAGO, Oct. 29.—Buying by profes-sionals gave corn and oats strength inde-pendent of a sagging wheat market today and December wheat closed 140% lower, December corn 140% higher and December oats 140% advanced. Provisions closed 340 lower.

and December wheat closed 197%c lower, December corn 197%c higher and December oats 197%c advanced. Provisions closed 20 lower.

Jorn developed the most activity it has anown in a week, mainly on a drive by the suil clique. Influenced by a depressed wheat opening December started unchanged to a shade lower at 55%c to 55% 45%c. Liverpool cables indicated a comfortable increase in prices and when there was a considerable demand by shippers and commission houses and but a scantily supply wherewith to fill it the buils started in to push prices upward. The sagging wheat market retarded this advance at times, but December sold to 57%c just before the end of the session, closing firm 197%c. Cables were indifferent in the wheat market at the opening and December started unchanged to a shade lower at 71%71%c. Early advices had it that drouth still continued in Argentina and prices rose a shade from the opening figures. A quantity of long wheat was absorbed before cables announced the end of the drouth and then there was a scurry to unload. Under this pressure and influenced by a dull market prices declined, being steadled at times only by the strength in corn. December sagged to 70%470%c and closed weak, 60%c lower at 70%470%c. Local receipts were 240 cars, 2 of contract grade. Minneapolis and Duluth reported 859 cars, making a total for the three points of 15,109 cars, against 92 last week and 767 a year ago. Primary receipts were 1,250,000 bushels.

Oats were fairly active early, following the lead of corn. Scarcity of offerings was the early feature and December opened a shade higher. Shippers and commission houses started the buying and were soon joined by professionals. December sold between 35%c and 36%c. Receipts were 219 cars.

Provisions experienced a dull, narrow market. Liberal receipts of hogs started an early decline, and free offerings of large quantities prevented a support on the strength of the coarser grains. French and English packers were the best buyers. January prok closed 2%c lower at \$14.90, Jan

MOVEMENTS IN STOCKS AND BONDS.

Northern Pacific Possibilities Give Brokers Another Day of Suspense.

NEW YORK, Oct. 29.—The pressure by the professional operators in stocks yesterday seemed to be considerably relieved today. Their professional bretheren of bullish tendency added the incentive of lively bidding up here and there. As a consequence a considerable demand to cover short contracts made the market strong during the early part of the day. It was argued that with the easier tone of exchange and the moderate views expressed as to gold requirements by the authorities of the Bank of France, the prospect of an onsiaught Thursday of this week was considerably lessened.

The announcement just before the close of the market of an engagement of \$600.000 in gold for shipment on Thursday precipatated a sharp realizing movement and wiped out a good part of the earlier advances. Another \$2,000.000 engagement was announced after the close.

It was notable that stocks that were weakest yesterday were foremost, as a rule, in the recovery today. The recovery did not reach to the full extent of yesterday's loss at any time. The upward reaction was achieved also on considerably smaller volume of business.

There was an expectation this morning among the small speculators at least that formal announcement might be made during the day of an adjustment of the Northern Pacific difficulty. This expectation was again disappointed. Competent observers of the situation believed that this might be a daily incident for some time to come, as consultations on this subject are constantly held, but with much to be agreed upon.

Among the day's special movements the sensational rise in Michigan Contral re-Brokers Another Day of Suspense.

as consultations on this subject are constantly held, but with much to be agreed upon.

Among the day's special movements the sensational rise in Michigan Central revived the rumors of coming developments in the Vanderbilt group and was reflected in sharp advances in other members of the group. Michigan Central sold yesterday at 116, an advance of several points over the preceding sales in last March. Today it sold in 100 share lots successively at 118, 120, 125, 135 and 140, after which it relapsed to 130. No explanation was forthcoming of the movement.

In consonance with the upward movement of prices the prevalent view of the money outlook was less pessimistic, although conditions in that market remain the same. A number of favorable conditions which were ignored yesterday in the selling movement came in for consideration, especially the continued trade activity as reflected in the large bank clearings throughout the country and the sustained increase in railroad earnings. Reports today of September net earnings showed an increase over September of last year of

SHEEP—The receipts of sheep were liberal again today, making the supply for the first two days this week considerably in excess of the same period of last week. The way in which packers and feeder buyers have handled the offerings of this week is considered a good indication of the fact that they are anxious for supplies. Everything has been taken by local buyers, so that in spite of the record-breaking run of yesterday nothing was shipped east to other markets.

As soon as the arrivals today were offered on the market packers started in and bought everything at all desirable at good, steady to strong prices and it was only a few minutes after the market opened before everything in the way of fat sheep and lambs was out of first hands.

Feeder buyers were also active and they

hands.

Feeder buyers were also active and they were particularly anxious for the sheep and paid fully as good prices for them today as they did yesterday. Feeder lambs also sold just about steady, but still they did not move quite as freely as they have on some days, probably owing to the liberal receipts of the last two days.

to the liberal receipts of the last two days. steers in the yards this morning and packers were tout early and bought up everything at all desirable at strong prices and in some cases sales looked considerably higher than the same kinds have been selling for of late. The commoner kinds, while not in as active demand as the better grades, sold for fully as much as they did yesterday.

There were right around sixty cars of cows and helfers on sale today, but the demand was fully equal to the supply, so that trade ruled active and steady to strong prices were paid all around. The same as was the case yesterday, the market looked considerably higher in spots and the situation could probably best be described by calling the market strong and active.

Bulls, calves and stags were also in good request this morning and strong prices were paid for anything desirable.

Stockers and feeders made up a good proportion of the receipts this morning and the quality of the general offerings was not particularly good. The few good to choice heavyweight feeders and also the choice yearlings sold without much trouble at right close to steady prices with yeaterday, but the commoner kinds were neglected and in most cases sellers had to take a little less for them than they have been selling for of late.

There was an active demand this morning for western beef steers and the market could be quoted strong and active. The better grades in some cases sold a little higher than the same kinds brought yesterday. Range cows also commanded good strong prices, but stockers and feeders were slow and lower except where the quality was very good. Representative sales:

MAY EXTEND TO THE COAST Tour of Inspection by Rock Island Officials Revives Report of Extension.

The tour of inspection which the officers and directors of the Rock Island are now making over the lines of the company in the west and southwest has given a fresh impetus to the reports that it is the inten-tion to extend the road to California.

The Rock Island's extension southwest from Liberal, Kan., to El Paso is nearly completed and will be opened for business by January 1. This extension, in connection with the Southern Pacific, will give the Rock Island a line from Chicago to Los Angeles nearly 200 miles shorter than the Santa Fe and a still further reduction in mileage can be made if an independent route west from El Paso is built. Surveys for such a line, it is said, have been made as far west as Yuma. The line is to run through Phoenix, Ariz., and the people of that place are making great efforts to induce the Rock Island to build the road, as Phoenix is not now on any direct line, but can only be reached by branch lines of the Southern Pacific and Santa Fe roads. Several short lines between El Paso and Phoenix have lately changed hands and are

Island interests.

During the last week there have been conferences between division superintendents and managing officers of several of the largest western systems for the purpose of devising ways and means for handling the tious manner.

The superintendents of all divisions of the week and conferred with the general freight agents and with President Earling regarding improved methods for handling freight

On the Burlington orders have been given that through freight trains make as few stops as possible, cutting out stops at all but the important points. On this line all make few stops and these trains will be followed by others that will attend to the "pick-ups."

The following promotion and appointment on the Milwaukee road have been

G. R. Morrison, who has been trainmas-ter of the Racine & Southwestern division and of the Illinois division, has been appointed superintendent of the Chicago & Council Bluffs, the Illinois and the Racine & Southwestern divisions in Illinois, with headquarters at Savanna, Ill. He is a brother of W. R. Morrison, confidential man

in the president's office.

F. D. Tucker has been appointed trainmaster of the Chicago & Council Bluffs, the Illinois and the Racine & Southwestern divisions in Illinois, with office at Savanna. A Fort Dodge dispatch says it is rumored on excellent authority that the Illinois Central railway will, on the first of the month, put on two new trains, running over the Minneapolis & St. Louis railway, to Minneapolis and St. Paul. One train, it is said, will run to Omaha via Fort Dodge and the other will leave the Minneapolis & St. Louis-at Albert Lea and will run to Chicago via Waterloo and Lysie.
