STOP PAVING TILL SPRING

Only Two Blocks Are to Be Done This Beason.

RRICKMAKERS ARE WHOLLY AT FAULT

Contractor Wickham is Not Binmed by the Councilmen - No Material Procur-

With the completion of the two blocks on South Sixth street from Broadway to Willow avenue, no more paving will be attempted this year. This statement was made by Contractor Wickham yesterday. The lower course of home-made brick has been laid on these two blocks on South Bixth street and Contractor Wickham expects to obtain sufficient Galesburg brick this week to finish the top course. When this is done he will suspend all paving operations for the winter.

No attempt will be made to pave Harrison street this winter, as not only would the weather be likely to interfere, but the main obstacle is the lack of Council Bluffs brick with which the street is to be paved, upper and lower courses. There is a little work to be done on Glen avenue, but this will be completed in a few days. The streets in the Fourth ward which have been plowed up will have to remain in that condition until spring, much to the annoyance and discomfort of the abutting property owners and the public at large.

The failure of the Galesburg brick manufacturers to supply the material needed here is responsible for Wickham's inabil-Ity to complete his contracts this year, and the city officials are not inclined to lay the blame at his door.

Contractor Wickham said yesterday: "I shall stop all paving when the two blocks on South Sixth street are finished, as it will be impossible for me to continue without brick, and it is more than likely the weather conditions will be such as to make it impossible to do any more work on the streets this year. I expect the Galesburg people, as soon as they get their plant running again, will begin shipping brick here, so that when spring opens I will have all the brick necessary to go ahead and finish the streets in the Fourth ward. Except for the crossings the Fourth ward streets are today in better condition for travel than they were with the old rotten cedar blocks. The suggestion that I lay the bottom course of home brick on these streets is not practicable, for the reason that travel over them during the winter would disturb the brick so that in the spring it would be necessary to relay them all

Board Will Renew Its Effort to flave Them Put on Merriam Block.

At the monthly session of the public of fire escapes for the building. The Merriam block, in which is the public library, was one of the several buildings in this city on which fire escapes were ordered placed, but up

to date no attempt has been made to comply with the city ordinance. At a meeting of the library board two months ago Trustee Baird was appointed chairman of a committee to lay the matter before Mr. Merriam, owner of the building, and request that he at once have escapes erected on two sides of the rooms occupied by the library. Trustee Baird notified Mr. Merriam of the action of the library board, but the fire escapes have

not made their appearance yet. It has been suggested, Mr. Baird says. that on account of the four entrances to the Merriam block, fire escapes are not needed, but Trustee Baird thinks otherwise. He believes that the building, especially that portion occupied by the library. should be provided with at least two fire escapes. At the meeting of the board this afternoon he will recommend that the matter be laid before the city authorities, with a view to having the provisions of the city ordinance enforced.

JUDGE WITHOUT A BENCH

Davesport Elected Judge of Superior Court, but Decided Not to Have the Court.

Conventions of Various Kinds to Be Held-Dedication of New Church -A Fortune for an Old Soldier.

(From a Staff Correspondent.) DES MOINES, Nov. 10 .- (Special.) - A pe uliar situation has developed in regard to one of the men elected to office last Tuesday in Iowa. He is elected, but the office to which he was chosen was not estab lished. This was in Davenport. An effor was made to establish a superior court for the city of Davenport. There are su perior courts in Council Bluffs, Keokuk and Cedar Rapids and at one time there was a superior court in Creston. The Creston people found it to be a costly luxury and abolished it long ago. In each of the cities where the superior court is now located there is excuse for it on the theory that the county seat is elsewhere in the county, at least a part of the time. A petition was presented to the city officials for the establishment of a superior court in Davenport and a vote was ordered thereon. The law provides that judges of such courts must be elected at the regular elections for judicial officers, hence if the court should be established without electing a judge it would be two years before a judge could be elected. It was then de cided that the voters must also vote for a judge of the superior courc. George E Hubbell, a popular lawyer, was nominated by a bar convention and placed on all the tickets and was accordingly elected superior judge for Davenport. But at the same election the voters voted against establishment of a superior court. This leaves him elected to an office which does not exist. Whether be san secure his certificate of election and go on the pay rolls of the state has yet to be settled.

NEW YORK, Nov. 10.—The outdoor cycle racing season in the cast was brought to a close at the Vallsburg track, Newark, N. J. today. One of the best races of the day was the half-mile handicap, in which many of the prominent professionals took part. Frank L. Kramer, the national champion, won the race after a spirited finish with Freeman and Butler. Kramer was half a length before Freeman, who beat the veteran Butler about as far for the place.

In the ten-mile race for professionals there was considerable jockeying. King and Butler tricked the other riders, and Kramer, seing he had no chance, quit early, Kings handicap placed him within sixty yards of the scratch men and by sprinting he managed to catch up with them. This gave him an advantage he managed to hold to the end and he won by nearly a lap. The finish between Krebs. Newkirk and Freeman was close. Results:

Sports in Humboldt.

HUMBOLDT. Neb. Nov. 10.—(Special.)—
The Auburn High school team played foot ball yesterday afternoon with Humboldt. The score was 6 to 5 in favor of Humboldt. Humboldt's sporting element turned out yesterday to witness a wrestling match between Ralph McKinney and Will H. Carsh, local athletic young farmers. The friends of each put up considerable coin and much interest was manifested. In the contest McKinney's superior strength and weight told the tale, as he lifted his opponent clear off the ground and then handled him about as he pleased.

PITHY SAYINGS OF ARMOUR.

Successful Life.

Pithy sayings were characteristic of the conversation and letters of the late Philip D. Armour. Impressed with their value, his office associates recorded many of them and the appended ones are a few of a number published in Success. That magazine gives them as valuable suggestions to young men from a master in the art of business man-

Good men are not cheap. Capital can do nothing without brains to direct it.

An American boy counts one long before his time to vote. Give the young man a chance; this is the

country for the young. We can't help the past, but we can look

out for the future. Hope is pretty poor security to go to bank to borrow money on. A "sit-down" method won't do a minute

in this age of aggressiveness.

There is nothing else on earth so annoying as prograstination in decisions. A man does not necessarily have to be a lawyer to have good, hard sense. An indiscreet man usually lives to see the

folly of his ways, and if he doesn't his children do. A man should always be close to the situ-

ation, know what he is doing and not take anything for granted. There is one element that is worth its weight in gold, and that is loyalty. It will cover a multitude of weaknesses.

It is an easy matter to handle even congested controversies, where the spirit of the parties is right and honest. The trouble with a great many men is they don't appreciate their predicament

until they get into the quicksand. When you are striving to do that which is right be courteous and nice in every way, but don't get "turned down." The man who wants to marry happily should pick out a good mother and marry one of her daughters; any one will do. Do you suppose that with an engine like

this I could afford to put anything into the boiler that would make the machinery run wild? It is all right, in some cases, to bank on a man's pedigree, but in most men there is something a great deal deeper than this

matter of genealogy.

I will always risk a man if he is in the dark and knows it, but I haven't much use for a man who is groping around in the dark and doesn't know it.

GENERAL CHAFFEE EXCUSED HIM. A Wagonmaster Who Could Be Per-

sunded to Bend.

"Rill" Hall, who is now a wagonmaster on duty at Pasay cavalry barracks, relates the Manila American, is the hero of an amusing little story in which General Chaffee, the new military governor of the Philippine Islands, figures.

"Bill" Hall formerly campaigned with General Chaffee in New Mexico and other points in the west. It seems that during the recent China campaign "Bill" was stationed at Taku, While there he was called before General Chaffee and asked if he could handle 90,000 rounds of ammunition. "Bill" is a man who believed in obeying orders. He thought the matter over and finally decided that he could handle the ammunition. He made an answer to this effect and was told to take the ammunition and follow the Fourteenth infantry. "Bill" did as he was told.

He followed the Fourteenth infantry until under the walls of Pekin, and while here was called before the colonel of the Fourteenth, who ordered him to follow his men and pick up their spades as they dropped them in the advance.

"I can't do it. Bill responded, "here are my orders, read them."

"What, you can't do it! I'll report you to General Chaffee in the morning." the colonel indignantly responded.

"Very well, sir, with a salute.

The next morning Colonel Daggett approached the general and reported the occurrence, stating that he had ordered Wagonmaster Hall to pick up his spades as his men dropped them, and that Wagonmaster Hall had refused.

"H'm pick up your spades." the general remarked. "Why, that man wouldn't pick up my saber if I should drop it."
