Acid dyspepsia, commonly called sour stomach or heartburn, is caused by slow digestion of food; instead of being promptly digested and converted into blood, bone and muscle, it lies in the stomach for hours, fermenting and decaying, creating gases which cause pressure on the lungs and heart, short breath and general discomfort

Such half digested food is indeed poor nourishment for the body, brain and nerves and the result is shown in irritable tempers, unaccountable headaches and that depressing condition usually called the "blues," but how quickly all these disapnear when appetite and digestion are re-

Laxative medicines only irritate the already irritated stomach and bowels and have no effect upon actual digestion of The sensible course to follow is to make

use of simple natural digestives like Stuart's Dyspepsia Tablets after meals until the stomach has a chance to recuperate. The natural digestives which every healthy stomach contains are peptones. diastase and Hydrochloric and lactic acids and when any of them are lacking the trouble begins. The reason Stuart's Dyspepsia Tablets are so valuable and succensful in curing stomach troubles is because they contain, in a pleasant concentrated tablet form, all these absolutely necessary essentials for perfect digestion and assimilation of food,

Library Fond Proposition Comes in for Mere Objections.

Further Effort to Secure Grading for J Street-Engineers Prepare for Swift Extension - Gossip of Magle City.

There seems to be more talk these days about the library bond proposition than the regular tickets. While some favor the issue, others object. Some of the objections are given in the letter which Hon. David Anderson sent to The Bee yesterday. The letter follows:

David Anderson sent to The Bee yesterday. The letter follows:

To the Voters of South Omaha: For nearly fifty years I have been casting my ballot and wielding my influence in tavor of public improvements and public policy, when the people were generally benefited by such enterprises, but on the question of voting and issuing bonds in the sum of \$5.00 to purchase a site whereon to erect a building to contain the Carnegle library I fall to see the realization of any good results to accrue to our citizens and taxpayers. I hope, therefore, every voter will thoroughly investigate this important question before depositing his ballot on Tuesday next. If this is done, I verily believe the proposition will be overwhelmingly defeated. I herewith offer some logical and potential objections to the project as presented by the doner, Mr. Carnegle.

First, he proposes to donate to the city of South Omaha \$50.00 for the erection of a building for a public library, but this gift is offered with two very objectionable features or conditions attached, as follows: That the city must purchase a site to cost not less than \$5.000. Upon this point, it is very doubtful if a suitable site in a prominent part of our city can be obtained for this amount of money. It is also stipulated that our people shall be burdened with a special "perpetual" tax of \$5.00 per annum to support and maintain this institution. This means for all time a lien or mortgage against every home and block of real estate in our city.

Now, I appeal to the thoughtful homeowners and business men to talk and think this matter over and see if you can reasonably conclude that the benefits to be derived by this magnificent gift with a string attached will justify us in inflicting upon ourselves and those to follow us, with this unwarrantable and everlasting debt.

Again, South Omaha city library any kind of literature they may desire.

A few lucrative offices or soft jobs would naturally be created, such as librarian and

this or the Omaha city library any kind of literature they may desire.

A few lucrative offices or soft jobs would naturally be created, such as librarian and assistant, a janitor, etc., and perhaps a board of managers, who would expect a good-fee for their services. These positions, I presume, would be filled through political manipulations and influence somewhat after the style practiced by the Board of Education in employing officers, teachers and janitors. But I have faith in the wisdom and good judgment of our citizens and know that they denounce and condemn that they denounce and condemn unbusinesslike and reprehensible

methods.

Citizens and voters, after carefully considering every feature of the bond issue. I hope and believe that when you enter the little booth on election day you will conclude to vote "No" on this unjust and unworthy proposition.

D. ANDERSON.

Inspection Completed.

The expert accountants employed to check the books of the school district have completed their labors and are now preparing a tabulated report to be presented shortly. The expert employed by the Board of Education will naturally make his report to the board, while Mr. Crawford will render his report to the so-called Taxpayers' league. Just what discrepancies, f any, the experts have found is not known, but members of the investigating committee have agreed to give certified copies of the expert's report to the press ome time this week

Grading J Street.

Another effort is being made to have J street, from Twenty-fourth to Twenty-fifth | criminals. streets, graded. A petition has been in circulation for some time and it is understood that about enough signers have already been secured. By the grading of this hill and the laying of sidewalks the approach to the First Presbyterian church will be greatly improved. Rev. Dr. Wheeler and members of the church, as well as property owners on Twenty-fifth street, are anxious to see this work commenced as soon as possible. It looks now as if something would be done before winter sets in.

Walks About Completed.

City Engineer Beal stated yesterday that the permanent sidewalks on Twenty-fourth street would be completed about the middle of the week. These walks extend from A street on the north to Q street on the south On account of the good weather the contractors have been enabled to push the work much more rapidly than they expected. Brick walks predominate and these have been laid at a cost of about 9 cents per square foot.

Engineers Again Making Sketches. Several civil engineers from Chicago worked yesterday at the Swift plant making sketches of the ground for the big buildings soon to be erected. From the drawings made yesterday the working plans for the structures will be made. It was asserted last evening that material is now being ordered and that the buildings

will be pushed to completion. Women Will Meet.

On Monday afternoon the women of South Omaha who are interested in the library bond proposition will meet at the First Methodist Episcopal church, Twenty-third and N streets, to devise plans for election day. It is the desire of the women interested in this movement that the bond proposition be carried and arrangement will be made at this meeting for the work to be done at the polls on election day Committees of women will be stationed at each of the voting precincts to work for the bonds.

"BEFORE BABY IS BORN."

A Valuable Little Book of Interest to All Women Sent Free

Every woman looks forward with feelings of indescribable joy to the one event in her life, compared with which all others pale into insignificance. How proud and happy she will be when her precious babe nestles on her breast-how sweet the name of "Mother." And yet her happy anticipation is clouded with dread of the pain and danger of the ordeal, so that it is impossible to avoid the feeling of constant fear. The danger and suffering attendant upon being a mother can be entirely prevented, so that the coming of the little stranger need not be looked forward to with fear and trembling. Every woman who reads this paper can obtain absolutely free a valuable and attractive little book entitled "Before Baby is Born." by sending her name and address to the Bradfield Regulator Co., Atlanta, Ga. This book contains priceless information to all women and no one should fail to send for it.

ECZEMA'S ITOH IS TORTURE.

Eczema is caused by an acid humor in the blood coming in contact with the skin and producing great redness and in-flammation; little pustular eruptions form and discharge a thin, sticky fluid, which dries and scales off; sometimes the skin is hard, dry and fissured. Eczema in any form is a tormenting, stubborn disease, and the itching and burning at times are almost unbearable; the acid burning humor seems to coze out and set the skin on fire. Salves, washes nor other external applications do any real good, long as the poison remains in the blood it will keep the skin irritated.
