PERSONAL NOTES.

Queen Liliuokalani has sent to Father McGee of Washington an altar cloth

worked in gold with lace trimmings. Henry Watterson will be one of the guests at the annual dinner of the Boston Merchants association, which will occur in

November. Admiral Schley's clear, graphic, yet unpretentious description of the battle of Santiago has brought him a host of invitations to speak in different cities.

Dr. Edmund J. James, head professor of political science in the University of Chicago, may receive a nomination for alderman of the Seventh ward of Chicago. It is intimated that soon after the pending mayoralty election in New York Richard

Croker will retire from politics. Should Shepard be defeated Tammany would probably force the leader out whether he likes it or not; should the result be otherwise

I wish I'd kept a record of the things that mortgage ate,
In principal an' int'rest, from beginnin' down to date!—
A hundred dozen chickens, likely fowl with yellow legs,
A thousand pounds of butter an' twelve hundred dozen eggs,
Some four or five good wheat crops, an' at least one crop of corn,
An' oats, an' rye-it swallowed in its life-time, sure's you're born,
Besides the work an' worry, ere its appe-tite was staved!

We've reached the point, I reckon, where we've got a right to rest.
An' loaf around, an' visit, wear our-go-to-meetin' bestNeglectin' nothin' urgent, understand, about the place,
But simply slowin' down a bit, an' restin' in the race!
In time I'll get the windmill I've been wantin', I suppose;
The girls can have their organ, an' we'll all wear better clothes.
For we've always pulled together, while we saved an' scrimped an' prayed.
An' it seems there's more to work for since we got the mortgage paid.

American knowledge of him is so vague that it is fairly well summed up by the description on the biographical file of one of the daily news papers, where he is described as: "Name Leopold; business, king; residence, Belgium."

Fishing in ash barrels for rags and old tin cans, although the pockets of his tattered clothes were filled with money, a little bent man was found one evening last week and taken to Bellevue hospital for examination as to his sanity. There he gave his name as Oscar Rels of 103 East Houston street, and the man who accompanied him, John McGee, asked that he be committed to an institution.

At the hospital the attendants saw nothing unusual in the little, old man, but they had a surprise a few minutes later

when they started to make a search of Reis' clothes in order to place his belongings in safe keeping. In every pocket he money. From his ragged trouser pockets they took more than \$500 in bills ranging from tens to twentles. His coat pockets contained several hundred more; bills were stuffed into his waistcoat, and upon turning out one of his back pockets a flood of coin-nickels, quarters and half dollars-poured upon the floor.

When the little mint had been fully ex plored it was found that the sum total of the man's money amounted to \$1,187. Me-Gee explained that he had known Reis for a number of years, and that the man's eccentricities, slight at first, had so increased that it seemed best to have him sent to some institution for safe keeping.
