### Quarantine Against Winnebageos.

SIOUX CITY, Oct. 30.-Reports received in this city indicate that twenty Indians have died of smallpox in the past ten days on the Winnebago Indian agency in northwestern Nebraska. The disease has spread rapidly and it is estimated from 200 to 250 are stricken. The cases are near Big Bears' Camp, near the Missouri. Homer, Dakota City and Wakefield, Neb., and Sloux City, Sloan and Salix have quarantined against Winnebagoes. About a month ago Dr. Hart, the agency physician, consulted with Agent Mathewson and began at once trying to vaccinate the indians. They rebelled and as a result thousands of them were not vaccinated.

After many years of patient study and system. After many years of patient study and work I have discovered a means of Sup-plying Electricity to Weak Systems which will not fail to cure. My Electrical Ap-pliances are used in every known part of the world, and I am daily in receipt of letters from now cured and happy pa-tients praising them. I call my Electrical Appliance an "Electric Belt." because that is really the proper name for it, as the Appliance is worn around the body as a belt; but do not confuse my discovery with the many contrivances, so-called elec-tric belts, which are now being offered the public in great variety on the reputation of my Belt. I owe my success entirely to the sterling worth of my Appliances. My Electrical Appliances have soft, siken, chamols-covered sponge electrodes which do away with that frightful burn-ing and bilistering caused by all other electric belts if they give a curent. Mine has interchangeable battery cells and can be remewed when burned out for only 75c; when others burn out they are worthless. **FAILING DOWFD** MISSOURI VALLEY, In., Oct. 30 .- (Special Telegram.)-One of the heaviest rainfalls in years occurred here this evening.
