all claims for damage done my party. Fusion in Nebraska was the child of protest against the republican machine. Just as fusion in New York at the late election was the offspring of protest against the Tammany machine. Granted that there was good cause for fusion between democrace and populists in other years, does that cause still exist? I doubt it. When the RIGORS OF WINTER WOULD AID SCHEME populist movement was inaugurated the leaders distinctly proclaimed that it was not their purpose to organize a new political party, but rather to compel one of the old parties to champion certain of them principles. The demands of the fathers of populism have been fully met. The democratic party has adopted every tenable principle urged by the pioneer populists. In view of this fact I believe fairness ought now to dictate the enlistment of all populists under the democratic banner. And I believe that practically all populists who supported Judge Hollenbeck in the late campaign are now agreed that dear by becoming active members of the democratic party. I have heard populists say they would join the democratic ranks but for the fear that the party may again be captured by the Cleveland crowd. Their fears would be groundless if all populists would take active part in the party work and thus be able to assist in defeating the event which they fear. It cannot be fairly taken as an offensive assertion to say that the populist party as such is on the verge of dissolution. The election returns are parent to the assertion. The natural home of a Nebraska populist is within a political organization which believes in and advocates his principles. Populists for principle can and will feel at home at the democratic fireside. I sincerely trust they will I am optimistic. Perhaps it may be necessary for me once again to fight repubiteanism and all that the term implies under a fusion banner. I shall make the fight if commanded to do so by my superior officer-the democratic convention. But hope the dawn of democracy's new day is close at hand-the day in which democrats may nominate candidates for office without the aid or consent of any other political organization on earth. EDGAR HOWARD.

W. H. Thompson Talks. GRAND ISLAND, Neb., Nov. 15 .- To the

Editor of The Bee: A careful examination of the vote cast at the election shows that the opposition to the republican party is in the majority in this state. The shrinkage in the vote of the fusion forces in every county was caused by their failure to vote. in no instance, so far as I have observed, was the majority for the republican ticket traceable to a return of populists to the republican party. What it was caused this tack of interest in the recent campaign is not so easily answered. However, in that the populist is not a radical partisan, and the fact that the fusionists had two of the members of the supreme court and that to elect another would to them make the court appear as a partisan court more so than if a part thereof was a representative of the opposition, is one element of party with no expectation of ever joining the democratic; hence, they take some Dolphin on his way back to Skagway. stock in the republican cry of their liability to be swallowed up by the democracy and thus take a more lively interest in a campaign in which one of their own party heads the ticket. Those who feel thus are of course in the extreme minority; most of them believing that all those who think alike should vote alike, and this whether the ticket is headed by a democrat or a populist. Personally, I love the democratic party for the principles upon which it is wrongs exist in fusing with any party that will assist in righting those wrongs. All republicans said this idea was correct recent election in New York City and the better element in the republican party said this was correct in the recent election in the state of Pennsylvania.

There are many wrongs in this state that should be righted, and I believe that the democrats and populists should in the coming campaign of 1902 fuse on the entire state and legislative tickets, and I further believe confidently that they will, and that thereby the state will be taken from the hands of the republican party and placed in the hands of those who gave the state six years of the best and most economic government that it ever had. W. H. THOMPSON.

Ex-Congressman Sutherland.

NELSON, Neb., Nov. 17 .- To the Editor of The Bee: The returns indicate that at the election held on the 5th of the month a large number of the populists and democrats failed to vote. At least 20,000 who had evidently supported our ticket in the past failed to have their votes recorded. The presumption is that had they gone to the polls this year they would have once more voted with us. The republicans were able, as in the past, to get every republican voter out on election day. I am of the opinion that the large stay

at-home vote this year is as thoroughly in sympathy with the policies and principles of our party as ever and that a failure to vote canot be accepted as a change of view on political subjects, but rather as an indication that they believed the state would carried for Hollenbeck without their vote. I cannot say at this time just what the policy will be in the matter of fusion next year, for our voters determine those questions for themselves.

I am, however, a firm believer in the platform and views of the populist party. I cargo lost, am also well acquainted with the fearlessress and independence of the members of ATHLETES WILL BEND TO OARS the party. They acknowledge no master and In their views and party action they are guided by what they deem to be right and for the best interest of the people.

The very fact that the populists left the old parties in 1890 and as democrats and republicans fused in the organization of the new party indicates their independence. If they deem it to be right to fuse with the Bryan democrats, those fearless fighters for good government, next year they will do so when the convention day arrives, but whatever action is taken by the two parties it will be for the best as

Two Trenton Blases at Once. TRENTON, Neb., Nov. 17 .- (Special Telegram.)-There was considerable excitement in Trenton last night when two fires occurred at the same time, one in the business part of town and one in a residence in the west part of town. The one occurring in the county clerk's office was caused by the explosion of a stove. The flames were extinguished before any damage was done. The other, at the house of Dexter Russell, was caused by the explosion of a Mr. Russell, who lives alone, was across the street when the explosion occurred. The window casings were in flames when Mr. Russell reached home, but with help of neighbors he soon put out the fire. Walls and windows were ruined.

Miners Said to Have Conspired Against the Deminion Government.

Sensational Story Details Plans for Isolated Republic with Center in Dawson Extending to Various Other Cities.

SAN FRANCISCO, Nov. 17.-The Call today prints an unconfirmed story from Skagway, Alaska, under date of November 6 telling of the discovery of what is alleged to be a huge conspiracy existing in Dawson and ramifying to Skagway, Victoria, Vanthey can best advance the principles held couver and Seattle for the overthrow of the local government of the Northwest Territory and the establishment of a republic, with Dawson as its capital.

According to the details of the story, arms, ammunition and provisions have been taken in over the railroad and cached at strategic points. Prominent American residents of Skagway are said to be ringleaders in the conspiracy. Miners to the number of 5,000 are said to await the summons to arms, ready to fight for the independence from Dominion rule of the

gold field camps and towns. The plan is to overpower the mounted police, arrest the civil authorities and take the government into their own hands. The rigers of the Arctic winters would give the insurgents six months' immunity from attack by Canadian or British troops and come. I believe they will come. Perhaps the adventurous archeonspirators hope for intervention or outside assistance by the time the melting of ice or snow will permit the invasion of their isolated republic.

Authorities Hold Conference. It is further related that a hurried con-

ference lasting until midnight was held at Skagway, November 9, at which were press 400 to 450 in higher police, and from 2,000 in Porto Rico to furnish the bail. ent Captain Corrigan of the Northwest Mounted police, who had arrived from across the Canadian border late that evening; Judge Brown of the United States district court; United States Marshal Shoupe; United States Attorney Frederick and States troops at Skagway.

This was the last of several hasty consultations between the civil and military representatives of the two powers in relation to the mysterious transportation of conspiracy to lead the miners in a revolt against Canadian government in the

Northwest Territory. Those present maintained subsequently the strictest silence concerning the new my opinion, it arose first from the fact evidence laid before them and their evident auxiety helped to confirm the rumors of

ST. PETERSBURG, Nov. 17 .- A criminal process which has just ended at Nijni Novgored proves that Russia has not yet attained the ideal of all governments, an incorruptible public service. Several engineers, led by one Alexandroff, were convicted of wholesale frauds in connection with river improvements covering a number of years. They executed whatever work they did in the most shameless manner and charged for material never purchased and laborers never hired and sold material sent them almost as fast as it was delivered. It is interesting in this connection that Assistant Minister of Finance Romanoff's visit to Manchuria was mainly to inquire into the peculiar disappearance of railway records from places where the Chinese found nothing else worth carrying off.

From many provinces there have been coming in during several months loud complaints against the government liquor monopoly. Nearly all the zemstva of the famine district have petitioned vainly, it seems, against the continued sale of spirits during the famine and the city of St. Petersburg and the houseowners in a portion of the city, with a population of 10,-000 workingmen, are petitioning the govern ment to close the liquor booths in these districts. In other parts the zemstva demand higher liquor prices, the increased profits to be devoted to education. These petitions have likewise been disregarded so far. The minister of finance proposes to allow the temperance commission 4. 606,000 roubles next year. The finance minister, who has control of all factories. proposes to introduce evening and Sunday classes for workmen, instruction to be both elementary and technical.

The annual student movement appears to have begun this year at Kieff. The press is beginning to realize that the government has made a radical frontabout in respect to famines and this year displays no signs of pursuing an ostrich policy. Commendable energy is also manifest in relief measures, though reports from portions of Siberia show the needed grain has not reached its destination, prices in some places standing 200 to 300 per cent above normal. FEDERATION GUARANTEES HIS BAIL BOND

WASHINGTON, Nov. 17.-The release of an entrance through the air passages. Sidney McKee, San Juan, Porto Rico-Request you furnish bail \$60 for the re-lease of Iglesias, pending his trial. The federation and myself will be responsible. SAMUEL GOMPERS.

Another cablegram, sent direct to Iglesias n jail, announces this action and requested him to cable directly a report as to the real cause of his arrest. Mr. Iglesias has not yet cabled a word direct to the federation since his arrest.

McKee Offers Services.

The dispatches sent from here today follow information received through the Associated Press and other sources that Iglesias is still in jail; that through intervention of influential friends the bail had been reduced from \$2,000 to \$500 and that McKee stood ready to furnish the bail if the organization requested it and would be responsible. Mr. Gompers also received private word that as the incident had become a public question it was deemed for a large increase of the police force from | inadvisable for anyone on his own account

The executive council of the federation which Mr. Gompers did not have time to consult in advance doubtless will approve his action. Otherwise, he himself will have to stand for the amount. Mr. Gompers says today:

"Neither the federation nor myself will stand for anything unlawfully done by anyone, but Mr. Iglesias was arrested upon a charge which can be easily proved to be without any foundation in fact. He was engaged in protecting the workingmen of Porto Rico from being paid in greatly depreciated money, it being tantamount to a 25 per cent reduction in their wages.

"A man was killed and another burt in scuffle at the time of the strike, but that Mr. Iglesias was not even remotely connected with this I am perfectly satisfied and he will no doubt be able to demonstrate this at the trial. For this reason bail will be furnished."

MANY HANDS TAKE CENSUS Increased Force Needed to Have Reports Ready on Time-July First

is the Date Set by Law.

WASHINGTON, Nov. 17 .- The annual report of Hon. W. R. Merriam, director of the census, was made public today by the secretary of the interior, to whom it is addressed. Speaking of the prospect of meeting the legal requirement for the completion of the four principal reports by July

1, 1902, Mr. Merriam says: "The work of tabulating the returns and results of the field work of the enumerators and special agents of the twelfth census has progressed with reasonable The law provides that the four principal reports shall be placed in the hands of the public by July 1, 1902, and this requirement has rendered it absolutely necessary to maintain a clerical force adequate to complete the work within the prescribed period. The statisticians made estimates of the time needed to finish the particular branch assigned to each of them.

"The plans so submitted have been greatly interfered with owing to the absence of clerks from duty owing to sickness or annual leave. It was hoped by Novem ber I a large number of employes could be dispensed with, but lnasmuch as the work has been retarded owing to the difficulty of maintaining the clerical force at its max imum, it is not likely that there will be any material reduction until after the firs of the year. The officials of the office be lieve that their allotted task will be com pleted in ample time."

The director gives a list of prosecutions for violation of the law in connection with the census work, saving of them: "It was hardly to be expected out of the large number of agents employed in the

field work-about 55,000 in all-that there would not be some who would prove in competent and unfaithful to duty. The director has endeavored to enforce the census act to the letter and through the assist ance of the attorney general has proceeded against all offenders.

The report includes detailed statements from the different chiefs of divisions in the bureau. S. N. D. North chief of the manufacturing division, reports that the work of his division is rapidly drawing to completion. Mr. North says:

"This office has secured from cotton producers, cotton exchanges, cotton factories and cotton manufacturers an overwhelming approval of the service rendered by these reports. I am, therefore, led to recommend that congress pass a joint resolution authorizing and instructing the cen sus office to make a similar canvass of th cotton ginneries annually.

"Under its present organized system of machinery this office will be able to publish this cotton report as early as the month of May or June in each year, or three to four months in advance of their possible publication through other agencies The commercial advantages resulting from these earlier, more accurate and detailed statistics as to the volume of the annual cotton crop are too obvious to be further dwelt upon.

Saturday's Games Bettle Two Points Be-

youd Dispute.

Either Yale or Harvard Will Be Enthroned Beyond Dispute-West Not So Certain as to Its Lender.

Of more importance than the foot ball games played on any one day so far this because they put clearly out of the races in the race. for the championship of the Big Four in the east and the Big Nine in the west two

Tigers it has been impossible to settle this much-mooted question, for the comparative victories and scores so arranged themselves that there was always room for legitimate dispute. This season it will be plainly de termined, Pennsylvania has been outclassed by all the other three, and now Yale has put Princeton out of the running. This means that the Yale-Harvard game next Saturday will settle the matter definitely for once. The winner of that great game will be the undisputed champion of the Bis Four and the alleged best team in the world.

At Madison, Wis., was played a game of far more interest to westerners than even the struggle at New Haven. It was the one in which the husky little Badgers simply toyed with the giant Gophers from Minnesota and defeated them by a score of 18 to 0, every point being made in the first half of the game. The Gophers are laid away back about even with Nebraska, for although early in the season they defeated the Cornhuskers, later developments have changed the relative standing. Wisconsin defeated Nebraska 18 to 0, and Captain Curtis said after Saturday's game that the little men from the west were a harder nut to crack than the big men from the north. The Padgers simply ate Minnesota up, making three touchdowns and a safety in thirty-five minutes' of play, while with Nebraska they fought the whole of the sevent; minutes for a similar score. Budgers Let Up Then

It was plain that the Badgers let up in the second half and did not try hard to score, although they would have doubtless have done so if the opportunity had come pounds heavier to the man, had been a real task to LAYS CASE BEFORE CONGRESS what they did. So Coach King said that if they would just keep the Gophers fighting during the second half that would be enough. That's what they did, keeping the ball always in Gopher territory, but never attempting to run it much. In fact, five times did Driver kick on the first down, without even attempting to have the

The other feature is that the only other logical claimant for western foot ball championship honors, the machigan team, will have an opportunity to compare with the Badgers, although there is no game between them. Saturday the Wolverines de-Wisconsin plays Chicago. Will they do throw one shovelful into the wagon of the more or less against Stagg's pupils? That contractors, which will be decorated in is the burning question, for everyone dislikes to have the season end with two champions, alleged or real.

Meanwhile Nebraska has beaten Kansas by a good, decisive score, but the Cornhuskers descrie every censure for allowing so weak a team to cross their goal line. Drain, quarterback and general star, was again the hit of the game. His development in three years' play has been phenom-
